contracts and customer purchase orders are generally used to determine the existence of an arrangement . shipping documents are used to verify delivery . the company assesses whether the selling price is fixed or determinable based upon the payment terms associated with the transaction and whether the sales price is subject to refund or adjustment . the company assesses collectibility based primarily on the creditworthiness of the customer as determined by credit checks and analysis , as well as the customer 2019s payment history . accruals for customer returns for defective product are based on historical experience with similar types of sales . accruals for rebates and incentives are based on pricing agreements and are generally tied to sales volume . changes in such accruals may be required if future returns differ from historical experience or if actual sales volume differ from estimated sales volume . rebates and incentives are recognized as a reduction of sales . compensated absences . in the fourth quarter of 2001 , the company changed its vacation policy for certain employees so that vacation pay is earned ratably throughout the year and must be used by year-end . the accrual for compensated absences was reduced by \$ 1.6 million in 2001 to eliminate vacation pay no longer required to be accrued under the current policy . advertising . advertising costs are charged to operations as incurred and amounted to \$ 18.4 , \$ 16.2 and \$ 8.8 million during 2003 , 2002 and 2001 respectively . research and development . research and development costs are charged to operations as incurred and amounted to \$ 34.6 , \$ 30.4 and \$ 27.6 million during 2003 , 2002 and 2001 , respectively . product warranty . the company 2019s products carry warranties that generally range from one to six years and are based on terms that are generally accepted in the market place . the company records a liability for the expected cost of warranty-related claims at the time of sale . the allocation of our warranty liability between current and long-term is based on expected warranty claims to be paid in the next year as determined by historical product failure rates . 1 . organization and significant accounting policies (continued) the following table presents the company 2019s product warranty liability activity in 2003 and 2002 : note to table : environmental costs . the company accrues for losses associated with environmental obligations when such losses are probable and reasonably estimable . costs of estimated future expenditures are not discounted to their present value . recoveries of environmental costs from other parties are recorded as assets when their receipt is considered probable . the accruals are adjusted as facts and circumstances change . stock based compensation . the company has one stock-based employee compensation plan (see note 11) . sfas no . 123 , 201ccounting for stock-based compensation , 201d encourages , but does not require companies to record compensation cost for stock-based employee compensation plans at fair value . the company has chosen to continue applying accounting principles board opinion no . 25 , 201ccounting for stock issued to employees , 201d and related interpretations , in accounting for its stock option plans . accordingly , because the number of shares is fixed and the exercise price of the stock options equals the market price of the underlying stock on the date of grant , no compensation expense has been recognized . had compensation cost been determined based upon the fair value at the grant date for awards under the plans based on the provisions of sfas no . 123 , the company 2019s pro forma earnings and earnings per share would have been as follows: .

	2003	2002
-----	-----	-----
balance at beginning of year	63.2	69.6
expense	29.1	29.9
claims settled	-30.2	-29.1
customer warranty waiver (1)	--	-7.2
balance at end of year	62.1	63.2

(1) in exchange for other concessions , the customer has agreed to accept responsibility for units they have purchased from the company which become defective . the amount of the warranty reserve applicable to the

estimated number of units previously sold to this customer that may become defective has been reclassified from the product warranty liability to a deferred revenue account. .

Abiomed (ABMD)

2003

Document ID: Single_ABMD/2003/page_27.pdf-4

a lump sum buyout cost of approximately \$ 1.1 million . total rent expense under these leases , included in the accompanying consolidated statements of operations , was approximately \$ 893000 , \$ 856000 and \$ 823000 for the fiscal years ended march 31 , 2001 , 2002 and 2003 , respectively . during the fiscal year ended march 31 , 2000 , the company entered into 36-month operating leases totaling approximately \$ 644000 for the lease of office furniture . these leases ended in fiscal year 2003 and at the company 2019s option the furniture was purchased at its fair market value . rental expense recorded for these leases during the fiscal years ended march 31 , 2001 , 2002 and 2003 was approximately \$ 215000 , \$ 215000 and \$ 127000 respectively . during fiscal 2000 , the company entered into a 36-month capital lease for computer equipment and software for approximately \$ 221000 . this lease ended in fiscal year 2003 and at the company 2019s option these assets were purchased at the stipulated buyout price . future minimum lease payments under all non-cancelable operating leases as of march 31 , 2003 are approximately as follows (in thousands) : .

	operating leases
-----	-----
2004	781
2005	776
2006	776
2007	769
2008	772
thereafter	1,480
total future minimum lease payments	5,354

from time to time , the company is involved in legal and administrative proceedings and claims of various types . while any litigation contains an element of uncertainty , management , in consultation with the company 2019s general counsel , presently believes that the outcome of each such other proceedings or claims which are pending or known to be threatened , or all of them combined , will not have a material adverse effect on the company . 7 . stock option and purchase plans all stock options granted by the company under the below-described plans were granted at the fair value of the underlying common stock at the date of grant . outstanding stock options , if not exercised , expire 10 years from the date of grant . the 1992 combination stock option plan (the combination plan) , as amended , was adopted in september 1992 as a combination and restatement of the company 2019s then outstanding incentive stock option plan and nonqualified plan . a total of 2670859 options were awarded from the combination plan during its ten-year restatement term that ended on may 1 , 2002 . as of march 31 , 2003 , 1286042 of these options remain outstanding and eligible for future exercise . these options are held by company employees and generally become exercisable ratably over five years . the 1998 equity incentive plan , (the equity incentive plan) , was adopted by the company in august 1998 . the equity incentive plan provides for grants of options to key employees , directors , advisors and consultants as either incentive stock options or nonqualified stock options as determined by the company 2019s board of directors . a maximum of 1000000 shares of common stock may be awarded under this plan . options granted under the equity incentive plan are exercisable at such times and subject to such terms as the board of directors may specify at the time of each stock option grant . options outstanding under the equity incentive plan have vesting periods of 3 to 5 years from the date of grant . the 2000 stock incentive plan , (the 2000 plan) , was adopted by the company in august 2000 . the 2000 plan provides for grants of options to key employees , directors , advisors and consultants to the company or its subsidiaries as either incentive or nonqualified stock options as determined by the company 2019s board of directors . up to 1400000 shares of common stock may be awarded under the 2000 plan and are exercisable at such times and subject to such terms as the board of directors may specify at the time of each stock option grant . options outstanding under

the 2000 plan generally vested 4 years from the date of grant . the company has a nonqualified stock option plan for non-employee directors (the directors 2019 plan) . the directors 2019 plan , as amended , was adopted in july 1989 and provides for grants of options to purchase shares of the company 2019s common stock to non-employee directors of the company . up to 400000 shares of common stock may be awarded under the directors 2019 plan . options outstanding under the directors 2019 plan have vesting periods of 1 to 5 years from the date of grant . notes to consolidated financial statements (continued) march 31 , 2003 page 25 .

Adobe (ADBE)

2003

Document ID: Double_ADBE/2003/page_90.pdf

building . the construction of the building was completed in december 2003 . due to lower than expected financing and construction costs , the final lease balance was lowered to \$ 103.0 million . as part of the agreement , we entered into a five-year lease that began upon the completion of the building . at the end of the lease term , we can purchase the building for the lease balance , remarket or relinquish the building . if we choose to remarket or are required to do so upon relinquishing the building , we are bound to arrange the sale of the building to an unrelated party and will be required to pay the lessor any shortfall between the net remarketing proceeds and the lease balance , up to the maximum recourse amount of \$ 90.8 million (201cresidual value guarantee 201d) . see note 14 in our notes to consolidated financial statements for further information . in august 1999 , we entered into a five-year lease agreement for our other two office buildings that currently serve as our corporate headquarters in san jose , california . under the agreement , we have the option to purchase the buildings at any time during the lease term for the lease balance , which is approximately \$ 142.5 million . we are in the process of evaluating alternative financing methods at expiration of the lease in fiscal 2004 and believe that several suitable financing options will be available to us . at the end of the lease term , we can purchase the buildings for the lease balance , remarket or relinquish the buildings . if we choose to remarket or are required to do so upon relinquishing the buildings , we are bound to arrange the sale of the buildings to an unrelated party and will be required to pay the lessor any shortfall between the net remarketing proceeds and the lease balance , up to the maximum recourse amount of \$ 132.6 million (201cresidual value guarantee 201d) . for further information , see note 14 in our notes to consolidated financial statements . the two lease agreements discussed above are subject to standard financial covenants . the agreements limit the amount of indebtedness we can incur . a leverage covenant requires us to keep our debt to ebitda ratio less than 2.5:1.0 . as of november 28 , 2003 , our debt to ebitda ratio was 0.53:1.0 , well within the limit . we also have a liquidity covenant which requires us to maintain a quick ratio equal to or greater than 1.0 . as of november 28 , 2003 , our quick ratio was 2.2 , well above the minimum . we expect to remain within compliance in the next 12 months . we are comfortable with these limitations and believe they will not impact our cash or credit in the coming year or restrict our ability to execute our business plan . the following table summarizes our contractual commitments as of november 28 , 2003 :

	less than 1 year	1 year	1 to 3 years	3-5 years	5 years
years non-cancelable operating leases , net of sublease income	\$ 83.9	\$ 23.6	\$ 25.9	\$ 16.3	\$ 18.1

indemnifications in the normal course of business , we provide indemnifications of varying scope to customers against claims of intellectual property infringement made by third parties arising from the use of our products . historically , costs related to these indemnification provisions have not been significant and we are unable to estimate the maximum potential impact of these indemnification provisions on our future results of operations . we have commitments to make certain milestone and/or retention payments typically entered into in conjunction with various acquisitions , for which we have made accruals in our consolidated financial statements . in connection with our purchases of technology assets during fiscal 2003 , we entered into employee retention agreements totaling \$ 2.2 million . we are required to make payments upon satisfaction of certain conditions in the agreements . as permitted under delaware law , we have agreements whereby we indemnify our officers and directors for certain events or occurrences while the officer or director is , or was serving , at our request in such capacity . the indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime . the maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited ; however , we have director and officer insurance coverage that limits our exposure and enables us to recover a portion of any future amounts paid . we believe the estimated fair value of these indemnification agreements in excess of applicable insurance coverage is minimal .

Advance Auto Parts (AAP)

2006

Document ID: Double_AAP/2006/page_85.pdf

advance auto parts , inc . and subsidiaries notes to consolidated financial statements 2013 (continued)
december 30 , 2006 , december 31 , 2005 and january 1 , 2005 (in thousands , except per share data) 8 .
inventories , net inventories are stated at the lower of cost or market , cost being determined using the last-in ,
first-out ("lifo") method for approximately 93% (93 %) of inventories at both december 30 , 2006 and
december 31 , 2005 . under the lifo method , the company 2019s cost of sales reflects the costs of the most
currently purchased inventories while the inventory carrying balance represents the costs relating to prices paid
in prior years . the company 2019s costs to acquire inventory have been generally decreasing in recent years
as a result of its significant growth . accordingly , the cost to replace inventory is less than the lifo balances
carried for similar product . as a result of the lifo method and the ability to obtain lower product costs , the
company recorded a reduction to cost of sales of \$ 9978 for fiscal year ended 2006 , an increase in cost of
sales of \$ 526 for fiscal year ended 2005 and a reduction to cost of sales of \$ 11212 for fiscal year ended 2004 .
the remaining inventories are comprised of product cores , which consist of the non-consumable portion of
certain parts and batteries and are valued under the first-in , first-out ("fifo") method . core values are included
as part of our merchandise costs and are either passed on to the customer or returned to the vendor .
additionally , these products are not subject to the frequent cost changes like our other merchandise inventory ,
thus , there is no material difference from applying either the lifo or fifo valuation methods . the company
capitalizes certain purchasing and warehousing costs into inventory . purchasing and warehousing costs
included in inventory , at fifo , at december 30 , 2006 and december 31 , 2005 , were \$ 95576 and \$ 92833 ,
respectively . inventories consist of the following : december 30 , december 31 , 2006 2005 .

	december 30 2006	december 31 2005
inventories at fifo net	1,380,573	1,294,310
adjustments to state inventories at lifo	82,767	72,789
inventories at lifo net	1,463,340	1,367,099

replacement cost approximated fifo cost at december 30 , 2006 and december 31 , 2005 . inventory quantities
are tracked through a perpetual inventory system . the company uses a cycle counting program in all
distribution centers , parts delivered quickly warehouses , or pdqs , local area warehouses , or laws , and retail
stores to ensure the accuracy of the perpetual inventory quantities of both merchandise and core inventory . the
company establishes reserves for estimated shrink based on historical accuracy and effectiveness of the cycle
counting program . the company also establishes reserves for potentially excess and obsolete inventories
based on current inventory levels and the historical analysis of product sales and current market conditions . the
nature of the company 2019s inventory is such that the risk of obsolescence is minimal and excess inventory
has historically been returned to the company 2019s vendors for credit . the company provides reserves when
less than full credit is expected from a vendor or when liquidating product will result in retail prices below
recorded costs . the company 2019s reserves against inventory for these matters were \$ 31376 and \$ 22825 at
december 30 , 2006 and december 31 , 2005 , respectively . 9 . property and equipment : property and
equipment are stated at cost , less accumulated depreciation . expenditures for maintenance and repairs are
charged directly to expense when incurred ; major improvements are capitalized . when items are sold or retired
, the related cost and accumulated depreciation are removed from the accounts , with any gain or loss reflected
in the consolidated statements of operations . depreciation of land improvements , buildings , furniture , fixtures
and equipment , and vehicles is provided over the estimated useful lives , which range from 2 to 40 years , of
the respective assets using the straight-line method. .

AES Corporation (AES)

2000

Document ID: Double_AES/2000/page_111.pdf

aes 2000 financial review in may 2000 , a subsidiary of the company acquired an additional 5% (5 %) of the preferred , non-voting shares of eletropaulo for approximately \$ 90 million . in january 2000 , 59% (59 %) of the preferred non-voting shares were acquired for approximately \$ 1 billion at auction from bndes , the national development bank of brazil . the price established at auction was approximately \$ 72.18 per 1000 shares , to be paid in four annual installments commencing with a payment of 18.5% (18.5 %) of the total price upon closing of the transaction and installments of 25.9% (25.9 %) , 27.1% (27.1 %) and 28.5% (28.5 %) of the total price to be paid annually thereafter . at december 31 , 2000 , the company had a total economic interest of 49.6% (49.6 %) in eletropaulo . the company accounts for this investment using the equity method based on the related consortium agreement that allows the exercise of significant influence . in august 2000 , a subsidiary of the company acquired a 49% (49 %) interest in songas limited for approximately \$ 40 million . songas limited owns the songosongos gas-to-electricity project in tanzania . under the terms of a project management agreement , the company has assumed overall project management responsibility . the project consists of the refurbishment and operation of five natural gas wells in coastal tanzania , the construction and operation of a 65 mmscf/day gas processing plant and related facilities , the construction of a 230 km marine and land pipeline from the gas plant to dar es salaam and the conversion and upgrading of an existing 112 mw power station in dar es salaam to burn natural gas , with an optional additional unit to be constructed at the plant . since the project is currently under construction , no revenues or expenses have been incurred , and therefore no results are shown in the following table . in december 2000 , a subsidiary of the company with edf international s.a . (201cedf 201d) completed the acquisition of an additional 3.5% (3.5 %) interest in light from two subsidiaries of reliant energy for approximately \$ 136 million . pursuant to the acquisition , the company acquired 30% (30 %) of the shares while edf acquired the remainder . with the completion of this transaction , the company owns approximately 21.14% (21.14 %) of light . in december 2000 , a subsidiary of the company entered into an agreement with edf to jointly acquire an additional 9.2% (9.2 %) interest in light , which is held by a subsidiary of companhia siderurgica nacional (201ccsn 201d) . pursuant to this transaction , the company acquired an additional 2.75% (2.75 %) interest in light for \$ 114.6 million . this transaction closed in january 2001 . following the purchase of the light shares previously owned by csu , aes and edf will together be the controlling shareholders of light and eletropaulo . aes and edf have agreed that aes will eventually take operational control of eletropaulo and the telecom businesses of light and eletropaulo , while edf will eventually take operational control of light and eletropaulo 2019s electric workshop business . aes and edf intend to continue to pursue a further rationalization of their ownership stakes in light and eletropaulo , the result of which aes would become the sole controlling shareholder of eletropaulo and edf would become the sole controlling shareholder of light . upon consummation of the transaction , aes will begin consolidating eletropaulo 2019s operating results . the structure and process by which this rationalization may be effected , and the resulting timing , have yet to be determined and will likely be subject to approval by various brazilian regulatory authorities and other third parties . as a result , there can be no assurance that this rationalization will take place . in may 1999 , a subsidiary of the company acquired subscription rights from the brazilian state-controlled eletrobras which allowed it to purchase preferred , non-voting shares in eletropaulo and common shares in light . the aggregate purchase price of the subscription rights and the underlying shares in light and eletropaulo was approximately \$ 53 million and \$ 77 million , respectively , and represented 3.7% (3.7 %) and 4.4% (4.4 %) economic ownership interest in their capital stock , respectively . the following table presents summarized financial information (in millions) for the company 2019s investments in 50% (50 %) or less owned investments accounted for using the equity method: .

	2000	1999	1998
-----	-----	-----	-----
revenues	6,241	5,960	8,091

equipment and energy .

	2013	2012	2011
-----	-----	-----	-----
sales	451.1	420.1	400.6
operating income	65.5	44.6	62.8

2013 vs . 2012 sales of \$ 451.1 increased primarily from higher lng project activity . operating income of \$ 65.5 increased from the higher lng project activity . the sales backlog for the equipment business at 30 september 2013 was \$ 402 , compared to \$ 450 at 30 september 2012 . it is expected that approximately \$ 250 of the backlog will be completed during 2014 . 2012 vs . 2011 sales of \$ 420.1 increased 5% (5 %) , or \$ 19.5 , reflecting higher air separation unit (asu) activity . operating income of \$ 44.6 decreased 29% (29 %) , or \$ 18.2 , reflecting lower lng project activity . the sales backlog for the equipment business at 30 september 2012 was \$ 450 , compared to \$ 334 at 30 september 2011 . other operating income (loss) primarily includes other expense and income that cannot be directly associated with the business segments , including foreign exchange gains and losses . also included are lifo inventory valuation adjustments , as the business segments use fifo , and the lifo pool valuation adjustments are not allocated to the business segments . other also included stranded costs resulting from discontinued operations , as these costs were not reallocated to the businesses in 2012 . 2013 vs . 2012 other operating loss was \$ 4.7 , compared to \$ 6.6 in the prior year . the current year includes an unfavorable lifo adjustment versus the prior year of \$ 11 . the prior year loss included stranded costs from discontinued operations of \$ 10 . 2012 vs . 2011 other operating loss was \$ 6.6 , compared to \$ 39.3 in the prior year , primarily due to a reduction in stranded costs , a decrease in the lifo adjustment as a result of decreases in inventory values , and favorable foreign exchange , partially offset by gains on asset sales in the prior year . .

Alexion Pharmaceuticals (ALXN)

2007

Document ID: Single_ALXN/2007/page_104.pdf-2

alexion pharmaceuticals , inc . notes to consolidated financial statements 2014 (continued) for the years ended december 31 , 2007 and 2006 , five month period ended december 31 , 2005 , and year ended july 31 , 2005 (amounts in thousands , except share and per share amounts) aggregate future minimum annual rental payments for the next five years and thereafter under non-cancellable operating leases (including facilities and equipment) as of december 31 , 2007 are: .

	\$ 4935
-----	-----
2009	3,144
2010	3,160
2011	3,200
2012	2,768
thereafter	9,934

9 . commitments and contingencies legal proceedings on march 16 , 2007 , pdl biopharma , inc . , or pdl , filed a civil action against alexion in the u.s . district court for the district of delaware . pdl claims willful infringement by alexion of pdl patents due to sales of soliris . pdl seeks unspecified damages , but no less than a reasonable royalty , plus attorney 2019s fees . alexion has denied pdl's claims . in addition , we filed counterclaims seeking declarations of non-infringement and invalidity of certain u.s . patents held by pdl . alexion believes it has good and valid defenses to pdl's claims and intends to vigorously defend the case and pursue its counterclaims . on february 4 , 2008 , sb2 , inc . filed a civil action against alexion in the united states district court for the northern district of california . sb2 , inc . claims willfull infringement by alexion of sb2 , inc . patents due to sales of soliris . sb2 , inc . seeks unspecified monetary damages , equitable relief and attorneys fees . alexion believes it has good and valid defenses to sb2's claims and intends to vigorously defend the case and pursue its counterclaims . the results of such civil actions cannot be predicted with certainty due to their early stages . however , depending on the outcome of these legal matters , the operating results of the company could be materially impacted through adjustments to cost of sales (see notes 2 , 6 and 15 for additional information related to royalties) . product supply the large-scale product supply agreement dated december 18 , 2002 , or the lonza agreement , between lonza sales ag , or lonza , and us , relating to the manufacture of soliris , was amended in june 2007 . we amended our supply agreement to provide for additional purchase commitments of soliris of \$ 30000 to \$ 35000 through 2013 . such commitments may only be cancelled in limited circumstances. .

Allegion (ALLE)

2015

Document ID: Single_ALLE/2015/page_81.pdf-1

table of contents recoverability of goodwill is measured at the reporting unit level and begins with a qualitative assessment to determine if it is more likely than not that the fair value of each reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test prescribed by gaap . for those reporting units where it is required , the first step compares the carrying amount of the reporting unit to its estimated fair value . if the estimated fair value of a reporting unit exceeds its carrying amount , goodwill of the reporting unit is not impaired and the second step of the impairment test is not necessary . to the extent that the carrying value of the reporting unit exceeds its estimated fair value , a second step is performed , wherein the reporting unit's carrying value of goodwill is compared to the implied fair value of goodwill . to the extent that the carrying value exceeds the implied fair value , impairment exists and must be recognized . the calculation of estimated fair value is based on two valuation techniques , a discounted cash flow model (income approach) and a market adjusted multiple of earnings and revenues (market approach) , with each method being weighted in the calculation . the implied fair value of goodwill is determined in the same manner as the amount of goodwill recognized in a business combination . the estimated fair value of the reporting unit is allocated to all of the assets and liabilities of the reporting unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit , as determined in the first step of the goodwill impairment test , was the price paid to acquire that reporting unit . recoverability of other intangible assets with indefinite useful lives (i.e . trademarks) is determined on a relief from royalty methodology (income approach) , which is based on the implied royalty paid , at an appropriate discount rate , to license the use of an asset rather than owning the asset . the present value of the after-tax cost savings (i.e . royalty relief) indicates the estimated fair value of the asset . any excess of the carrying value over the estimated fair value is recognized as an impairment loss equal to that excess . intangible assets such as patents , customer-related intangible assets and other intangible assets with finite useful lives are amortized on a straight-line basis over their estimated economic lives . the weighted-average useful lives approximate the following: .

		25		years	
		--		----	
	trademarks	25		years	
	completed technology/patents	10		years	
	other	25		years	

recoverability of intangible assets with finite useful lives is assessed in the same manner as property , plant and equipment as described above . income taxes : for purposes of the company 2019s consolidated financial statements for periods prior to the spin-off , income tax expense has been recorded as if the company filed tax returns on a stand-alone basis separate from ingersoll rand . this separate return methodology applies the accounting guidance for income taxes to the stand-alone financial statements as if the company was a stand-alone enterprise for the periods prior to the spin-off . therefore , cash tax payments and items of current and deferred taxes may not be reflective of the company 2019s actual tax balances prior to or subsequent to the spin-off . cash paid for income taxes for the year ended december 31 , 2015 was \$ 80.6 million . the income tax accounts reflected in the consolidated balance sheets as of december 31 , 2015 and 2014 include income taxes payable and deferred taxes allocated to the company at the time of the spin-off . the calculation of the company 2019s income taxes involves considerable judgment and the use of both estimates and allocations . deferred tax assets and liabilities are determined based on temporary differences between financial reporting and tax bases of assets and liabilities , applying enacted tax rates expected to be in effect for the year in which the differences are expected to reverse . the company recognizes future tax benefits , such as net operating

losses and tax credits , to the extent that realizing these benefits is considered in its judgment to be more likely than not . the company regularly reviews the recoverability of its deferred tax assets considering its historic profitability , projected future taxable income , timing of the reversals of existing temporary differences and the feasibility of its tax planning strategies . where appropriate , the company records a valuation allowance with respect to a future tax benefit . product warranties : standard product warranty accruals are recorded at the time of sale and are estimated based upon product warranty terms and historical experience . the company assesses the adequacy of its liabilities and will make adjustments as necessary based on known or anticipated warranty claims , or as new information becomes available. .

Altria Group (MO)

2012

Document ID: Double_MO/2012/page_44.pdf

middleton's reported cigars shipment volume for 2012 decreased 0.7% (0.7 %) due primarily to changes in trade inventories , partially offset by volume growth as a result of retail share gains . in the cigarette category , marlboro's 2012 retail share performance continued to benefit from the brand-building initiatives supporting marlboro's new architecture . marlboro's retail share for 2012 increased 0.6 share points versus 2011 to 42.6% (42.6 %) . in january 2013 , pm usa expanded distribution of marlboro southern cut nationally . marlboro southern cut is part of the marlboro gold family . pm usa's 2012 retail share increased 0.8 share points versus 2011 , reflecting retail share gains by marlboro and by l&m in discount . these gains were partially offset by share losses on other portfolio brands . in the machine-made large cigars category , black & mild's retail share for 2012 increased 0.5 share points . the brand benefited from new untipped cigarillo varieties that were introduced in 2011 , black & mild seasonal offerings and the 2012 third-quarter introduction of black & mild jazz untipped cigarillos into select geographies . in december 2012 , middleton announced plans to launch nationally black & mild jazz cigars in both plastic tip and wood tip in the first quarter of 2013 . the following discussion compares smokeable products segment results for the year ended december 31 , 2011 with the year ended december 31 , 2010 . net revenues , which include excise taxes billed to customers , decreased \$ 221 million (1.0% (1.0 %)) due to lower shipment volume (\$ 1051 million) , partially offset by higher net pricing (\$ 830 million) , which includes higher promotional investments . operating companies income increased \$ 119 million (2.1% (2.1 %)) , due primarily to higher net pricing (\$ 831 million) , which includes higher promotional investments , marketing , administration , and research savings reflecting cost reduction initiatives (\$ 198 million) and 2010 implementation costs related to the closure of the cabarrus , north carolina manufacturing facility (\$ 75 million) , partially offset by lower volume (\$ 527 million) , higher asset impairment and exit costs due primarily to the 2011 cost reduction program (\$ 158 million) , higher per unit settlement charges (\$ 120 million) , higher charges related to tobacco and health judgments (\$ 87 million) and higher fda user fees (\$ 73 million) . for 2011 , total smokeable products shipment volume decreased 4.0% (4.0 %) versus 2010 . pm usa's reported domestic cigarettes shipment volume declined 4.0% (4.0 %) versus 2010 due primarily to retail share losses and one less shipping day , partially offset by changes in trade inventories . after adjusting for changes in trade inventories and one less shipping day , pm usa's 2011 domestic cigarette shipment volume was estimated to be down approximately 4% (4 %) versus 2010 . pm usa believes that total cigarette category volume for 2011 decreased approximately 3.5% (3.5 %) versus 2010 , when adjusted primarily for changes in trade inventories and one less shipping day . pm usa's total premium brands (marlboro and other premium brands) shipment volume decreased 4.3% (4.3 %) . marlboro's shipment volume decreased 3.8% (3.8 %) versus 2010 . in the discount brands , pm usa's shipment volume decreased 0.9% (0.9 %) . pm usa's shipments of premium cigarettes accounted for 93.7% (93.7 %) of its reported domestic cigarettes shipment volume for 2011 , down from 93.9% (93.9 %) in 2010 . middleton's 2011 reported cigars shipment volume was unchanged versus 2010 . for 2011 , pm usa's retail share of the cigarette category declined 0.8 share points to 49.0% (49.0 %) due primarily to retail share losses on marlboro . marlboro's 2011 retail share decreased 0.6 share points . in 2010 , marlboro delivered record full-year retail share results that were achieved at lower margin levels . middleton retained a leading share of the tipped cigarillo segment of the machine-made large cigars category , with a retail share of approximately 84% (84 %) in 2011 . for 2011 , middleton's retail share of the cigar category increased 0.3 share points to 29.7% (29.7 %) versus 2010 . black & mild's 2011 retail share increased 0.5 share points , as the brand benefited from new product introductions . during the fourth quarter of 2011 , middleton broadened its untipped cigarillo portfolio with new aroma wrap 2122 foil pouch packaging that accompanied the national introduction of black & mild wine . this new fourth- quarter packaging roll-out also included black & mild sweets and classic varieties . during the second quarter of 2011 , middleton entered into a contract manufacturing arrangement to source the production of a portion of its cigars overseas . middleton entered into this arrangement to access additional production capacity in an uncertain competitive environment

and an excise tax environment that potentially benefits imported large cigars over those manufactured domestically . smokeless products segment the smokeless products segment's operating companies income grew during 2012 driven by higher pricing , copenhagen and skoal's combined volume and retail share performance and effective cost management . the following table summarizes smokeless products segment shipment volume performance : shipment volume for the years ended december 31 .

	shipment volume for the years ended december 31 , 2012	shipment volume for the years ended december 31 , 2011	shipment volume for the years ended december 31 , 2010
copenhagen	392.5	354.2	327.5
skoal	288.4	286.8	274.4
copenhagen and skoal	680.9	641	601.9
other	82.4	93.6	122.5
total smokeless products	763.3	734.6	724.4

volume includes cans and packs sold , as well as promotional units , but excludes international volume , which is not material to the smokeless products segment . other includes certain usstc and pm usa smokeless products . new types of smokeless products , as well as new packaging configurations .

American Airlines Group (AAL)

2014

Document ID: Double_AAL/2014/page_18.pdf

table of contents respect to the mainline american and the mainline us airways dispatchers , flight simulator engineers and flight crew training instructors , all of whom are now represented by the twu , a rival organization , the national association of airline professionals (naap) , filed single carrier applications seeking to represent those employees . the nmb will have to determine that a single transportation system exists and will certify a post-merger representative of the combined employee groups before the process for negotiating new jcbas can begin . the merger had no impact on the cbas that cover the employees of our wholly-owned subsidiary airlines which are not being merged (envoy , piedmont and psa) . for those employees , the rla provides that cbas do not expire , but instead become amendable as of a stated date . in 2014 , envoy pilots ratified a new 10 year collective bargaining agreement , piedmont pilots ratified a new 10 year collective bargaining agreement and piedmont flight attendants ratified a new five-year collective bargaining agreement . with the exception of the passenger service employees who are now engaged in traditional rla negotiations that are expected to result in a jcba and the us airways flight simulator engineers and flight crew training instructors , other union-represented american mainline employees are covered by agreements that are not currently amendable . until those agreements become amendable , negotiations for jcbas will be conducted outside the traditional rla bargaining process described above , and , in the meantime , no self-help will be permissible . the piedmont mechanics and stock clerks and the psa and piedmont dispatchers also have agreements that are now amendable and are engaged in traditional rla negotiations . none of the unions representing our employees presently may lawfully engage in concerted refusals to work , such as strikes , slow-downs , sick-outs or other similar activity , against us . nonetheless , there is a risk that disgruntled employees , either with or without union involvement , could engage in one or more concerted refusals to work that could individually or collectively harm the operation of our airline and impair our financial performance . for more discussion , see part i , item 1a . risk factors 2013 201cunion disputes , employee strikes and other labor-related disruptions may adversely affect our operations . 201d aircraft fuel our operations and financial results are significantly affected by the availability and price of jet fuel . based on our 2015 forecasted mainline and regional fuel consumption , we estimate that , as of december 31 , 2014 , a one cent per gallon increase in aviation fuel price would increase our 2015 annual fuel expense by \$ 43 million . the following table shows annual aircraft fuel consumption and costs , including taxes , for our mainline operations for 2012 through 2014 (gallons and aircraft fuel expense in millions) . year gallons average price per gallon aircraft fuel expense percent of total mainline operating expenses .

	gallons	average price per gallon	aircraft fuel expense	percent of total mainline operating expenses
2014	3,644	2.91	10,592	-33.2
2013 (a)	3,608	3.08	11,109	35.4
2012 (a)	3,512	3.19	11,194	35.8

(a) represents 201ccombined 201d financial data , which includes the financial results of american and us airways group each on a standalone basis . total combined fuel expenses for our wholly-owned and third-party regional carriers operating under capacity purchase agreements of american and us airways group , each on a standalone basis , were \$ 2.0 billion , \$ 2.1 billion and \$ 2.1 billion for the years ended december 31 , 2014 , 2013 and 2012 , respectively. .

American Tower (AMT)

2002

Document ID: Double_AMT/2002/page_74.pdf

american tower corporation and subsidiaries notes to consolidated financial statements 2014 (continued) the following table illustrates the effect on net loss and net loss per share if the company had applied the fair value recognition provisions of sfas no . 123 to stock-based compensation . the estimated fair value of each option is calculated using the black-scholes option-pricing model (in thousands , except per share amounts) :

	2002	2001	2000
net loss as reported	-1,141,879	-450,094	-194,628
less : total stock-based employee compensation expense determined under fair value basedmethod for all awards net of related tax effect	-38,126	-50,540	-51,186
pro-forma net loss	-1,180,005	-500,634	-245,814
basic and diluted net loss per share 2014as reported	-5.84	-2.35	-1.15
basic and diluted net loss per share 2014pro-forma	-6.04	-2.61	-1.46

fair value of financial instruments 2014as of december 31 , 2002 , the carrying amounts of the company 2019s 5.0% (5.0 %) convertible notes , the 2.25% (2.25 %) convertible notes , the 6.25% (6.25 %) convertible notes and the senior notes were approximately \$ 450.0 million , \$ 210.9 million , \$ 212.7 million and \$ 1.0 billion , respectively , and the fair values of such notes were \$ 291.4 million , \$ 187.2 million , \$ 144.4 million and \$ 780.0 million , respectively . as of december 31 , 2001 , the carrying amount of the company 2019s 5.0% (5.0 %) convertible notes , the 2.25% (2.25 %) convertible notes , the 6.25% (6.25 %) convertible notes and the senior notes were approximately \$ 450.0 million , \$ 204.1 million , \$ 212.8 million and \$ 1.0 billion , respectively , and the fair values of such notes were \$ 268.3 million , \$ 173.1 million , \$ 158.2 million and \$ 805.0 million , respectively . fair values were determined based on quoted market prices . the carrying values of all other financial instruments reasonably approximate the related fair values as of december 31 , 2002 and 2001 . retirement plan 2014the company has a 401 (k) plan covering substantially all employees who meet certain age and employment requirements . under the plan , the company matches 35% (35 %) of participants 2019 contributions up to a maximum 5% (5 %) of a participant 2019s compensation . the company contributed approximately \$ 979000 , \$ 1540000 and \$ 1593000 to the plan for the years ended december 31 , 2002 , 2001 and 2000 , respectively . recent accounting pronouncements 2014in june 2001 , the fasb issued sfas no . 143 , 201caccounting for asset retirement obligations . 201d this statement establishes accounting standards for the recognition and measurement of liabilities associated with the retirement of tangible long-lived assets and the related asset retirement costs . the requirements of sfas no . 143 are effective for the company as of january 1 , 2003 . the company will adopt this statement in the first quarter of 2003 and does not expect the impact of adopting this statement to have a material impact on its consolidated financial position or results of operations . in august 2001 , the fasb issued sfas no . 144 , 201caccounting for the impairment or disposal of long-lived assets . 201d sfas no . 144 supersedes sfas no . 121 , 201caccounting for the impairment of long-lived assets and for long-lived assets to be disposed of , 201d but retains many of its fundamental provisions . sfas no . 144 also clarifies certain measurement and classification issues from sfas no . 121 . in addition , sfas no . 144 supersedes the accounting and reporting provisions for the disposal of a business segment as found in apb no . 30 , 201creporting the results of operations 2014reporting the effects of disposal of a segment of a business and extraordinary , unusual and infrequently occurring events and transactions 201d . however , sfas no . 144 retains the requirement in apb no . 30 to separately report discontinued operations , and broadens the scope of such requirement to include more types of disposal transactions . the scope of sfas no . 144 excludes goodwill and other intangible assets that are not to be amortized , as the accounting for such items is prescribed by sfas no . 142 . the company implemented sfas no . 144 on january 1 , 2002 . accordingly , all relevant impairment assessments and decisions concerning discontinued operations have been made under this standard in 2002 .

American Water Works (AWK)

2012

Document ID: Double_AWK/2012/page_118.pdf

the following table summarizes the changes in the company 2019s valuation allowance: .

	\$ 25621
-----	-----
increases in current period tax positions	0
decreases in current period tax positions	-2,059
balance at december 31 2010	23,788
balance at december 31 2011	21,579
balance at december 31 2012	19,520

note 14 : employee benefits pension and other postretirement benefits the company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared services operations . benefits under the plans are based on the employee 2019s years of service and compensation . the pension plans have been closed for most employees hired on or after january 1 , 2006 . union employees hired on or after january 1 , 2001 had their accrued benefit frozen and will be able to receive this benefit as a lump sum upon termination or retirement . union employees hired on or after january 1 , 2001 and non-union employees hired on or after january 1 , 2006 are provided with a 5.25% (5.25 %) of base pay defined contribution plan . the company does not participate in a multiemployer plan . the company 2019s funding policy is to contribute at least the greater of the minimum amount required by the employee retirement income security act of 1974 or the normal cost , and an additional contribution if needed to avoid 201cat risk 201d status and benefit restrictions under the pension protection act of 2006 . the company may also increase its contributions , if appropriate , to its tax and cash position and the plan 2019s funded position . pension plan assets are invested in a number of actively managed and indexed investments including equity and bond mutual funds , fixed income securities and guaranteed interest contracts with insurance companies . pension expense in excess of the amount contributed to the pension plans is deferred by certain regulated subsidiaries pending future recovery in rates charged for utility services as contributions are made to the plans . (see note 6) the company also has several unfunded noncontributory supplemental non-qualified pension plans that provide additional retirement benefits to certain employees . the company maintains other postretirement benefit plans providing varying levels of medical and life insurance to eligible retirees . the retiree welfare plans are closed for union employees hired on or after january 1 , 2006 . the plans had previously closed for non-union employees hired on or after january 1 , 2002 . the company 2019s policy is to fund other postretirement benefit costs for rate-making purposes . plan assets are invested in equity and bond mutual funds , fixed income securities , real estate investment trusts (201creits 201d) and emerging market funds . the obligations of the plans are dominated by obligations for active employees . because the timing of expected benefit payments is so far in the future and the size of the plan assets are small relative to the company 2019s assets , the investment strategy is to allocate a significant percentage of assets to equities , which the company believes will provide the highest return over the long-term period . the fixed income assets are invested in long duration debt securities and may be invested in fixed income instruments , such as futures and options in order to better match the duration of the plan liability. .

Analog Devices (ADI)

2007

Document ID: Single_ADI/2007/page_82.pdf-1

stock option gains previously deferred by those participants pursuant to the terms of the deferred compensation plan and earnings on those deferred amounts . as a result of certain provisions of the american jobs creation act , participants had the opportunity until december 31 , 2005 to elect to withdraw amounts previously deferred . 11 . lease commitments the company leases certain of its facilities , equipment and software under various operating leases that expire at various dates through 2022 . the lease agreements frequently include renewal and escalation clauses and require the company to pay taxes , insurance and maintenance costs . total rental expense under operating leases was approximately \$ 43 million in fiscal 2007 , \$ 45 million in fiscal 2006 and \$ 44 million in fiscal 2005 . the following is a schedule of future minimum rental payments required under long-term operating leases at november 3 , 2007 : fiscal years operating leases .

	operating leases
-----	-----
2008	30,774
2009	25,906
2010	13,267
2011	5,430
2012	3,842
later years	12,259
total	91,478

12 . commitments and contingencies tentative settlement of the sec 2019s previously announced stock option investigation in the company 2019s 2004 form 10-k filing , the company disclosed that the securities and exchange com- mission (sec) had initiated an inquiry into its stock option granting practices , focusing on options that were granted shortly before the issuance of favorable financial results . on november 15 , 2005 , the company announced that it had reached a tentative settlement with the sec . at all times since receiving notice of this inquiry , the company has cooperated with the sec . in november 2005 , the company and its president and ceo , mr . jerald g . fishman , made an offer of settlement to the staff of the sec . the settlement has been submitted to the commission for approval . there can be no assurance a final settlement will be so approved . the sec 2019s inquiry focused on two separate issues . the first issue concerned the company 2019s disclosure regarding grants of options to employees and directors prior to the release of favorable financial results . specifically , the issue related to options granted to employees (including officers) of the company on november 30 , 1999 and to employees (including officers) and directors of the company on november 10 , 2000 . the second issue concerned the grant dates for options granted to employees (including officers) in 1998 and 1999 , and the grant date for options granted to employees (including officers) and directors in 2001 . specifically , the settlement would conclude that the appropriate grant date for the september 4 , 1998 options should have been september 8th (which is one trading day later than the date that was used to price the options) ; the appropriate grant date for the november 30 , 1999 options should have been november 29th (which is one trading day earlier than the date that was used) ; and the appropriate grant date for the july 18 , 2001 options should have been july 26th (which is five trading days after the original date) . analog devices , inc . notes to consolidated financial statements 2014 (continued) .

Ansys (ANSS)

notes to consolidated financial statements certain of aon 2019s european subsidiaries have a a650 million (u.s . \$ 942 million) multi-currency revolving loan credit facility . this facility will mature in october 2010 , unless aon opts to extend the facility . commitment fees of 8.75 basis points are payable on the unused portion of the facility . at december 31 , 2007 , aon has borrowed a376 million and \$ 250 million (\$ 795 million) under this facility . at december 31 , 2006 , a307 million was borrowed . at december 31 , 2007 , \$ 250 million of the euro facility is classified as short-term debt in the consolidated statements of financial position . aon has guaranteed the obligations of its subsidiaries with respect to this facility . aon maintains a \$ 600 million , 5-year u.s . committed bank credit facility to support commercial paper and other short-term borrowings , which expires in february 2010 . this facility permits the issuance of up to \$ 150 million in letters of credit . at december 31 , 2007 and 2006 , aon had \$ 20 million in letters of credit outstanding . based on aon 2019s current credit ratings , commitment fees of 10 basis points are payable on the unused portion of the facility . for both the u.s . and euro facilities , aon is required to maintain consolidated net worth , as defined , of at least \$ 2.5 billion , a ratio of consolidated ebitda (earnings before interest , taxes , depreciation and amortization) to consolidated interest expense of 4 to 1 and a ratio of consolidated debt to ebitda of not greater than 3 to 1 . aon also has other foreign facilities available , which include a a337.5 million (\$ 74 million) facility , a a25 million (\$ 36 million) facility , and a a20 million (\$ 29 million) facility . outstanding debt securities , including aon capital a 2019s , are not redeemable by aon prior to maturity . there are no sinking fund provisions . interest is payable semi-annually on most debt securities . repayments of long-term debt are \$ 548 million , \$ 382 million and \$ 225 million in 2010 , 2011 and 2012 , respectively . other information related to aon 2019s debt is as follows : .

	2007	2006	2005
-----	----	----	----
interest paid (millions)	147	130	130
weighted-average interest rates 2014 short-term borrowings	-5.1	-4.4	-3.5

lease commitments aon has noncancelable operating leases for certain office space , equipment and automobiles . these leases expire at various dates and may contain renewal and expansion options . in addition to base rental costs , occupancy lease agreements generally provide for rent escalations resulting from increased assessments for real estate taxes and other charges . approximately 81% (81 %) of aon 2019s lease obligations are for the use of office space . rental expense for operating leases amounted to \$ 368 million , \$ 350 million and \$ 337 million for 2007 , 2006 and 2005 , respectively , after deducting rentals from subleases (\$ 40 million , \$ 33 million and \$ 29 million for 2007 , 2006 and 2005 , respectively) . aon corporation .

leases , was \$ 92 million , \$ 80 million , and \$ 72 million in 2002 , 2001 , and 2000 , respectively . future minimum lease payments under noncancelable operating leases having remaining terms in excess of one year as of september 28 , 2002 , are as follows (in millions) : concentrations in the available sources of supply of materials and product although certain components essential to the company's business are generally available from multiple sources , other key components (including microprocessors and application-specific integrated circuits , or ("asics")) are currently obtained by the company from single or limited sources . some other key components , while currently available to the company from multiple sources , are at times subject to industry-wide availability and pricing pressures . in addition , the company uses some components that are not common to the rest of the personal computer industry , and new products introduced by the company often initially utilize custom components obtained from only one source until the company has evaluated whether there is a need for and subsequently qualifies additional suppliers . if the supply of a key single-sourced component to the company were to be delayed or curtailed or in the event a key manufacturing vendor delays shipments of completed products to the company , the company's ability to ship related products in desired quantities and in a timely manner could be adversely affected . the company's business and financial performance could also be adversely affected depending on the time required to obtain sufficient quantities from the original source , or to identify and obtain sufficient quantities from an alternative source . continued availability of these components may be affected if producers were to decide to concentrate on the production of common components instead of components customized to meet the company's requirements . finally , significant portions of the company's cpus , logic boards , and assembled products are now manufactured by outsourcing partners , the majority of which occurs in various parts of asia . although the company works closely with its outsourcing partners on manufacturing schedules and levels , the company's operating results could be adversely affected if its outsourcing partners were unable to meet their production obligations . contingencies beginning on september 27 , 2001 , three shareholder class action lawsuits were filed in the united states district court for the northern district of california against the company and its chief executive officer . these lawsuits are substantially identical , and purport to bring suit on behalf of persons who purchased the company's publicly traded common stock between july 19 , 2000 , and september 28 , 2000 . the complaints allege violations of the 1934 securities exchange act and seek unspecified compensatory damages and other relief . the company believes these claims are without merit and intends to defend them vigorously . the company filed a motion to dismiss on june 4 , 2002 , which was heard by the court on september 13 , 2002 . on december 11 , 2002 , the court granted the company's motion to dismiss for failure to state a cause of action , with leave to plaintiffs to amend their complaint within thirty days . the company is subject to certain other legal proceedings and claims that have arisen in the ordinary course of business and have not been fully adjudicated . in the opinion of management , the company does not have a potential liability related to any current legal proceedings and claims that would have a material adverse effect on its financial condition , liquidity or results of operations . however , the results of legal proceedings cannot be predicted with certainty . should the company fail to prevail in any of these legal matters or should several of these legal matters be resolved against the company in the same reporting period , the operating results of a particular reporting period could be materially adversely affected . the parliament of the european union is working on finalizing the waste electrical and electronic equipment directive (the directive) . the directive makes producers of electrical goods , including personal computers , financially responsible for the collection , recycling , and safe disposal of past and future products . the directive must now be approved and implemented by individual european union governments by june 2004 , while the producers' financial obligations are scheduled to start june 2005 . the company's potential liability resulting from the directive related to past sales of its products and expenses associated with future sales of its product may be substantial . however , because it is likely that specific laws , regulations , and enforcement policies will vary significantly between individual european member states , it is not currently possible to estimate the company's existing

liability or future expenses resulting from the directive . as the european union and its individual member states clarify specific requirements and policies with respect to the directive , the company will continue to assess its potential financial impact . similar legislation may be enacted in other geographies , including federal and state legislation in the united states , the cumulative impact of which could be significant . fiscal years .

dividends on february 26 , 2013 , the board of directors approved the initiation of dividend payments on the company's ordinary shares . the board of directors declared a regular quarterly cash dividend of \$ 0.17 per ordinary share that was paid in each quarter of 2013 . in addition , in january 2014 , the board of directors declared a regular quarterly cash dividend of \$ 0.25 per ordinary share , payable on february 27 , 2014 to shareholders of record at the close of business on february 18 , 2014 . in october 2011 , the board of managers of delphi automotive llp approved a distribution of approximately \$ 95 million , which was paid on december 5 , 2011 , principally in respect of taxes , to members of delphi automotive llp who held membership interests as of the close of business on october 31 , 2011. .

Arista Networks (ANET)

2015

Document ID: Double_ANET/2015/page_155.pdf

notes receivable in 2014 , we entered into a \$ 3.0 million promissory note with a privately held company which was recorded at cost . the interest rate on the promissory note is 8.0% (8.0 %) per annum and is payable quarterly . all unpaid principal and accrued interest on the promissory note is due and payable on the earlier of august 26 , 2017 , or upon default . 5 . commitments and contingencies operating leases we lease various operating spaces in north america , europe , asia and australia under non-cancelable operating lease arrangements that expire on various dates through 2024 . these arrangements require us to pay certain operating expenses , such as taxes , repairs , and insurance and contain renewal and escalation clauses . we recognize rent expense under these arrangements on a straight-line basis over the term of the lease . as of december 31 , 2015 , the aggregate future minimum payments under non-cancelable operating leases consist of the following (in thousands) : years ending december 31 .

	\$ 6306
-----	-----
2017	6,678
2018	6,260
2019	5,809
2020	5,580
thereafter	21,450
total minimum future lease payments	52,083

rent expense for all operating leases amounted to \$ 6.7 million , \$ 3.3 million and \$ 3.6 million for the years ended december 31 , 2015 , 2014 and 2013 , respectively . financing obligation 2014build-to-suit lease in august 2012 , we executed a lease for a building then under construction in santa clara , california to serve as our headquarters . the lease term is 120 months and commenced in august 2013 . based on the terms of the lease agreement and due to our involvement in certain aspects of the construction such as our financial involvement in structural elements of asset construction , making decisions related to tenant improvement costs and purchasing insurance not reimbursable by the buyer-lessor (the landlord) , we were deemed the owner of the building (for accounting purposes only) during the construction period . we continue to maintain involvement in the property post construction completion and lack transferability of the risks and rewards of ownership , due to our required maintenance of a \$ 4.0 million letter of credit , in addition to our ability and option to sublease our portion of the leased building for fees substantially higher than our base rate . due to our continued involvement in the property and lack of transferability of related risks and rewards of ownership to the landlord post construction , we account for the building and related improvements as a lease financing obligation . accordingly , as of december 31 , 2015 and 2014 , we have recorded assets of \$ 53.4 million , representing the total costs of the building and improvements incurred , including the costs paid by the lessor (the legal owner of the building) and additional improvement costs paid by us , and a corresponding financing obligation of \$ 42.5 million and \$ 43.6 million , respectively . as of december 31 , 2015 , \$ 1.3 million and \$ 41.2 million were recorded as short-term and long-term financing obligations , respectively . land lease expense under our lease financing obligation included in rent expense above , amounted to \$ 1.3 million and \$ 1.2 million for the years ended december 31 , 2015 and 2014 , respectively . there was no land lease expense for the year ended december 31 , 2013. .

Baker Hughes (BKR)

2017

Document ID: Double_BKR/2017/page_105.pdf

baker hughes , a ge company notes to consolidated and combined financial statements bhge 2017 form 10-k | 85 the total intrinsic value of rsus (defined as the value of the shares awarded at the current market price) vested and outstanding in 2017 was \$ 17 million and \$ 38 million , respectively . the total fair value of rsus vested in 2017 was \$ 19 million . as of december 31 , 2017 , there was \$ 98 million of total unrecognized compensation cost related to unvested rsus , which is expected to be recognized over a weighted average period of 2.5 years . note 12 . equity common stock we are authorized to issue 2 billion shares of class a common stock , 1.25 billion shares of class b common stock and 50 million shares of preferred stock each of which have a par value of \$ 0.0001 per share . on july 3 , 2017 , each share of baker hughes common stock was converted into one share of class a common stock in the company . the number of class a common stock and class b common stock shares outstanding at december 31 , 2017 is 422 million and 707 million , respectively . we have not issued any preferred stock . ge owns all the issued and outstanding class b common stock . each share of class a and class b common stock and the associated membership interest in bhge llc form a paired interest . while each share of class b common stock has equal voting rights to a share of class a common stock , it has no economic rights , meaning holders of class b common stock have no right to dividends and any assets in the event of liquidation of the company . former baker hughes stockholders immediately after the completion of the transactions received a special one-time cash dividend of \$ 17.50 per share paid by the company to holders of record of the company's class a common stock . in addition , during 2017 the company declared and paid regular dividends of \$ 0.17 per share and \$ 0.18 per share to holders of record of the company's class a common stock during the quarters ended september 30 , 2017 and december 31 , 2017 , respectively . the following table presents the changes in number of shares outstanding (in thousands) : class a common class b common .

	class a common stock	class b common stock
balance at december 31 2016	2,014	2,014

Caterpillar (CAT)

2017

Document ID: Double_CAT/2017/page_103.pdf

82 | 2017 form 10-k a reconciliation of the beginning and ending amount of gross unrecognized tax benefits for uncertain tax positions , including positions impacting only the timing of tax benefits , follows . reconciliation of unrecognized tax benefits:1 years a0ended a0december a031 .

	years ended december 31 , 2017	years ended december 31 , 2016
balance at january 1,	1,032	968
additions for tax positions related to current year	270	73
additions for tax positions related to prior years	20	55
reductions for tax positions related to prior years	-27	-36
reductions for settlements ²	-9	-24
reductions for expiration of statute of limitations	2,014	-4
balance at december 31,	1,286	1,032
amount that if recognized would impact the effective tax rate	1,209	963

1 foreign currency impacts are included within each line as applicable . 2 includes cash payment or other reduction of assets to settle liability . we classify interest and penalties on income taxes as a component of the provision for income taxes . we recognized a net provision for interest and penalties of \$ 38 million , \$ 34 million and \$ 20 million during the years ended december 31 , 2017 , 2016 and 2015 , respectively . the total amount of interest and penalties accrued was \$ 157 million and \$ 120 million as of december a031 , 2017 and 2016 , respectively . on january 31 , 2018 , we received a revenue agent 2019s report from the irs indicating the end of the field examination of our u.s . income tax returns for 2010 to 2012 . in the audits of 2007 to 2012 including the impact of a loss carryback to 2005 , the irs has proposed to tax in the united states profits earned from certain parts transactions by csarl , based on the irs examination team 2019s application of the 201csubstance-over-form 201d or 201cassignment-of-income 201d judicial doctrines . we are vigorously contesting the proposed increases to tax and penalties for these years of approximately \$ 2.3 billion . we believe that the relevant transactions complied with applicable tax laws and did not violate judicial doctrines . we have filed u.s . income tax returns on this same basis for years after 2012 . based on the information currently available , we do not anticipate a significant increase or decrease to our unrecognized tax benefits for this matter within the next 12 months . we currently believe the ultimate disposition of this matter will not have a material adverse effect on our consolidated financial position , liquidity or results of operations . with the exception of a loss carryback to 2005 , tax years prior to 2007 are generally no longer subject to u.s . tax assessment . in our major non-u.s . jurisdictions including australia , brazil , china , germany , japan , mexico , switzerland , singapore and the u.k . , tax years are typically subject to examination for three to ten years . due to the uncertainty related to the timing and potential outcome of audits , we cannot estimate the range of reasonably possible change in unrecognized tax benefits in the next 12 months. .

CDW Corporation (CDW)

2013

Document ID: Double_CDW/2013/page_103.pdf

cdw corporation and subsidiaries notes to consolidated financial statements holders of class b common units in connection with the distribution is subject to any vesting provisions previously applicable to the holder 2019s class b common units . class b common unit holders received 3798508 shares of restricted stock with respect to class b common units that had not yet vested at the time of the distribution . for the year ended december 31 , 2013 , 1200544 shares of such restricted stock vested/settled and 5931 shares were forfeited . as of december 31 , 2013 , 2592033 shares of restricted stock were outstanding . stock options in addition , in connection with the ipo , the company issued 1268986 stock options to the class b common unit holders to preserve their fully diluted equity ownership percentage . these options were issued with a per-share exercise price equal to the ipo price of \$ 17.00 and are also subject to the same vesting provisions as the class b common units to which they relate . the company also granted 19412 stock options under the 2013 ltip during the year ended december 31 , 2013 . restricted stock units (201crsus 201d) in connection with the ipo , the company granted 1416543 rsus under the 2013 ltip at a weighted- average grant-date fair value of \$ 17.03 per unit . the rsus cliff-vest at the end of four years . valuation information the company attributes the value of equity-based compensation awards to the various periods during which the recipient must perform services in order to vest in the award using the straight-line method . post-ipo equity awards the company has elected to use the black-scholes option pricing model to estimate the fair value of stock options granted . the black-scholes option pricing model incorporates various assumptions including volatility , expected term , risk-free interest rates and dividend yields . the assumptions used to value the stock options granted during the year ended december 31 , 2013 are presented below . year ended december 31 , assumptions 2013 .

	year ended december 31 2013
weighted-average grant date fair value	4.75
weighted-average volatility (1)	-35
weighted-average risk-free rate (2)	-1.58
dividend yield	-1
expected term (in years) (3)	5.4

expected term (in years) (3) 5.4 (1) based upon an assessment of the two-year , five-year and implied volatility for the company 2019s selected peer group , adjusted for the company 2019s leverage . (2) based on a composite u.s . treasury rate . (3) the expected term is calculated using the simplified method . the simplified method defines the expected term as the average of the option 2019s contractual term and the option 2019s weighted-average vesting period . the company utilizes this method as it has limited historical stock option data that is sufficient to derive a reasonable estimate of the expected stock option term. .

Celanese (CE)

2005

Document ID: Double_CE/2005/page_167.pdf

celanese corporation and subsidiaries notes to consolidated financial statements (continued) 2022 amend certain material agreements governing bcp crystal 2019s indebtedness ; 2022 change the business conducted by celanese holdings and its subsidiaries ; and 2022 enter into hedging agreements that restrict dividends from subsidiaries . in addition , the senior credit facilities require bcp crystal to maintain the following financial covenants : a maximum total leverage ratio , a maximum bank debt leverage ratio , a minimum interest coverage ratio and maximum capital expenditures limitation . the maximum consolidated net bank debt to adjusted ebitda ratio , as defined , previously required under the senior credit facilities , was eliminated when the company amended the facilities in january 2005 . as of december 31 , 2005 , the company was in compliance with all of the financial covenants related to its debt agreements . the maturation of the company 2019s debt , including short term borrowings , is as follows : (in \$ millions) .

	total (in\$ millions)
-----	-----
2006	155
2007	29
2008	22
2009	40
2010	28
thereafter (1)	3,163
total	3,437

(1) includes \$ 2 million purchase accounting adjustment to assumed debt . 17 . benefit obligations pension obligations . pension obligations are established for benefits payable in the form of retirement , disability and surviving dependent pensions . the benefits offered vary according to the legal , fiscal and economic conditions of each country . the commitments result from participation in defined contribution and defined benefit plans , primarily in the u.s . benefits are dependent on years of service and the employee 2019s compensation . supplemental retirement benefits provided to certain employees are non-qualified for u.s . tax purposes . separate trusts have been established for some non-qualified plans . defined benefit pension plans exist at certain locations in north america and europe . as of december 31 , 2005 , the company 2019s u.s . qualified pension plan represented greater than 85% (85 %) and 75% (75 %) of celanese 2019s pension plan assets and liabilities , respectively . independent trusts or insurance companies administer the majority of these plans . actuarial valuations for these plans are prepared annually . the company sponsors various defined contribution plans in europe and north america covering certain employees . employees may contribute to these plans and the company will match these contributions in varying amounts . contributions to the defined contribution plans are based on specified percentages of employee contributions and they aggregated \$ 12 million for the year ended decem- ber 31 , 2005 , \$ 8 million for the nine months ended december 31 , 2004 , \$ 3 million for the three months ended march 31 , 2004 and \$ 11 million for the year ended december 31 , 2003 . in connection with the acquisition of cag , the purchaser agreed to pre-fund \$ 463 million of certain pension obligations . during the nine months ended december 31 , 2004 , \$ 409 million was pre-funded to the company 2019s pension plans . the company contributed an additional \$ 54 million to the non-qualified pension plan 2019s rabbi trusts in february 2005 . in connection with the company 2019s acquisition of vinamul and acetex , the company assumed certain assets and obligations related to the acquired pension plans . the company recorded liabilities of \$ 128 million for these pension plans . total pension assets acquired amounted to \$ 85 million . .

Centene (CNC)

2003

Document ID: Double_CNC/2003/page_41.pdf

disclosure of , the issuance of certain types of guarantees . the adoption of fasb interpretation no . 45 did not have a signif- ican impact on the net income or equity of the company . in january 2003 , fasb interpretation no . 46 , 201cconsolidation of variable interest entities , an interpretation of arb 51 , 201d was issued . the primary objectives of this interpretation , as amended , are to provide guidance on the identification and consolidation of variable interest entities , or vies , which are entities for which control is achieved through means other than through voting rights . the company has completed an analysis of this interpretation and has determined that it does not have any vies . 4 . acquisitions family health plan , inc . effective january 1 , 2004 , the company commenced opera- tions in ohio through the acquisition from family health plan , inc . of certain medicaid-related assets for a purchase price of approximately \$ 6800 . the cost to acquire the medicaid-related assets will be allocated to the assets acquired and liabilities assumed according to estimated fair values . hmo blue texas effective august 1 , 2003 , the company acquired certain medicaid-related contract rights of hmo blue texas in the san antonio , texas market for \$ 1045 . the purchase price was allocated to acquired contracts , which are being amor- tized on a straight-line basis over a period of five years , the expected period of benefit . group practice affiliates during 2003 , the company acquired a 100% (100 %) ownership interest in group practice affiliates , llc , a behavioral healthcare services company (63.7% (63.7 %) in march 2003 and 36.3% (36.3 %) in august 2003) . the consolidated financial state- ments include the results of operations of gpa since march 1 , 2003 . the company paid \$ 1800 for its purchase of gpa . the cost to acquire the ownership interest has been allocated to the assets acquired and liabilities assumed according to estimated fair values and is subject to adjustment when additional information concerning asset and liability valuations are finalized . the preliminary allocation has resulted in goodwill of approximately \$ 3895 . the goodwill is not amortized and is not deductible for tax purposes . pro forma disclosures related to the acquisition have been excluded as immaterial . scriptassist in march 2003 , the company purchased contract and name rights of scriptassist , llc (scriptassist) , a medication com- pliance company . the purchase price of \$ 563 was allocated to acquired contracts , which are being amortized on a straight-line basis over a period of five years , the expected period of benefit . the investor group who held membership interests in scriptassist included one of the company 2019s executive officers . university health plans , inc . on december 1 , 2002 , the company purchased 80% (80 %) of the outstanding capital stock of university health plans , inc . (uhp) in new jersey . in october 2003 , the company exercised its option to purchase the remaining 20% (20 %) of the outstanding capital stock . centene paid a total purchase price of \$ 13258 . the results of operations for uhp are included in the consolidated financial statements since december 1 , 2002 . the acquisition of uhp resulted in identified intangible assets of \$ 3800 , representing purchased contract rights and provider network . the intangibles are being amortized over a ten-year period . goodwill of \$ 7940 is not amortized and is not deductible for tax purposes . changes during 2003 to the preliminary purchase price allocation primarily consisted of the purchase of the remaining 20% (20 %) of the outstanding stock and the recognition of intangible assets and related deferred tax liabilities . the following unaudited pro forma information presents the results of operations of centene and subsidiaries as if the uhp acquisition described above had occurred as of january 1 , 2001 . these pro forma results may not necessar- ily reflect the actual results of operations that would have been achieved , nor are they necessarily indicative of future results of operations. .

	2002	2001
revenue	567,048	395,155
net earnings	25,869	11,573

diluted earnings per common share 1.48 1.00 texas universities health plan in june 2002 , the company purchased schip contracts in three texas service areas . the cash purchase price of \$ 595 was recorded as purchased contract rights , which are being amortized on a straight-line basis over five years , the expected period of benefit . bankers reserve in march 2002 , the company acquired bankers reserve life insurance company of wisconsin for a cash purchase price of \$ 3527 . the company allocated the purchase price to net tangible and identifiable intangible assets based on their fair value . centene allocated \$ 479 to identifiable intangible assets , representing the value assigned to acquired licenses , which are being amortized on a straight-line basis over a notes to consolidated financial statements (continued) centene corporation and subsidiaries .

Chubb (CB)

2008

Document ID: Double_CB/2008/page_144.pdf

foreign currency exchange rate risk many of our non-u.s . companies maintain both assets and liabilities in local currencies . therefore , foreign exchange rate risk is generally limited to net assets denominated in those foreign currencies . foreign exchange rate risk is reviewed as part of our risk management process . locally required capital levels are invested in home currencies in order to satisfy regulatory require- ments and to support local insurance operations regardless of currency fluctuations . the principal currencies creating foreign exchange risk for us are the british pound sterling , the euro , and the canadian dollar . the following table provides more information on our exposure to foreign exchange rate risk at december 31 , 2008 and 2007 . .

	2008	2007
-----	-----	-----
fair value of net assets denominated in foreign currencies	1,127	1,651
percentage of fair value of total net assets	-7.8	-9.9
pre-tax impact on equity of hypothetical 10 percent strengthening of the u.s . dollar	84	150

reinsurance of gmdb and gmib guarantees our net income is directly impacted by changes in the reserves calculated in connection with the reinsurance of variable annuity guarantees , primarily gmdb and gmib . these reserves are calculated in accordance with sop 03-1 (sop reserves) and changes in these reserves are reflected as life and annuity benefit expense , which is included in life underwriting income . in addition , our net income is directly impacted by the change in the fair value of the gmib liability (fvl) , which is classified as a derivative according to fas 133 . the fair value liability established for a gmib reinsurance contract represents the differ- ence between the fair value of the contract and the sop 03-1 reserves . changes in the fair value of the gmib liability , net of associated changes in the calculated sop 03-1 reserve , are reflected as realized gains or losses . ace views our variable annuity reinsurance business as having a similar risk profile to that of catastrophe reinsurance , with the probability of long-term economic loss relatively small at the time of pricing . adverse changes in market factors and policyholder behavior will have an impact on both life underwriting income and net income . when evaluating these risks , we expect to be compensated for taking both the risk of a cumulative long-term economic net loss , as well as the short-term accounting variations caused by these market movements . therefore , we evaluate this business in terms of its long-term eco- nomic risk and reward . the ultimate risk to the variable annuity guaranty reinsurance business is a long-term underperformance of investment returns , which can be exacerbated by a long-term reduction in interest rates . following a market downturn , continued market underperformance over a period of five to seven years would eventually result in a higher level of paid claims as policyholders accessed their guarantees through death or annuitization . however , if market conditions improved following a downturn , sop 03-1 reserves and fair value liability would fall reflecting a decreased likelihood of future claims , which would result in an increase in both life underwriting income and net income . as of december 31 , 2008 , management established the sop 03-1 reserve based on the benefit ratio calculated using actual market values at december 31 , 2008 . management exercises judgment in determining the extent to which short-term market movements impact the sop 03-1 reserve . the sop 03-1 reserve is based on the calculation of a long-term benefit ratio (or loss ratio) for the variable annuity guarantee reinsurance . despite the long-term nature of the risk the benefit ratio calculation is impacted by short-term market movements that may be judged by management to be temporary or transient . management will , in keeping with the language in sop 03-1 , regularly examine both quantitative and qualitative analysis and management will determine if , in its judgment , the change in the calculated benefit ratio is of sufficient magnitude and has persisted for a sufficient duration to warrant a change in the benefit ratio used to establish the sop 03-1 reserve . this has no impact on either premium received or claims paid nor does it impact the long-term profit or loss of the variable annuity guaran- tee reinsurance . the sop 03-1 reserve and fair value

liability calculations are directly affected by market factors , including equity levels , interest rate levels , credit risk and implied volatilities , as well as policyholder behaviors , such as annuitization and lapse rates . the table below shows the sensitivity , as of december 31 , 2008 , of the sop 03-1 reserves and fair value liability associated with the variable annuity guarantee reinsurance portfolio . in addition , the tables below show the sensitivity of the fair value of specific derivative instruments held (hedge value) , which includes instruments purchased in january 2009 , to partially offset the risk in the variable annuity guarantee reinsurance portfolio . although these derivatives do not receive hedge accounting treatment , some portion of the change in value may be used to offset changes in the sop 03-1 reserve. .

Citigroup (C)

2008

Document ID: Double_C/2008/page_102.pdf

mandatorily redeemable securities of subsidiary trusts total mandatorily redeemable securities of subsidiary trusts (trust preferred securities) , which qualify as tier 1 capital , were \$ 23.899 billion at december 31 , 2008 , as compared to \$ 23.594 billion at december 31 , 2007 . in 2008 , citigroup did not issue any new enhanced trust preferred securities . the frb issued a final rule , with an effective date of april 11 , 2005 , which retains trust preferred securities in tier 1 capital of bank holding companies , but with stricter quantitative limits and clearer qualitative standards . under the rule , after a five-year transition period , the aggregate amount of trust preferred securities and certain other restricted core capital elements included in tier 1 capital of internationally active banking organizations , such as citigroup , would be limited to 15% (15 %) of total core capital elements , net of goodwill , less any associated deferred tax liability . the amount of trust preferred securities and certain other elements in excess of the limit could be included in tier 2 capital , subject to restrictions . at december 31 , 2008 , citigroup had approximately 11.8% (11.8 %) against the limit . the company expects to be within restricted core capital limits prior to the implementation date of march 31 , 2009 . the frb permits additional securities , such as the equity units sold to adia , to be included in tier 1 capital up to 25% (25 %) (including the restricted core capital elements in the 15% (15 %) limit) of total core capital elements , net of goodwill less any associated deferred tax liability . at december 31 , 2008 , citigroup had approximately 16.1% (16.1 %) against the limit . the frb granted interim capital relief for the impact of adopting sfas 158 at december 31 , 2008 and december 31 , 2007 . the frb and the ffiec may propose amendments to , and issue interpretations of , risk-based capital guidelines and reporting instructions . these may affect reported capital ratios and net risk-weighted assets . capital resources of citigroup 2019s depository institutions citigroup 2019s subsidiary depository institutions in the united states are subject to risk-based capital guidelines issued by their respective primary federal bank regulatory agencies , which are similar to the frb 2019s guidelines . to be 201cwell capitalized 201d under federal bank regulatory agency definitions , citigroup 2019s depository institutions must have a tier 1 capital ratio of at least 6% (6 %) , a total capital (tier 1 + tier 2 capital) ratio of at least 10% (10 %) and a leverage ratio of at least 5% (5 %) , and not be subject to a regulatory directive to meet and maintain higher capital levels . at december 31 , 2008 , all of citigroup 2019s subsidiary depository institutions were 201cwell capitalized 201d under the federal regulatory agencies 2019 definitions , including citigroup 2019s primary depository institution , citibank , n.a . , as noted in the following table : citibank , n.a . components of capital and ratios under regulatory guidelines in billions of dollars at year end 2008 2007 .

	2008	2007
tier 1 capital	71	82
total capital (tier 1 and tier 2)	108.4	121.6
tier 1 capital ratio	-9.94	-8.98
total capital ratio (tier 1 and tier 2)	15.18	13.33
leverage ratio (1)	5.82	6.65

leverage ratio (1) 5.82 6.65 (1) tier 1 capital divided by adjusted average assets . citibank , n.a . had a net loss for 2008 amounting to \$ 6.2 billion . during 2008 , citibank , n.a . received contributions from its parent company of \$ 6.1 billion . citibank , n.a . did not issue any additional subordinated notes in 2008 . total subordinated notes issued to citicorp holdings inc . that were outstanding at december 31 , 2008 and december 31 , 2007 and included in citibank , n.a . 2019s tier 2 capital , amounted to \$ 28.2 billion . citibank , n.a . received an additional \$ 14.3 billion in capital contribution from its parent company in january 2009 . the impact of this contribution is not reflected in the table above . the substantial events in 2008 impacting the capital of citigroup , and the potential future events discussed on page 94 under 201ccitigroup regulatory capital ratios , 201d also affected , or could affect , citibank , n.a . .

CME Group (CME)

2010

Document ID: Double_CME/2010/page_71.pdf

anticipated or possible short-term cash needs , prevailing interest rates , our investment policy and alternative investment choices . a majority of our cash and cash equivalents balance is invested in money market mutual funds that invest only in u.s . treasury securities or u.s . government agency securities . our exposure to risk is minimal given the nature of the investments . our practice is to have our pension plan 100% (100 %) funded at each year end on a projected benefit obligation basis , while also satisfying any minimum required contribution and obtaining the maximum tax deduction . based on our actuarial projections , we estimate that a \$ 14.1 million contribution in 2011 will allow us to meet our funding goal . however , the amount of the actual contribution is contingent on the actual rate of return on our plan assets during 2011 and the december 31 , 2011 discount rate . net current deferred tax assets of \$ 18.3 million and \$ 23.8 million are included in other current assets at december 31 , 2010 and 2009 , respectively . total net current deferred tax assets include unrealized losses , stock- based compensation and accrued expenses . net long-term deferred tax liabilities were \$ 7.8 billion and \$ 7.6 billion at december 31 , 2010 and 2009 , respectively . net deferred tax liabilities are principally the result of purchase accounting for intangible assets in our various mergers including cbot holdings and nymex holdings . we have a long-term deferred tax asset of \$ 145.7 million included within our domestic long-term deferred tax liability . this deferred tax asset is for an unrealized capital loss incurred in brazil related to our investment in bm&fbovespa . as of december 31 , 2010 , we do not believe that we currently meet the more-likely-than-not threshold that would allow us to fully realize the value of the unrealized capital loss . as a result , a partial valuation allowance of \$ 64.4 million has been provided for the amount of the unrealized capital loss that exceeds potential capital gains that could be used to offset the capital loss in future periods . we also have a long-term deferred tax asset related to brazilian taxes of \$ 125.3 million for an unrealized capital loss incurred in brazil related to our investment in bm&fbovespa . a full valuation allowance of \$ 125.3 million has been provided because we do not believe that we currently meet the more-likely-than-not threshold that would allow us to realize the value of the unrealized capital loss in brazil in the future . valuation allowances of \$ 49.4 million have also been provided for additional unrealized capital losses on various other investments . net long-term deferred tax assets also include a \$ 19.3 million deferred tax asset for foreign net operating losses related to swapstream . our assessment at december 31 , 2010 was that we did not currently meet the more-likely- than-not threshold that would allow us to realize the value of acquired and accumulated foreign net operating losses in the future . as a result , the \$ 19.3 million deferred tax assets arising from these net operating losses have been fully reserved . each clearing firm is required to deposit and maintain specified performance bond collateral . performance bond requirements are determined by parameters established by the risk management department of the clearing house and may fluctuate over time . we accept a variety of collateral to satisfy performance bond requirements . cash performance bonds and guaranty fund contributions are included in our consolidated balance sheets . clearing firm deposits , other than those retained in the form of cash , are not included in our consolidated balance sheets . the balances in cash performance bonds and guaranty fund contributions may fluctuate significantly over time . cash performance bonds and guaranty fund contributions consisted of the following at december 31: .

	2010	2009
-----	-----	-----
cash performance bonds	3,717	5,834.6
cash guaranty fund contributions	231.8	102.6
cross-margin arrangements	79.7	10.6
performance collateral for delivery	10	34.1
total	4,038.5	5,981.9

management 2019s discussion and analysis of financial condition and results of operations comcast corporation and subsidiaries28 comcast corporation and subsidiaries the exchangeable notes varies based upon the fair market value of the security to which it is indexed . the exchangeable notes are collateralized by our investments in cablevision , microsoft and vodafone , respectively . the comcast exchangeable notes are collateralized by our class a special common stock held in treasury . we have settled and intend in the future to settle all of the comcast exchangeable notes using cash . during 2004 and 2003 , we settled an aggregate of \$ 847 million face amount and \$ 638 million face amount , respectively , of our obligations relating to our notes exchangeable into comcast stock by delivering cash to the counterparty upon maturity of the instruments , and the equity collar agreements related to the underlying shares expired or were settled . during 2004 and 2003 , we settled \$ 2.359 billion face amount and \$ 1.213 billion face amount , respectively , of our obligations relating to our exchangeable notes by delivering the underlying shares of common stock to the counterparty upon maturity of the investments . as of december 31 , 2004 , our debt includes an aggregate of \$ 1.699 billion of exchangeable notes , including \$ 1.645 billion within current portion of long-term debt . as of december 31 , 2004 , the securities we hold collateralizing the exchangeable notes were sufficient to substantially satisfy the debt obligations associated with the outstanding exchangeable notes . stock repurchases . during 2004 , under our board-authorized , \$ 2 billion share repurchase program , we repurchased 46.9 million shares of our class a special common stock for \$ 1.328 billion . we expect such repurchases to continue from time to time in the open market or in private transactions , subject to market conditions . refer to notes 8 and 10 to our consolidated financial statements for a discussion of our financing activities . investing activities net cash used in investing activities from continuing operations was \$ 4.512 billion for the year ended december 31 , 2004 , and consists primarily of capital expenditures of \$ 3.660 billion , additions to intangible and other noncurrent assets of \$ 628 million and the acquisition of techtv for approximately \$ 300 million . capital expenditures . our most significant recurring investing activity has been and is expected to continue to be capital expendi- tures . the following table illustrates the capital expenditures we incurred in our cable segment during 2004 and expect to incur in 2005 (dollars in millions) : .

	2004	2005
-----	-----	-----
deployment of cable modems digital converters and new service offerings	2,106	2,300
upgrading of cable systems	902	200
recurring capital projects	614	500
total cable segment capital expenditures	3,622	3,000

the amount of our capital expenditures for 2005 and for subsequent years will depend on numerous factors , some of which are beyond our control , including competition , changes in technology and the timing and rate of deployment of new services . additions to intangibles . additions to intangibles during 2004 primarily relate to our investment in a \$ 250 million long-term strategic license agreement with gemstar , multiple dwelling unit contracts of approximately \$ 133 million and other licenses and software intangibles of approximately \$ 168 million . investments . proceeds from sales , settlements and restructurings of investments totaled \$ 228 million during 2004 , related to the sales of our non-strategic investments , including our 20% (20 %) interest in dhc ventures , llc (discovery health channel) for approximately \$ 149 million . we consider investments that we determine to be non-strategic , highly-valued , or both to be a source of liquidity . we consider our investment in \$ 1.5 billion in time warner common-equivalent preferred stock to be an anticipated source of liquidity . we do not have any significant contractual funding commitments with respect to any of our investments . refer to notes 6 and 7 to our consolidated financial statements for a discussion of our investments and our intangible assets , respectively . off-balance sheet arrangements we do not have any significant off-balance sheet arrangements

that are reasonably likely to have a current or future effect on our financial condition , results of operations , liquidity , capital expenditures or capital resources. .

Conagra Brands (CAG)

2007

Document ID: Double_CAG/2007/page_41.pdf

years 2002 , 2003 , 2004 , and the first two quarters of fiscal 2005 . the restatement related to tax matters . the company provided information to the sec staff relating to the facts and circumstances surrounding the restatement . on july 28 , 2006 , the company filed an amendment to its annual report on form 10-k for the fiscal year ended may 29 , 2005 . the filing amended item 6 . selected financial data and exhibit 12 , computation of ratios of earnings to fixed charges , for fiscal year 2001 , and certain restated financial information for fiscal years 1999 and 2000 , all related to the application of certain of the company 2019s reserves for the three years and fiscal year 1999 income tax expense . the company provided information to the sec staff relating to the facts and circumstances surrounding the amended filing . the company reached an agreement with the sec staff concerning matters associated with these amended filings . that proposed settlement was approved by the securities and exchange commission on july 17 , 2007 . on july 24 , 2007 , the sec filed its complaint against the company in the united states district court for the district of colorado , followed by an executed consent , which without the company admitting or denying the allegations of the complaint , reflects the terms of the settlement , including payment by the company of a civil penalty of \$ 45 million and the company 2019s agreement to be permanently enjoined from violating certain provisions of the federal securities laws . additionally , the company made approximately \$ 2 million in indemnity payments on behalf of former employees concluding separate settlements with the sec . the company recorded charges of \$ 25 million in fiscal 2004 , \$ 21.5 million in the third quarter of fiscal 2005 , and \$ 1.2 million in the first quarter of fiscal 2007 in connection with the expected settlement of these matters . three purported class actions were filed in united states district court for nebraska , rantala v . conagra foods , inc. , et . al. , case no . 805cv349 , and bright v . conagra foods , inc. , et . al. , case no . 805cv348 on july 18 , 2005 , and boyd v . conagra foods , inc. , et . al. , case no . 805cv386 on august 8 , 2005 . the lawsuits are against the company , its directors and its employee benefits committee on behalf of participants in the company 2019s employee retirement income savings plans . the lawsuits allege violations of the employee retirement income security act (erisa) in connection with the events resulting in the company 2019s april 2005 restatement of its financial statements and related matters . the company has reached a settlement with the plaintiffs in these actions subject to court approval . the settlement includes a \$ 4 million payment , most of which will be paid by an insurer . the company has also agreed to make certain prospective changes to its benefit plans as part of the settlement . 2006 vs . 2005 net sales (\$ in millions) reporting segment fiscal 2006 net sales fiscal 2005 net sales % (%) increase/ (decrease) .

	fiscal 2006 net sales	fiscal 2005 net sales	% (%) increase/ (decrease)
consumer foods	6,504	6,598	-1
food and ingredients	3,189	2,986	-7
trading and merchandising	1,186	1,224	-3
international foods	603	576	-5
total	11,482	11,384	-1

overall , company net sales increased \$ 98 million to \$ 11.5 billion in fiscal 2006 , primarily reflecting favorable results in the food and ingredients and international foods segments . price increases driven by higher input costs for potatoes , wheat milling and dehydrated vegetables within the food and ingredients segment , coupled with the strength of foreign currencies within the international foods segment enhanced net sales . these increases were partially offset by volume declines in the consumer foods segment , principally related to certain shelf stable brands and declines in the trading and merchandising segment related to decreased volumes and certain divestitures and closures .

Constellation Brands (STZ)

2005

Document ID: Double_STZ/2005/page_57.pdf

mondavi produces , markets and sells premium , super-premium and fine california wines under the woodbridge by robert mondavi , robert mondavi private selection and robert mondavi winery brand names . woodbridge and robert mondavi private selection are the leading premium and super-premium wine brands by volume , respectively , in the united states . the acquisition of robert mondavi supports the company 2019s strategy of strengthening the breadth of its portfolio across price segments to capitalize on the overall growth in the premium , super-premium and fine wine categories . the company believes that the acquired robert mondavi brand names have strong brand recognition globally . the vast majority of robert mondavi 2019s sales are generated in the united states . the company intends to leverage the robert mondavi brands in the united states through its selling , marketing and distribution infrastructure . the company also intends to further expand distribution for the robert mondavi brands in europe through its constellation europe infrastructure . the company and robert mondavi have complementary businesses that share a common growth orientation and operating philosophy . the robert mondavi acquisition provides the company with a greater presence in the fine wine sector within the united states and the ability to capitalize on the broader geographic distribution in strategic international markets . the robert mondavi acquisition supports the company 2019s strategy of growth and breadth across categories and geographies , and strengthens its competitive position in its core markets . in particular , the company believes there are growth opportunities for premium , super-premium and fine wines in the united kingdom , united states and other wine markets . total consideration paid in cash to the robert mondavi shareholders was \$ 1030.7 million . additionally , the company expects to incur direct acquisition costs of \$ 11.2 million . the purchase price was financed with borrowings under the company 2019s 2004 credit agreement (as defined in note 9) . in accordance with the purchase method of accounting , the acquired net assets are recorded at fair value at the date of acquisition . the purchase price was based primarily on the estimated future operating results of robert mondavi , including the factors described above , as well as an estimated benefit from operating cost synergies . the results of operations of the robert mondavi business are reported in the constellation wines segment and have been included in the consolidated statement of income since the acquisition date . the following table summarizes the estimated fair values of the assets acquired and liabilities assumed in the robert mondavi acquisition at the date of acquisition . the company is in the process of obtaining third-party valuations of certain assets and liabilities , and refining its restructuring plan which is under development and will be finalized during the company 2019s year ending february 28 , 2006 (see note19) . accordingly , the allocation of the purchase price is subject to refinement . estimated fair values at december 22 , 2004 , are as follows : {in thousands} .

	\$ 494788
-----	-----
property plant and equipment	452,902
other assets	178,823
trademarks	186,000
goodwill	590,459
total assets acquired	1,902,972
current liabilities	309,051
long-term liabilities	552,060
total liabilities acquired	861,111
net assets acquired	1,041,861

the trademarks are not subject to amortization . none of the goodwill is expected to be deductible for tax purposes . in connection with the robert mondavi acquisition and robert mondavi 2019s previously disclosed intention to sell certain of its winery properties and related assets , and other vineyard properties , the company has classified certain assets as held for sale as of february 28 , 2005 . the company expects to sell

these assets during the year ended february 28 , 2006 , for net pro- ceeds of approximately \$ 150 million to \$ 175 million . no gain or loss is expected to be recognized upon the sale of these assets . hardy acquisition 2013 on march 27 , 2003 , the company acquired control of brl hardy limited , now known as hardy wine company limited (201chardy 201d) , and on april 9 , 2003 , the company completed its acquisition of all of hardy 2019s outstanding capital stock . as a result of the acquisition of hardy , the company also acquired the remaining 50% (50 %) ownership of pacific wine partners llc (201cpwp 201d) , the joint venture the company established with hardy in july 2001 . the acquisition of hardy along with the remaining interest in pwp is referred to together as the 201chardy acquisition . 201d through this acquisition , the company acquired one of australia 2019s largest wine producers with interests in winer- ies and vineyards in most of australia 2019s major wine regions as well as new zealand and the united states and hardy 2019s market- ing and sales operations in the united kingdom . total consideration paid in cash and class a common stock to the hardy shareholders was \$ 1137.4 million . additionally , the company recorded direct acquisition costs of \$ 17.2 million . the acquisition date for accounting purposes is march 27 , 2003 . the company has recorded a \$ 1.6 million reduction in the purchase price to reflect imputed interest between the accounting acquisition date and the final payment of consider- ation . this charge is included as interest expense in the consolidated statement of income for the year ended february 29 , 2004 . the cash portion of the purchase price paid to the hardy shareholders and optionholders (\$ 1060.2 mil- lion) was financed with \$ 660.2 million of borrowings under the company 2019s then existing credit agreement and \$ 400.0 million .

Devon Energy (DVN)

2004

Document ID: Double_DVN/2004/page_50.pdf

46 devon energy annual report 2004 contents of gas produced , transportation availability and costs and demand for the various products derived from oil , natural gas and ngls . substantially all of devon 2019s revenues are attributable to sales , processing and transportation of these three commodities . consequently , our financial results and resources are highly influenced by price volatility . estimates for devon 2019s future production of oil , natural gas and ngls are based on the assumption that market demand and prices will continue at levels that allow for profitable production of these products . there can be no assurance of such stability . most of our canadian production is subject to government royalties that fluctuate with prices . thus , price fluctuations can affect reported production . also , our international production is governed by payout agreements with the governments of the countries in which we operate . if the payout under these agreements is attained earlier than projected , devon 2019s net production and proved reserves in such areas could be reduced . estimates for our future processing and transport of oil , natural gas and ngls are based on the assumption that market demand and prices will continue at levels that allow for profitable processing and transport of these products . there can be no assurance of such stability . the production , transportation , processing and marketing of oil , natural gas and ngls are complex processes which are subject to disruption from many causes . these causes include transportation and processing availability , mechanical failure , human error , meteorological events including , but not limited to , hurricanes , and numerous other factors . the following forward-looking statements were prepared assuming demand , curtailment , producibility and general market conditions for devon 2019s oil , natural gas and ngls during 2005 will be substantially similar to those of 2004 , unless otherwise noted . unless otherwise noted , all of the following dollar amounts are expressed in u.s . dollars . amounts related to canadian operations have been converted to u.s . dollars using a projected average 2005 exchange rate of \$ 0.82 u.s . to \$ 1.00 canadian . the actual 2005 exchange rate may vary materially from this estimate . such variations could have a material effect on the following estimates . though we have completed several major property acquisitions and dispositions in recent years , these transactions are opportunity driven . thus , the following forward-looking data excludes the financial and operating effects of potential property acquisitions or divestitures , except as discussed in 201cproperty acquisitions and divestitures , 201d during the year 2005 . the timing and ultimate results of such acquisition and divestiture activity is difficult to predict , and may vary materially from that discussed in this report . geographic reporting areas for 2005 the following estimates of production , average price differentials and capital expenditures are provided separately for each of the following geographic areas : 2022 the united states onshore ; 2022 the united states offshore , which encompasses all oil and gas properties in the gulf of mexico ; 2022 canada ; and 2022 international , which encompasses all oil and gas properties that lie outside of the united states and canada . year 2005 potential operating items the estimates related to oil , gas and ngl production , operating costs and dd&a set forth in the following paragraphs are based on estimates for devon 2019s properties other than those that have been designated for possible sale (see 201cproperty acquisitions and divestitures 201d) . therefore , the following estimates exclude the results of the potential sale properties for the entire year . oil , gas and ngl production set forth in the following paragraphs are individual estimates of devon 2019s oil , gas and ngl production for 2005 . on a combined basis , devon estimates its 2005 oil , gas and ngl production will total 217 mmboe . of this total , approximately 92% (92 %) is estimated to be produced from reserves classified as 201cproved 201d at december 31 , 2004 . oil production we expect our oil production in 2005 to total 60 mmbbls . of this total , approximately 95% (95 %) is estimated to be produced from reserves classified as 201cproved 201d at december 31 , 2004 . the expected production by area is as follows: .

	(mmbbls)
-----	-----
united states onshore	12
united states offshore	10
canada	12
international	26

oil prices 2013 fixed through various price swaps , devon has fixed the price it will receive in 2005 on a portion of its oil production . the following table includes information on this fixed-price production by area . where necessary , the prices have been adjusted for certain transportation costs that are netted against the prices recorded by devon. .

echostar communications corporation notes to consolidated financial statements - continued closing price of the class a common stock on the last business day of each calendar quarter in which such shares of class a common stock are deemed sold to an employee under the espp . the espp shall terminate upon the first to occur of (i) october 1 , 2007 or (ii) the date on which the espp is terminated by the board of directors . during 2000 , 2001 and 2002 employees purchased approximately 58000 ; 80000 and 108000 shares of class a common stock through the espp , respectively . 401 (k) employee savings plan echostar sponsors a 401 (k) employee savings plan (the 201c401 (k) plan 201d) for eligible employees . voluntary employee contributions to the 401 (k) plan may be matched 50% (50 %) by echostar , subject to a maximum annual contribution by echostar of \$ 1000 per employee . matching 401 (k) contributions totaled approximately \$ 1.6 million , \$ 2.1 million and \$ 2.4 million during the years ended december 31 , 2000 , 2001 and 2002 , respectively . echostar also may make an annual discretionary contribution to the plan with approval by echostar 2019s board of directors , subject to the maximum deductible limit provided by the internal revenue code of 1986 , as amended . these contributions may be made in cash or in echostar stock . forfeitures of unvested participant balances which are retained by the 401 (k) plan may be used to fund matching and discretionary contributions . expense recognized relating to discretionary contributions was approximately \$ 7 million , \$ 225 thousand and \$ 17 million during the years ended december 31 , 2000 , 2001 and 2002 , respectively . 9 . commitments and contingencies leases future minimum lease payments under noncancelable operating leases as of december 31 , 2002 , are as follows (in thousands) : year ending december 31 .

	\$ 17274
-----	-----
2004	14,424
2005	11,285
2006	7,698
2007	3,668
thereafter	1,650
total minimum lease payments	55,999

total rent expense for operating leases approximated \$ 9 million , \$ 14 million and \$ 16 million in 2000 , 2001 and 2002 , respectively . purchase commitments as of december 31 , 2002 , echostar 2019s purchase commitments totaled approximately \$ 359 million . the majority of these commitments relate to echostar receiver systems and related components . all of the purchases related to these commitments are expected to be made during 2003 . echostar expects to finance these purchases from existing unrestricted cash balances and future cash flows generated from operations . patents and intellectual property many entities , including some of echostar 2019s competitors , now have and may in the future obtain patents and other intellectual property rights that cover or affect products or services directly or indirectly related to those that echostar offers . echostar may not be aware of all patents and other intellectual property rights that its products may potentially infringe . damages in patent infringement cases can include a tripling of actual damages in certain cases . further , echostar cannot estimate the extent to which it may be required in the future to obtain licenses with respect to .

Dollar General (DG)

2006

Document ID: Single_DG/2006/page_58.pdf-1

consolidated 2005 results of operations was an estimated reduction of gross profit and a corresponding decrease to inventory , at cost , of \$ 5.2 million . store pre-opening costs pre-opening costs related to new store openings and the construction periods are expensed as incurred . property and equipment property and equipment are recorded at cost . the company provides for depreciation and amortization on a straight-line basis over the following estimated useful lives: .

		20	
	-----	--	
	buildings	39	
	furniture fixtures and equipment	3	

improvements of leased properties are amortized over the shorter of the life of the applicable lease term or the estimated useful life of the asset . impairment of long-lived assets when indicators of impairment are present , the company evaluates the carrying value of long-lived assets , other than goodwill , in relation to the operating performance and future cash flows or the appraised values of the underlying assets . in accordance with sfas 144 , 201caccounting for the impairment or disposal of long-lived assets , 201d the company reviews for impairment stores open more than two years for which current cash flows from operations are negative . impairment results when the carrying value of the assets exceeds the undiscounted future cash flows over the life of the lease . the company 2019s estimate of undiscounted future cash flows over the lease term is based upon historical operations of the stores and estimates of future store profitability which encompasses many factors that are subject to variability and difficult to predict . if a long-lived asset is found to be impaired , the amount recognized for impairment is equal to the difference between the carrying value and the asset 2019s fair value . the fair value is estimated based primarily upon future cash flows (discounted at the company 2019s credit adjusted risk-free rate) or other reasonable estimates of fair market value . assets to be disposed of are adjusted to the fair value less the cost to sell if less than the book value . the company recorded impairment charges , included in sg&a expense , of approximately \$ 9.4 million in 2006 , \$ 0.6 million in 2005 and \$ 0.2 million in 2004 to reduce the carrying value of certain of its stores 2019 assets as deemed necessary due to negative sales trends and cash flows at these locations . the majority of the 2006 charges were recorded pursuant to certain strategic initiatives discussed in note 2 . other assets other assets consist primarily of long-term investments , qualifying prepaid expenses , debt issuance costs which are amortized over the life of the related obligations , utility and security deposits , life insurance policies and goodwill. .

Dominion Energy (D)

2002

Document ID: Single_D/2002/page_39.pdf-1

other taxes decreased in 2001 because its utility operations in virginia became subject to state income taxes in lieu of gross receipts taxes effective january 2001 . in addition , dominion recognized higher effective rates for foreign earnings and higher pretax income in relation to non-conventional fuel tax credits realized . dominion energy 2002 2001 2000 (millions , except per share amounts) .

	2002	2001	2000
operating revenue	5,940	6,144	4,894
operating expenses	4,520	4,749	3,939
net income contribution	770	723	489
earnings per share contribution	2.72	2.86	2.07
electricity supplied* (million mwhrs)	101	95	83
gas transmission throughput (bcf)	597	553	567

* amounts presented are for electricity supplied by utility and merchant generation operations . operating results 2014 2002 dominion energy contributed \$ 2.72 per diluted share on net income of \$ 770 million for 2002 , a net income increase of \$ 47 million and an earnings per share decrease of \$ 0.14 over 2001 . net income for 2002 reflected lower operating revenue (\$ 204 million) , operating expenses (\$ 229 million) and other income (\$ 27 million) . interest expense and income taxes , which are discussed on a consolidated basis , decreased \$ 50 million over 2001 . the earnings per share decrease reflected share dilution . regulated electric sales revenue increased \$ 179 million . favorable weather conditions , reflecting increased cooling and heating degree-days , as well as customer growth , are estimated to have contributed \$ 133 million and \$ 41 million , respectively . fuel rate recoveries increased approximately \$ 65 million for 2002 . these recoveries are generally offset by increases in elec- tric fuel expense and do not materially affect income . partially offsetting these increases was a net decrease of \$ 60 million due to other factors not separately measurable , such as the impact of economic conditions on customer usage , as well as variations in seasonal rate premiums and discounts . nonregulated electric sales revenue increased \$ 9 million . sales revenue from dominion 2019s merchant generation fleet decreased \$ 21 million , reflecting a \$ 201 million decline due to lower prices partially offset by sales from assets acquired and constructed in 2002 and the inclusion of millstone operations for all of 2002 . revenue from the wholesale marketing of utility generation decreased \$ 74 million . due to the higher demand of utility service territory customers during 2002 , less production from utility plant generation was available for profitable sale in the wholesale market . revenue from retail energy sales increased \$ 71 million , reflecting primarily customer growth over the prior year . net revenue from dominion 2019s electric trading activities increased \$ 33 million , reflecting the effect of favorable price changes on unsettled contracts and higher trading margins . nonregulated gas sales revenue decreased \$ 351 million . the decrease included a \$ 239 million decrease in sales by dominion 2019s field services and retail energy marketing opera- tions , reflecting to a large extent declining prices . revenue associated with gas trading operations , net of related cost of sales , decreased \$ 112 million . the decrease included \$ 70 mil- lion of realized and unrealized losses on the economic hedges of natural gas production by the dominion exploration & pro- duction segment . as described below under selected information 2014 energy trading activities , sales of natural gas by the dominion exploration & production segment at market prices offset these financial losses , resulting in a range of prices contemplated by dominion 2019s overall risk management strategy . the remaining \$ 42 million decrease was due to unfavorable price changes on unsettled contracts and lower overall trading margins . those losses were partially offset by contributions from higher trading volumes in gas and oil markets . gas transportation and storage revenue decreased \$ 44 million , primarily reflecting lower rates . electric fuel and energy purchases expense increased \$ 94 million which included an increase of \$ 66 million associated with dominion 2019s energy marketing operations that

are not subject to cost-based rate regulation and an increase of \$ 28 million associated with utility operations . substantially all of the increase associated with non-regulated energy marketing operations related to higher volumes purchased during the year . for utility operations , energy costs increased \$ 66 million for purchases subject to rate recovery , partially offset by a \$ 38 million decrease in fuel expenses associated with lower wholesale marketing of utility plant generation . purchased gas expense decreased \$ 245 million associated with dominion 2019s field services and retail energy marketing operations . this decrease reflected approximately \$ 162 million associated with declining prices and \$ 83 million associated with lower purchased volumes . liquids , pipeline capacity and other purchases decreased \$ 64 million , primarily reflecting comparably lower levels of rate recoveries of certain costs of transmission operations in the current year period . the difference between actual expenses and amounts recovered in the period are deferred pending future rate adjustments . other operations and maintenance expense decreased \$ 14 million , primarily reflecting an \$ 18 million decrease in outage costs due to fewer generation unit outages in the current year . depreciation expense decreased \$ 11 million , reflecting decreases in depreciation associated with changes in the estimated useful lives of certain electric generation property , partially offset by increased depreciation associated with state line and millstone operations . other income decreased \$ 27 million , including a \$ 14 million decrease in net realized investment gains in the millstone 37d o m i n i o n 2019 0 2 a n n u a l r e p o r t .

Duke Realty (DRE)

management 2019s discussion and analysis of financial condition and results of operations d u k e r e a l t y c o r p o r a t i o n 1 1 2 0 0 2 a n n u a l r e p o r t 2022 interest expense on the company 2019s secured debt decreased from \$ 30.8 million in 2001 to \$ 22.9 million in 2002 as the company paid off \$ 13.5 million of secured debt throughout 2002 and experienced lower borrowings on its secured line of credit during 2002 compared to 2001 . additionally , the company paid off approximately \$ 128.5 million of secured debt throughout 2001 . 2022 interest expense on the company 2019s \$ 500 million unsecured line of credit decreased by approximately \$ 1.1 million in 2002 compared to 2001 as the company maintained lower balances on the line throughout most of 2002 . as a result of the above-mentioned items , earnings from rental operations decreased \$ 35.0 million from \$ 254.1 million for the year ended december 31 , 2001 , to \$ 219.1 million for the year ended december 31 , 2002 . service operations service operations primarily consist of leasing , management , construction and development services for joint venture properties and properties owned by third parties . service operations revenues decreased from \$ 80.5 million for the year ended december 31 , 2001 , to \$ 68.6 million for the year ended december 31 , 2002 . the prolonged effect of the slow economy has been the primary factor in the overall decrease in revenues . the company experienced a decrease of \$ 12.7 million in net general contractor revenues because of a decrease in the volume of construction in 2002 , compared to 2001 , as well as slightly lower profit margins . property management , maintenance and leasing fee revenues decreased from \$ 22.8 million in 2001 to \$ 14.3 million in 2002 primarily because of a decrease in landscaping maintenance revenue resulting from the sale of the landscaping operations in the third quarter of 2001 . construction management and development activity income represents construction and development fees earned on projects where the company acts as the construction manager along with profits from the company 2019s held for sale program whereby the company develops a property for sale upon completion . the increase in revenues of \$ 10.3 million in 2002 is primarily due to an increase in volume of the sale of properties from the held for sale program . service operations expenses decreased from \$ 45.3 million in 2001 to \$ 38.3 million in 2002 . the decrease is attributable to the decrease in construction and development activity and the reduced overhead costs as a result of the sale of the landscape business in 2001 . as a result of the above , earnings from service operations decreased from \$ 35.1 million for the year ended december 31 , 2001 , to \$ 30.3 million for the year ended december 31 , 2002 . general and administrative expense general and administrative expense increased from \$ 15.6 million in 2001 to \$ 25.4 million for the year ended december 31 , 2002 . the company has been successful reducing total operating and administration costs ; however , reduced construction and development activities have resulted in a greater amount of overhead being charged to general and administrative expense instead of being capitalized into development projects or charged to service operations . other income and expenses gain on sale of land and depreciable property dispositions , net of impairment adjustment , is comprised of the following amounts in 2002 and 2001 : gain on sales of depreciable properties represent sales of previously held for investment rental properties . beginning in 2000 and continuing into 2001 , the company pursued favorable opportunities to dispose of real estate assets that no longer met long-term investment objectives . in 2002 , the company significantly reduced this property sales program until the business climate improves and provides better investment opportunities for the sale proceeds . gain on land sales represents sales of undeveloped land owned by the company . the company pursues opportunities to dispose of land in markets with a high concentration of undeveloped land and those markets where the land no longer meets strategic development plans of the company . the company recorded a \$ 9.4 million adjustment in 2002 associated with six properties determined to have an impairment of book value . the company has analyzed each of its in-service properties and has determined that there are no additional valuation adjustments that need to be made as of december 31 , 2002 . the company recorded an adjustment of \$ 4.8 million in 2001 for one property that the company had contracted to sell for a price less than its book value . other revenue for the year ended december 31 , 2002 , includes \$ 1.4 million of gain related to

an interest rate swap that did not qualify for hedge accounting. .

	2002	2001

concentration of credit risk credit risk represents the accounting loss that would be recognized at the reporting date if counterparties failed to perform as contracted . the company believes the likelihood of incurring material losses due to concentration of credit risk is remote . the principal financial instruments subject to credit risk are as follows : cash and cash equivalents - the company maintains cash deposits with major banks , which from time to time may exceed insured limits . the possibility of loss related to financial condition of major banks has been deemed minimal . additionally , the company 2019s investment policy limits exposure to concentrations of credit risk and changes in market conditions . accounts receivable - a large number of customers in diverse industries and geographies , as well as the practice of establishing reasonable credit lines , limits credit risk . based on historical trends and experiences , the allowance for doubtful accounts is adequate to cover potential credit risk losses . foreign currency and interest rate contracts and derivatives - exposure to credit risk is limited by internal policies and active monitoring of counterparty risks . in addition , the company uses a diversified group of major international banks and financial institutions as counterparties . the company does not anticipate nonperformance by any of these counterparties . cash and cash equivalents cash equivalents include highly-liquid investments with a maturity of three months or less when purchased . accounts receivable and allowance for doubtful accounts accounts receivable are carried at their face amounts less an allowance for doubtful accounts . accounts receivable are recorded at the invoiced amount and generally do not bear interest . the company estimates the balance of allowance for doubtful accounts by analyzing accounts receivable balances by age and applying historical write-off and collection trend rates . the company 2019s estimates include separately providing for customer balances based on specific circumstances and credit conditions , and when it is deemed probable that the balance is uncollectible . account balances are charged off against the allowance when it is determined the receivable will not be recovered . the company 2019s allowance for doubtful accounts balance also includes an allowance for the expected return of products shipped and credits related to pricing or quantities shipped of \$ 15 million as of december 31 , 2015 and 2014 and \$ 14 million as of december 31 , 2013 . returns and credit activity is recorded directly to sales . the following table summarizes the activity in the allowance for doubtful accounts: .

	2015	2014	2013

Eli Lilly (LLY)

2008

Document ID: Double_LLY/2008/page_39.pdf

on the underlying exposure . for derivative contracts that are designated and qualify as cash flow hedges , the effective portion of gains and losses on these contracts is reported as a component of other comprehensive income and reclassified into earnings in the same period the hedged transaction affects earnings . hedge ineffectiveness is immediately recognized in earnings . derivative contracts that are not designated as hedging instruments are recorded at fair value with the gain or loss recognized in current earnings during the period of change . we may enter into foreign currency forward and option contracts to reduce the effect of fluctuating currency exchange rates (principally the euro , the british pound , and the japanese yen) . foreign currency derivatives used for hedging are put in place using the same or like currencies and duration as the underlying exposures . forward contracts are principally used to manage exposures arising from subsidiary trade and loan payables and receivables denominated in foreign currencies . these contracts are recorded at fair value with the gain or loss recognized in other 2014net . the purchased option contracts are used to hedge anticipated foreign currency transactions , primarily intercompany inventory activities expected to occur within the next year . these contracts are designated as cash flow hedges of those future transactions and the impact on earnings is included in cost of sales . we may enter into foreign currency forward contracts and currency swaps as fair value hedges of firm commitments . forward and option contracts generally have maturities not exceeding 12 months . in the normal course of business , our operations are exposed to fluctuations in interest rates . these fluctuations can vary the costs of financing , investing , and operating . we address a portion of these risks through a controlled program of risk management that includes the use of derivative financial instruments . the objective of controlling these risks is to limit the impact of fluctuations in interest rates on earnings . our primary interest rate risk exposure results from changes in short-term u.s . dollar interest rates . in an effort to manage interest rate exposures , we strive to achieve an acceptable balance between fixed and floating rate debt and investment positions and may enter into interest rate swaps or collars to help maintain that balance . interest rate swaps or collars that convert our fixed- rate debt or investments to a floating rate are designated as fair value hedges of the underlying instruments . interest rate swaps or collars that convert floating rate debt or investments to a fixed rate are designated as cash flow hedges . interest expense on the debt is adjusted to include the payments made or received under the swap agreements . goodwill and other intangibles : goodwill is not amortized . all other intangibles arising from acquisitions and research alliances have finite lives and are amortized over their estimated useful lives , ranging from 5 to 20 years , using the straight-line method . the weighted-average amortization period for developed product technology is approximately 12 years . amortization expense for 2008 , 2007 , and 2006 was \$ 193.4 million , \$ 172.8 million , and \$ 7.6 million before tax , respectively . the estimated amortization expense for each of the five succeeding years approximates \$ 280 million before tax , per year . substantially all of the amortization expense is included in cost of sales . see note 3 for further discussion of goodwill and other intangibles acquired in 2008 and 2007 . goodwill and other intangible assets at december 31 were as follows: .

	2008	2007
-----	-----	-----
goodwill	1,167.5	745.7
developed product technology 2014 gross	3,035.4	1,767.5
less accumulated amortization	-45.4	-38
developed product technology 2014 net	2,688.8	1,604.9
other intangibles 2014 gross	243.2	142.8
other intangibles 2014 net	197.8	104.8
total intangibles 2014 net	4,054.1	2,455.4

goodwill and net other intangibles are reviewed to assess recoverability at least annually and when certain impairment indicators are present . no significant impairments occurred with respect to the carrying value of our goodwill or other intangible assets in 2008 , 2007 , or 2006 . property and equipment : property and equipment is stated on the basis of cost . provisions for depreciation of buildings and equipment are computed generally by the straight-line method at rates based on their estimated useful lives (12 to 50 years for buildings and 3 to 18 years for equipment) . we review the carrying value of long-lived assets for potential impairment on a periodic basis and whenever events or changes in circumstances indicate the .

Emerson Electric (EMR)

2017

Document ID: Double_EMR/2017/page_54.pdf

it can issue debt securities , preferred stock , common stock , warrants , share purchase contracts or share purchase units without a predetermined limit . securities can be sold in one or more separate offerings with the size , price and terms to be determined at the time of sale . emerson 2019s financial structure provides the flexibility necessary to achieve its strategic objectives . the company has been successful in efficiently deploying cash where needed worldwide to fund operations , complete acquisitions and sustain long-term growth . at september 30 , 2017 , \$ 3.1 billion of the company 2019s cash was held outside the u.s . (primarily in europe and asia) , \$ 1.4 billion of which income taxes have been provided for , and was generally available for repatriation to the u.s . under current tax law , repatriated cash may be subject to u.s . federal income taxes , net of available foreign tax credits . the company routinely repatriates a portion of its non-u.s . cash from earnings each year , or otherwise when it can be accomplished tax efficiently , and provides for u.s . income taxes as appropriate . the company has been able to readily meet all its funding requirements and currently believes that sufficient funds will be available to meet the company 2019s needs in the foreseeable future through operating cash flow , existing resources , short- and long-term debt capacity or backup credit lines . contractual obligations at september 30 , 2017 , the company 2019s contractual obligations , including estimated payments , are as follows : amounts due by period less more than 1 2013 3 3 2013 5 than (dollars in millions) total 1 year years years 5 years long-term debt (including interest) \$ 5342 428 1434 966 2514 .

	amounts due by period total	amounts due by period less than 1 year	amounts due by period 1 - 3years	amounts due by period 3
long-term debt (including interest)	5,342	428	1,434	966
operating leases	536	171	206	80
purchase obligations	746	655	71	14
total	6,624	1,254	1,711	1,060

purchase obligations consist primarily of inventory purchases made in the normal course of business to meet operational requirements . the table above does not include \$ 2.0 billion of other noncurrent liabilities recorded in the balance sheet and summarized in note 19 , which consist primarily of pension and postretirement plan liabilities , deferred income taxes and unrecognized tax benefits , because it is not certain when these amounts will become due . see notes 11 and 12 for estimated future benefit payments and note 14 for additional information on deferred income taxes . financial instruments the company is exposed to market risk related to changes in interest rates , foreign currency exchange rates and commodity prices , and selectively uses derivative financial instruments , including forwards , swaps and purchased options to manage these risks . the company does not hold derivatives for trading or speculative purposes . the value of derivatives and other financial instruments is subject to change as a result of market movements in rates and prices . sensitivity analysis is one technique used to forecast the impact of these movements . based on a hypothetical 10 percent increase in interest rates , a 10 percent decrease in commodity prices or a 10 percent weakening in the u.s . dollar across all currencies , the potential losses in future earnings , fair value or cash flows are not material . sensitivity analysis has limitations ; for example , a weaker u.s . dollar would benefit future earnings through favorable translation of non-u.s . operating results , and lower commodity prices would benefit future earnings through lower cost of sales . see notes 1 , and 8 through 10 . critical accounting policies preparation of the company 2019s financial statements requires management to make judgments , assumptions and estimates regarding uncertainties that could affect reported revenue , expenses , assets , liabilities and equity . note 1 describes the significant accounting policies used in preparation of the consolidated financial statements . the most significant areas where management judgments and estimates impact the primary financial statements are described below . actual results in these areas could differ materially from management 2019s estimates under different assumptions or conditions . revenue recognition the company recognizes a large majority of its revenue through the sale of manufactured products and records the sale when products are shipped or

delivered , title and risk of loss pass to the customer , and collection is reasonably assured . in certain circumstances , revenue is recognized using the percentage-of- completion method , as performance occurs , or in accordance with asc 985-605 related to software . sales arrangements sometimes involve delivering multiple elements , which requires management judgment that affects the amount and timing of revenue recognized . in these instances , the revenue assigned to each element is based on vendor-specific objective evidence , third-party evidence or a management estimate of the relative selling price . revenue is recognized for delivered elements if they have value to the customer on a stand-alone basis and performance related to the undelivered items is probable and substantially in the company 2019s control , or the undelivered elements are inconsequential or perfunctory and there are no unsatisfied contingencies related to payment . the vast majority of deliverables are tangible products , with a smaller portion attributable to installation , service or maintenance . management believes that all relevant criteria and conditions are considered when recognizing revenue. .

Entergy (ETR)

2002

Document ID: Double_ETR/2002/page_24.pdf

entergy corporation and subsidiaries management's financial discussion and analysis the decrease in interest income in 2002 was primarily due to : fffd interest recognized in 2001 on grand gulf 1's decommissioning trust funds resulting from the final order addressing system energy's rate proceeding ; fffd interest recognized in 2001 at entergy mississippi and entergy new orleans on the deferred system energy costs that were not being recovered through rates ; and fffd lower interest earned on declining deferred fuel balances . the decrease in interest charges in 2002 is primarily due to : fffd a decrease of \$ 31.9 million in interest on long-term debt primarily due to the retirement of long-term debt in late 2001 and early 2002 ; and fffd a decrease of \$ 76.0 million in other interest expense primarily due to interest recorded on system energy's reserve for rate refund in 2001 . the refund was made in december 2001 . 2001 compared to 2000 results for the year ended december 31 , 2001 for u.s . utility were also affected by an increase in interest charges of \$ 61.5 million primarily due to : fffd the final ferc order addressing the 1995 system energy rate filing ; fffd debt issued at entergy arkansas in july 2001 , at entergy gulf states in june 2000 and august 2001 , at entergy mississippi in january 2001 , and at entergy new orleans in july 2000 and february 2001 ; and fffd borrowings under credit facilities during 2001 , primarily at entergy arkansas . non-utility nuclear the increase in earnings in 2002 for non-utility nuclear from \$ 128 million to \$ 201 million was primarily due to the operation of indian point 2 and vermont yankee , which were purchased in september 2001 and july 2002 , respectively . the increase in earnings in 2001 for non-utility nuclear from \$ 49 million to \$ 128 million was primarily due to the operation of fitzpatrick and indian point 3 for a full year , as each was purchased in november 2000 , and the operation of indian point 2 , which was purchased in september 2001 . following are key performance measures for non-utility nuclear: .

	2002	2001	2000
-----	-----	-----	-----
net mw in operation at december 31	3,955	3,445	2,475
generation in gwh for the year	29,953	22,614	7,171
capacity factor for the year	-93	-93	-94

2002 compared to 2001 the following fluctuations in the results of operations for non-utility nuclear in 2002 were primarily caused by the acquisitions of indian point 2 and vermont yankee (except as otherwise noted) : fffd operating revenues increased \$ 411.0 million to \$ 1.2 billion ; fffd other operation and maintenance expenses increased \$ 201.8 million to \$ 596.3 million ; fffd depreciation and amortization expenses increased \$ 25.1 million to \$ 42.8 million ; fffd fuel expenses increased \$ 29.4 million to \$ 105.2 million ; fffd nuclear refueling outage expenses increased \$ 23.9 million to \$ 46.8 million , which was due primarily to a .

eog's accrued capital expenditures at december 31 , 2016 , 2015 and 2014 were \$ 388 million , \$ 416 million and \$ 972 million , respectively . non-cash investing activities for the year ended december 31 , 2016 , included \$ 3834 million in non-cash additions to eog's oil and gas properties related to the yates transaction (see note 17) . non-cash investing activities for the year ended december 31 , 2014 included non-cash additions of \$ 5 million to eog's oil and gas properties as a result of property exchanges . 11 . business segment information eog's operations are all crude oil and natural gas exploration and production related . the segment reporting topic of the asc establishes standards for reporting information about operating segments in annual financial statements . operating segments are defined as components of an enterprise about which separate financial information is available and evaluated regularly by the chief operating decision maker , or decision-making group , in deciding how to allocate resources and in assessing performance . eog's chief operating decision-making process is informal and involves the chairman of the board and chief executive officer and other key officers . this group routinely reviews and makes operating decisions related to significant issues associated with each of eog's major producing areas in the united states , trinidad , the united kingdom and china . for segment reporting purposes , the chief operating decision maker considers the major united states producing areas to be one operating segment .

Estée Lauder Companies (EL)

2009

Document ID: Double_EL/2009/page_112.pdf

in asset positions , which totaled \$ 41.2 million at june 30 , 2009 . to manage this risk , we have established strict counterparty credit guidelines that are continually monitored and reported to management . accordingly , management believes risk of loss under these hedging contracts is remote . certain of our derivative fi nancial instruments contain credit-risk-related contingent features . as of june 30 , 2009 , we were in compliance with such features and there were no derivative financial instruments with credit-risk-related contingent features that were in a net liability position . the est{e lauder companies inc . 111 market risk we use a value-at-risk model to assess the market risk of our derivative fi nancial instruments . value-at-risk rep resents the potential losses for an instrument or portfolio from adverse changes in market factors for a specifi ed time period and confi dence level . we estimate value- at-risk across all of our derivative fi nancial instruments using a model with historical volatilities and correlations calculated over the past 250-day period . the high , low and average measured value-at-risk for the twelve months ended june 30 , 2009 and 2008 related to our foreign exchange and interest rate contracts are as follows: .

	june 30 2009 high (1)	june 30 2009 low (1)	june 30 2009 average	june 30 2009 high (2)	june 30 2009 low (2)	average
foreign exchange contracts	28.4	14.2	21.6	18.8	5.3	11.3
interest rate contracts	34.3	23	29.5	28.8	12.6	20

the change in the value-at-risk measures from the prior year related to our foreign exchange contracts refl ected an increase in foreign exchange volatilities and a different portfolio mix . the change in the value-at-risk measures from the prior year related to our interest rate contracts refl ected higher interest rate volatilities . the model esti- mates were made assuming normal market conditions and a 95 percent confi dence level . we used a statistical simulation model that valued our derivative fi nancial instruments against one thousand randomly generated market price paths . our calculated value-at-risk exposure represents an esti mate of reasonably possible net losses that would be recognized on our portfolio of derivative fi nancial instru- ments assuming hypothetical movements in future market rates and is not necessarily indicative of actual results , which may or may not occur . it does not represent the maximum possible loss or any expected loss that may occur , since actual future gains and losses will differ from those estimated , based upon actual fl uctuations in market rates , operating exposures , and the timing thereof , and changes in our portfolio of derivative fi nancial instruments during the year . we believe , however , that any such loss incurred would be offset by the effects of market rate movements on the respective underlying transactions for which the deriva- tive fi nancial instrument was intended . off-balance sheet arrangements we do not maintain any off-balance sheet arrangements , transactions , obligations or other relationships with unconsolidated entities that would be expected to have a material current or future effect upon our fi nancial condi- tion or results of operations . recently adopted accounting standards in may 2009 , the financial accounting standards board (201cfasb 201d) issued statement of financial accounting standards (201csfas 201d) no . 165 , 201csubsequent events 201d (201csfas no . 165 201d) . sfas no . 165 requires the disclosure of the date through which an entity has evaluated subsequent events for potential recognition or disclosure in the fi nan- cial statements and whether that date represents the date the fi nancial statements were issued or were available to be issued . this standard also provides clarifi cation about circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its fi nancial statements and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date . this standard is effective for interim and annual periods beginning with our fi scal year ended june 30 , 2009 . the adoption of this standard did not have a material impact on our consoli- dated fi nancial statements . in march 2008 , the fasb issued sfas no . 161 , 201cdisclosures about derivative instruments and hedging activities 2014 an amendment of fasb statement no . 133 201d (201csfas no . 161 201d) . sfas no . 161 requires companies to provide

qualitative disclosures about their objectives and strategies for using derivative instruments , quantitative disclosures of the fair values of , and gains and losses on , these derivative instruments in a tabular format , as well as more information about liquidity by requiring disclosure of a derivative contract 2019s credit-risk-related contingent .

2004

Document ID: Double_FRT/2004/page_53.pdf

the internal revenue code . therefore , cash needed to execute our strategy and invest in new properties , as well as to pay our debt at maturity , must come from one or more of the following sources : 2022 cash not distributed to shareholders , 2022 proceeds of property dispositions , or 2022 proceeds derived from the issuance of new debt or equity securities . it is management 2019s intention that we continually have access to the capital resources necessary to expand and develop our business . as a result , we intend to operate with and maintain a conservative capital structure that will allow us to maintain strong debt service coverage and fixed-charge coverage ratios as part of our commitment to investment-grade debt ratings . we may , from time to time , seek to obtain funds by the following means : 2022 additional equity offerings , 2022 unsecured debt financing and/or mortgage financings , and 2022 other debt and equity alternatives , including formation of joint ventures , in a manner consistent with our intention to operate with a conservative debt structure . cash and cash equivalents were \$ 30.5 million and \$ 35.0 million at december 31 , 2004 and december 31 , 2003 , respectively . summary of cash flows for the year ended december 31 , 2004 (in thousands) .

	for the year ended december 31 2004 (in thousands)
-----	-----
cash provided by operating activities	161,113
cash used in investing activities	-154,273
cash used by financing activities	-11,333
decrease in cash and cash equivalents	-4,493
cash and cash equivalents beginning of period	34,968
cash and cash equivalents end of period	30,475

the cash provided by operating activities is primarily attributable to the operation of our properties and the change in working capital related to our operations . we used cash of \$ 154.3 million during the twelve months ended december 31 , 2004 in investing activities , including the following : 2022 \$ 101.7 million for our acquisition of westgate mall , shaw 2019s plaza and several parcels of land , 2022 capital expenditures of \$ 59.2 million for development and redevelopment of properties including santana row , 2022 maintenance capital expenditures of approximately \$ 36.9 million , 2022 \$ 9.4 million capital contribution to a real estate partnership , and 2022 an additional \$ 3.2 million net advance under an existing mortgage note receivable ; offset by 2022 \$ 41.8 million in net sale proceeds from the sale of properties , and .

Fidelity National Information Services (FIS)

2006

Document ID: Double_FIS/2006/page_48.pdf

higher average borrowings . additionally , the recapitalization that occurred late in the first quarter of 2005 resulted in a full year of interest in 2006 as compared to approximately ten months in 2005 . the increase in interest expense in 2005 as compared to 2004 also resulted from the recapitalization in 2005 . income tax expense income tax expense totaled \$ 150.2 million , \$ 116.1 million and \$ 118.3 million for 2006 , 2005 and 2004 , respectively . this resulted in an effective tax rate of 37.2% (37.2 %) , 37.2% (37.2 %) and 37.6% (37.6 %) for 2006 , 2005 and 2004 , respectively . net earnings net earnings totaled \$ 259.1 million , \$ 196.6 and \$ 189.4 million for 2006 , 2005 and 2004 , respectively , or \$ 1.37 , \$ 1.53 and \$ 1.48 per diluted share , respectively . segment results of operations transaction processing services (in thousands) .

	2006	2005	2004
-----	-----	-----	-----
processing and services revenues	2,458,777	1,208,430	892,033
cost of revenues	1,914,148	904,124	667,078
gross profit	544,629	304,306	224,955
selling general and administrative expenses	171,106	94,889	99,581
research and development costs	70,879	85,702	54,038
operating income	302,644	123,715	71,336

revenues for the transaction processing services segment are derived from three main revenue channels ; enterprise solutions , integrated financial solutions and international . revenues from transaction processing services totaled \$ 2458.8 million , \$ 1208.4 and \$ 892.0 million for 2006 , 2005 and 2004 , respectively . the overall segment increase of \$ 1250.4 million during 2006 , as compared to 2005 was primarily attributable to the certegy merger which contributed \$ 1067.2 million to the overall increase . the majority of the remaining 2006 growth is attributable to organic growth within the historically owned integrated financial solutions and international revenue channels , with international including \$ 31.9 million related to the newly formed business process outsourcing operation in brazil . the overall segment increase of \$ 316.4 in 2005 as compared to 2004 results from the inclusion of a full year of results for the 2004 acquisitions of aurum , sanchez , kordoba , and intercept , which contributed \$ 301.1 million of the increase . cost of revenues for the transaction processing services segment totaled \$ 1914.1 million , \$ 904.1 million and \$ 667.1 million for 2006 , 2005 and 2004 , respectively . the overall segment increase of \$ 1010.0 million during 2006 as compared to 2005 was primarily attributable to the certegy merger which contributed \$ 848.2 million to the increase . gross profit as a percentage of revenues (201c gross margin 201d) was 22.2% (22.2 %) , 25.2% (25.2 %) and 25.2% (25.2 %) for 2006 , 2005 and 2004 , respectively . the decrease in gross profit in 2006 as compared to 2005 is primarily due to the february 1 , 2006 certegy merger , which businesses typically have lower margins than those of the historically owned fis businesses . incremental intangible asset amortization relating to the certegy merger also contributed to the decrease in gross margin . included in cost of revenues was depreciation and amortization of \$ 272.4 million , \$ 139.8 million , and \$ 94.6 million for 2006 , 2005 and 2004 , respectively . selling , general and administrative expenses totaled \$ 171.1 million , \$ 94.9 million and \$ 99.6 million for 2006 , 2005 and 2004 , respectively . the increase in 2006 compared to 2005 is primarily attributable to the certegy merger which contributed \$ 73.7 million to the overall increase of \$ 76.2 million . the decrease of \$ 4.7 million in 2005 as compared to 2004 is primarily attributable to the effect of acquisition related costs in 2004 . included in selling , general and administrative expenses was depreciation and amortization of \$ 11.0 million , \$ 9.1 million and \$ 2.3 million for 2006 , 2005 and 2004 , respectively .

notes to consolidated financial statements fifth third bancorp 81 vii held by the trust vii bear a fixed rate of interest of 8.875% (8.875 %) until may 15 , 2058 . thereafter , the notes pay a floating rate at three-month libor plus 500 bp . the bancorp entered into an interest rate swap to convert \$ 275 million of the fixed-rate debt into floating . at december 31 , 2008 , the rate paid on the swap was 6.05% (6.05 %) . the jsn vii may be redeemed at the option of the bancorp on or after may 15 , 2013 , or in certain other limited circumstances , at a redemption price of 100% (100 %) of the principal amount plus accrued but unpaid interest . all redemptions are subject to certain conditions and generally require approval by the federal reserve board . subsidiary long-term borrowings the senior fixed-rate bank notes due from 2009 to 2019 are the obligations of a subsidiary bank . the maturities of the face value of the senior fixed-rate bank notes are as follows : \$ 36 million in 2009 , \$ 800 million in 2010 and \$ 275 million in 2019 . the bancorp entered into interest rate swaps to convert \$ 1.1 billion of the fixed-rate debt into floating rates . at december 31 , 2008 , the rates paid on these swaps were 2.19% (2.19 %) on \$ 800 million and 2.20% (2.20 %) on \$ 275 million . in august 2008 , \$ 500 million of senior fixed-rate bank notes issued in july of 2003 matured and were paid . these long-term bank notes were issued to third-party investors at a fixed rate of 3.375% (3.375 %) . the senior floating-rate bank notes due in 2013 are the obligations of a subsidiary bank . the notes pay a floating rate at three-month libor plus 11 bp . the senior extendable notes consist of \$ 797 million that currently pay interest at three-month libor plus 4 bp and \$ 400 million that pay at the federal funds open rate plus 12 bp . the subordinated fixed-rate bank notes due in 2015 are the obligations of a subsidiary bank . the bancorp entered into interest rate swaps to convert the fixed-rate debt into floating rate . at december 31 , 2008 , the weighted-average rate paid on the swaps was 3.29% (3.29 %) . the junior subordinated floating-rate bank notes due in 2032 and 2033 were assumed by a bancorp subsidiary as part of the acquisition of crown in november 2007 . two of the notes pay floating at three-month libor plus 310 and 325 bp . the third note pays floating at six-month libor plus 370 bp . the three-month libor plus 290 bp and the three-month libor plus 279 bp junior subordinated debentures due in 2033 and 2034 , respectively , were assumed by a subsidiary of the bancorp in connection with the acquisition of first national bank . the obligations were issued to fnb statutory trusts i and ii , respectively . the junior subordinated floating-rate bank notes due in 2035 were assumed by a bancorp subsidiary as part of the acquisition of first charter in may 2008 . the obligations were issued to first charter capital trust i and ii , respectively . the notes of first charter capital trust i and ii pay floating at three-month libor plus 169 bp and 142 bp , respectively . the bancorp has fully and unconditionally guaranteed all obligations under the acquired trust preferred securities . at december 31 , 2008 , fhfb advances have rates ranging from 0% (0 %) to 8.34% (8.34 %) , with interest payable monthly . the advances are secured by certain residential mortgage loans and securities totaling \$ 8.6 billion . at december 31 , 2008 , \$ 2.5 billion of fhfb advances are floating rate . the bancorp has interest rate caps , with a notional of \$ 1.5 billion , held against its fhfb advance borrowings . the \$ 3.6 billion in advances mature as follows : \$ 1.5 billion in 2009 , \$ 1 million in 2010 , \$ 2 million in 2011 , \$ 1 billion in 2012 and \$ 1.1 billion in 2013 and thereafter . medium-term senior notes and subordinated bank notes with maturities ranging from one year to 30 years can be issued by two subsidiary banks , of which \$ 3.8 billion was outstanding at december 31 , 2008 with \$ 16.2 billion available for future issuance . there were no other medium-term senior notes outstanding on either of the two subsidiary banks as of december 31 , 2008 . 15 . commitments , contingent liabilities and guarantees the bancorp , in the normal course of business , enters into financial instruments and various agreements to meet the financing needs of its customers . the bancorp also enters into certain transactions and agreements to manage its interest rate and prepayment risks , provide funding , equipment and locations for its operations and invest in its communities . these instruments and agreements involve , to varying degrees , elements of credit risk , counterparty risk and market risk in excess of the amounts recognized in the bancorp 2019s consolidated balance sheets . creditworthiness for all instruments and agreements is evaluated on a case-by-case basis in accordance with the bancorp 2019s credit

policies . the bancorp 2019s significant commitments , contingent liabilities and guarantees in excess of the amounts recognized in the consolidated balance sheets are summarized as follows : commitments the bancorp has certain commitments to make future payments under contracts . a summary of significant commitments at december 31: .

	2008	2007
commitments to extend credit	49,470	49,788
letters of credit (including standby letters of credit)	8,951	8,522
forward contracts to sell mortgage loans	3,235	1,511
noncancelable lease obligations	937	734
purchase obligations	81	52
capital expenditures	68	94

commitments to extend credit are agreements to lend , typically having fixed expiration dates or other termination clauses that may require payment of a fee . since many of the commitments to extend credit may expire without being drawn upon , the total commitment amounts do not necessarily represent future cash flow requirements . the bancorp is exposed to credit risk in the event of nonperformance for the amount of the contract . fixed-rate commitments are also subject to market risk resulting from fluctuations in interest rates and the bancorp 2019s exposure is limited to the replacement value of those commitments . as of december 31 , 2008 and 2007 , the bancorp had a reserve for unfunded commitments totaling \$ 195 million and \$ 95 million , respectively , included in other liabilities in the consolidated balance sheets . standby and commercial letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party . at december 31 , 2008 , approximately \$ 3.3 billion of letters of credit expire within one year (including \$ 57 million issued on behalf of commercial customers to facilitate trade payments in dollars and foreign currencies) , \$ 5.3 billion expire between one to five years and \$ 0.4 billion expire thereafter . standby letters of credit are considered guarantees in accordance with fasb interpretation no . 45 , 201cguarantor 2019s accounting and disclosure requirements for guarantees , including indirect guarantees of indebtedness of others 201d (fin 45) . at december 31 , 2008 , the reserve related to these standby letters of credit was \$ 3 million . approximately 66% (66 %) and 70% (70 %) of the total standby letters of credit were secured as of december 31 , 2008 and 2007 , respectively . in the event of nonperformance by the customers , the bancorp has rights to the underlying collateral , which can include commercial real estate , physical plant and property , inventory , receivables , cash and marketable securities . the bancorp monitors the credit risk associated with the standby letters of credit using the same dual risk rating system utilized for .

Fortive (FTV)

2017

Document ID: Single_FTV/2017/page_45.pdf-1

2022 higher 2017 sales volumes , incremental year-over-year cost savings associated with restructuring and productivity improvement initiatives , costs associated with various growth investments made in 2016 and changes in currency exchange rates , partially offset by incremental year-over-year costs associated with various product development and sales and marketing growth investments : 60 basis points year-over-year operating profit margin comparisons were unfavorably impacted by : 2022 the incremental year-over-year net dilutive effect of acquired businesses : 20 basis points 2016 compared to 2015 year-over-year price increases in the segment contributed 0.3% (0.3 %) to sales growth during 2016 as compared to 2015 and are reflected as a component of the change in sales from existing businesses . sales from existing businesses in the segment 2019s transportation technologies businesses grew at a high-single digit rate during 2016 as compared to 2015 , due primarily to strong demand for dispenser , payment and point-of-sale systems , environmental compliance products as well as vehicle and fleet management products , partly offset by weaker year-over-year demand for compressed natural gas products . as expected , beginning in the second half of 2016 , the business began to experience reduced emv-related demand for indoor point-of-sale solutions , as customers had largely upgraded to products that support indoor emv requirements in the prior year in response to the indoor liability shift . however , demand increased on a year-over-year basis for dispensers and payment systems as customers in the united states continued to upgrade equipment driven primarily by the emv deadlines related to outdoor payment systems . geographically , sales from existing businesses continued to increase on a year-over-year basis in the united states and to a lesser extent in asia and western europe . sales from existing businesses in the segment 2019s automation & specialty components business declined at a low-single digit rate during 2016 as compared to 2015 . the businesses experienced sequential year-over-year improvement in demand during the second half of 2016 as compared to the first half of 2016 . during 2016 , year-over-year demand declined for engine retarder products due primarily to weakness in the north american heavy-truck market , partly offset by strong growth in china and europe . in addition , year-over-year demand declined in certain medical and defense related end markets which were partly offset by increased year-over-year demand for industrial automation products particularly in china . geographically , sales from existing businesses in the segment 2019s automation & specialty components businesses declined in north america , partly offset by growth in western europe and china . sales from existing businesses in the segment 2019s franchise distribution business grew at a mid-single digit rate during 2016 , as compared to 2015 , due primarily to continued net increases in franchisees as well as continued growth in demand for professional tool products and tool storage products , primarily in the united states . this growth was partly offset by year-over-year declines in wheel service equipment sales during 2016 . operating profit margins increased 70 basis points during 2016 as compared to 2015 . the following factors favorably impacted year-over-year operating profit margin comparisons : 2022 higher 2016 sales volumes , pricing improvements , incremental year-over-year cost savings associated with restructuring and productivity improvement initiatives and the incrementally favorable impact of the impairment of certain tradenames used in the segment in 2015 and 2016 , net of costs associated with various growth investments , product development and sales and marketing growth investments , higher year-over-year costs associated with restructuring actions and changes in currency exchange rates : 65 basis points 2022 the incremental net accretive effect in 2016 of acquired businesses : 5 basis points cost of sales and gross profit .

	for the year ended december 31 2017	for the year ended december 31 2016	for the year ended december 31 2015
sales	6,656	6,224.3	6,178.8
cost of sales	-3,357.5	-3,191.5	-3,178.8
gross profit	3,298.5	3,032.8	3,000
gross profit margin	-49.6	-48.7	-48.6

the year-over-year increase in cost of sales during 2017 as compared to 2016 is due primarily to the impact of higher year- over-year sales volumes and changes in currency exchange rates partly offset by incremental year-over-year cost savings .

Fortune Brands Home & Security (FBHS)

2017

Document ID: Double_FBHS/2017/page_23.pdf

south america . approximately 26% (26 %) of 2017 net sales were to international markets . this segment sells directly through its own sales force and indirectly through independent manufacturers 2019 representatives , primarily to wholesalers , home centers , mass merchandisers and industrial distributors . in aggregate , sales to the home depot and lowe 2019s comprised approximately 23% (23 %) of net sales of the plumbing segment in 2017 . this segment 2019s chief competitors include delta (owned by masco) , kohler , pfister (owned by spectrum brands) , american standard (owned by lixil group) , insinkerator (owned by emerson electronic company) and imported private-label brands . doors . our doors segment manufactures and sells fiberglass and steel entry door systems under the therma-tru brand and urethane millwork product lines under the fyon brand . this segment benefits from the long-term trend away from traditional materials , such as wood , steel and aluminum , toward more energy-efficient and durable synthetic materials . therma-tru products include fiberglass and steel residential entry door and patio door systems , primarily for sale in the u.s . and canada . this segment 2019s principal customers are home centers , millwork building products and wholesale distributors , and specialty dealers that provide products to the residential new construction market , as well as to the remodeling and renovation markets . in aggregate , sales to the home depot and lowe 2019s comprised approximately 14% (14 %) of net sales of the doors segment in 2017 . this segment 2019s competitors include masonite , jeld-wen , plastpro and pella . security . our security segment 2019s products consist of locks , safety and security devices , and electronic security products manufactured , sourced and distributed primarily under the master lock brand and fire resistant safes , security containers and commercial cabinets manufactured , sourced and distributed under the sentrysafe brand . this segment sells products principally in the u.s . , canada , europe , central america , japan and australia . approximately 25% (25 %) of 2017 net sales were to international markets . this segment manufactures and sells key-controlled and combination padlocks , bicycle and cable locks , built-in locker locks , door hardware , automotive , trailer and towing locks , electronic access control solutions , and other specialty safety and security devices for consumer use to hardware , home center and other retail outlets . in addition , the segment sells lock systems and fire resistant safes to locksmiths , industrial and institutional users , and original equipment manufacturers . in aggregate , sales to the home depot and lowe 2019s comprised approximately 18% (18 %) of the net sales of the security segment in 2017 . master lock competes with abus , w.h . brady , hampton , kwikset (owned by spectrum brands) , schlage (owned by allegion) , assa abloy and various imports , and sentrysafe competes with first alert , magnum , fortress , stack-on and fire king . annual net sales for each of the last three fiscal years for each of our business segments were as follows : (in millions) 2017 2016 2015 .

	2017	2016	2015
-----	-----	-----	-----
cabinets	2,467.1	2,397.8	2,173.4
plumbing	1,720.8	1,534.4	1,414.5
doors	502.9	473	439.1
security	592.5	579.7	552.4
total	5,283.3	4,984.9	4,579.4

for additional financial information for each of our business segments , refer to note 18 , 201cinformation on business segments , 201d to the consolidated financial statements in item 8 of this annual report on form other information raw materials . the table below indicates the principal raw materials used by each of our segments . these materials are available from a number of sources . volatility in the prices of commodities and energy used in making and distributing our products impacts the cost of manufacturing our products .

Garmin (GRMN)

2004

General Mills (GIS)

2006

Document ID: Double_GIS/2006/page_43.pdf

during fiscal 2006 , we repurchased 19 million shares of common stock for an aggregate purchase price of \$ 892 million , of which \$ 7 million settled after the end of our fiscal year . in fiscal 2005 , we repurchased 17 million shares of common stock for an aggregate purchase price of \$ 771 million . a total of 146 million shares were held in treasury at may 28 , 2006 . we also used cash from operations to repay \$ 189 million in outstanding debt in fiscal 2006 . in fiscal 2005 , we repaid nearly \$ 2.2 billion of debt , including the purchase of \$ 760 million principal amount of our 6 percent notes due in 2012 . fiscal 2005 debt repurchase costs were \$ 137 million , consisting of \$ 73 million of noncash interest rate swap losses reclassified from accumulated other comprehensive income , \$ 59 million of purchase premium and \$ 5 million of noncash unamortized cost of issuance expense . capital structure in millions may 28 , may 29 .

	may 28 2006	may 29 2005
notes payable	1,503	299
current portion of long-term debt	2,131	1,638
long-term debt	2,415	4,255
total debt	6,049	6,192
minority interests	1,136	1,133
stockholders' equity	5,772	5,676
total capital	12,957	13,001

we have \$ 2.1 billion of long-term debt maturing in the next 12 months and classified as current , including \$ 131 million that may mature in fiscal 2007 based on the put rights of those note holders . we believe that cash flows from operations , together with available short- and long- term debt financing , will be adequate to meet our liquidity and capital needs for at least the next 12 months . on october 28 , 2005 , we repurchased a significant portion of our zero coupon convertible debentures pursuant to put rights of the holders for an aggregate purchase price of \$ 1.33 billion , including \$ 77 million of accreted original issue discount . these debentures had an aggregate principal amount at maturity of \$ 1.86 billion . we incurred no gain or loss from this repurchase . as of may 28 , 2006 , there were \$ 371 million in aggregate principal amount at maturity of the debentures outstanding , or \$ 268 million of accreted value . we used proceeds from the issuance of commercial paper to fund the purchase price of the debentures . we also have reclassified the remaining zero coupon convertible debentures to long-term debt based on the october 2008 put rights of the holders . on march 23 , 2005 , we commenced a cash tender offer for our outstanding 6 percent notes due in 2012 . the tender offer resulted in the purchase of \$ 500 million principal amount of the notes . subsequent to the expiration of the tender offer , we purchased an additional \$ 260 million principal amount of the notes in the open market . the aggregate purchases resulted in the debt repurchase costs as discussed above . our minority interests consist of interests in certain of our subsidiaries that are held by third parties . general mills cereals , llc (gmc) , our subsidiary , holds the manufacturing assets and intellectual property associated with the production and retail sale of big g ready-to-eat cereals , progresso soups and old el paso products . in may 2002 , one of our wholly owned subsidiaries sold 150,000 class a preferred membership interests in gmc to an unrelated third-party investor in exchange for \$ 150 million , and in october 2004 , another of our wholly owned subsidiaries sold 835,000 series b-1 preferred membership interests in gmc in exchange for \$ 835 million . all interests in gmc , other than the 150,000 class a interests and 835,000 series b-1 interests , but including all managing member interests , are held by our wholly owned subsidiaries . in fiscal 2003 , general mills capital , inc . (gm capital) , a subsidiary formed for the purpose of purchasing and collecting our receivables , sold \$ 150 million of its series a preferred stock to an unrelated third-party investor . the class a interests of gmc receive quarterly preferred distributions at a floating rate equal to (i) the sum of three- month libor plus 90 basis points , divided by (ii)

0.965 . this rate will be adjusted by agreement between the third- party investor holding the class a interests and gmc every five years , beginning in june 2007 . under certain circum- stances , gmc also may be required to be dissolved and liquidated , including , without limitation , the bankruptcy of gmc or its subsidiaries , failure to deliver the preferred distributions , failure to comply with portfolio requirements , breaches of certain covenants , lowering of our senior debt rating below either baa3 by moody 2019s or bbb by standard & poor 2019s , and a failed attempt to remarket the class a inter- ests as a result of a breach of gmc 2019s obligations to assist in such remarketing . in the event of a liquidation of gmc , each member of gmc would receive the amount of its then current capital account balance . the managing member may avoid liquidation in most circumstances by exercising an option to purchase the class a interests . the series b-1 interests of gmc are entitled to receive quarterly preferred distributions at a fixed rate of 4.5 percent per year , which is scheduled to be reset to a new fixed rate through a remarketing in october 2007 . beginning in october 2007 , the managing member of gmc may elect to repurchase the series b-1 interests for an amount equal to the holder 2019s then current capital account balance plus any applicable make-whole amount . gmc is not required to purchase the series b-1 interests nor may these investors put these interests to us . the series b-1 interests will be exchanged for shares of our perpetual preferred stock upon the occurrence of any of the following events : our senior unsecured debt rating falling below either ba3 as rated by moody 2019s or bb- as rated by standard & poor 2019s or fitch , inc. .

Global Payments (GPN)

2007

Document ID: Double_GPN/2007/page_18.pdf

asia-pacific acquisition on july 24 , 2006 , we completed the purchase of a fifty-six percent ownership interest in the merchant acquiring business of the hongkong and shanghai banking corporation limited , or hsbc . this business provides card payment processing services to merchants in the asia-pacific region . the business includes hsbc 2019s payment processing operations in the following ten countries and territories : brunei , china , hong kong , india , macau , malaysia , maldives , singapore , sri lanka and taiwan . under the terms of the agreement , we initially paid hsbc \$ 67.2 million in cash to acquire our ownership interest . we paid an additional \$ 1.4 million under this agreement during fiscal 2007 , for a total purchase price of \$ 68.6 million to acquire our ownership interest . in conjunction with this acquisition , we entered into a transition services agreement with hsbc that may be terminated at any time . under this agreement , we expect hsbc will continue to perform payment processing operations and related support services until we integrate these functions into our own operations , which we expect will be completed in 2010 . the operating results of this acquisition are included in our consolidated statements of income from the date of the acquisition . business description we are a leading payment processing and consumer money transfer company . as a high-volume processor of electronic transactions , we enable merchants , multinational corporations , financial institutions , consumers , government agencies and other profit and non-profit business enterprises to facilitate payments to purchase goods and services or further other economic goals . our role is to serve as an intermediary in the exchange of information and funds that must occur between parties so that a payment transaction or money transfer can be completed . we were incorporated in georgia as global payments inc . in september 2000 , and we spun-off from our former parent company on january 31 , 2001 . including our time as part of our former parent company , we have provided transaction processing services since 1967 . we market our products and services throughout the united states , canada , europe and the asia-pacific region . we operate in two business segments , merchant services and money transfer , and we offer various products through these segments . our merchant services segment targets customers in many vertical industries including financial institutions , gaming , government , health care , professional services , restaurants , retail , universities and utilities . our money transfer segment primarily targets immigrants in the united states and europe . see note 10 in the notes to consolidated financial statements for additional segment information and 201citem 1a 2014risk factors 201d for a discussion of risks involved with our international operations . total revenues from our merchant services and money transfer segments , by geography and sales channel , are as follows (amounts in thousands) : .

operating lease obligations	723	175	285	162	101
purchase obligations [4] [5]	1,764	1,614	120	14	16
other long-term liabilities reflected on the balance sheet [6] [7]	1,642	1,590	2,014	52	2,014
total	317,105	27,729	45,161	45,112	199,103

[1] the following points are significant to understanding the cash flows estimated for obligations under property and casualty contracts : reserves for property & casualty unpaid claim and claim adjustment expenses include case reserves for reported claims and reserves for claims incurred but not reported (ibnr) . while payments due on claim reserves are considered contractual obligations because they relate to insurance policies issued by the company , the ultimate amount to be paid to settle both case reserves and ibnr is an estimate , subject to significant uncertainty . the actual amount to be paid is not determined until the company reaches a settlement with the claimant . final claim settlements may vary significantly from the present estimates , particularly since many claims will not be settled until well into the future . in estimating the timing of future payments by year , the company has assumed that its historical payment patterns will continue . however , the actual timing of future payments will likely vary materially from these estimates due to , among other things , changes in claim reporting and payment patterns and large unanticipated settlements . in particular , there is significant uncertainty over the claim payment patterns of asbestos and environmental claims . also , estimated payments in 2005 do not include payments that will be made on claims incurred in 2005 on policies that were in force as of december 31 , 2004 . in addition , the table does not include future cash flows related to the receipt of premiums that will be used , in part , to fund loss payments . under generally accepted accounting principles , the company is only permitted to discount reserves for claim and claim adjustment expenses in cases where the payment pattern and ultimate loss costs are fixed and reliably determinable on an individual claim basis . for the company , these include claim settlements with permanently disabled claimants and certain structured settlement contracts that fund loss runoffs for unrelated parties . as of december 31 , 2004 , the total property and casualty reserves in the above table of \$ 21885 are gross of the reserve discount of \$ 556 . [2] estimated life , annuity and disability obligations include death and disability claims , policy surrenders , policyholder dividends and trail commissions offset by expected future deposits and premiums on in-force contracts . estimated contractual policyholder obligations are based on mortality , morbidity and lapse assumptions comparable with life 2019s historical experience , modified for recent observed trends . life has also assumed market growth and interest crediting consistent with assumptions used in amortizing deferred acquisition costs . in contrast to this table , the majority of life 2019s obligations are recorded on the balance sheet at the current account value , as described in critical accounting estimates , and do not incorporate an expectation of future market growth , interest crediting , or future deposits . therefore , the estimated contractual policyholder obligations presented in this table significantly exceed the liabilities recorded in reserve for future policy benefits and unpaid claims and claim adjustment expenses , other policyholder funds and benefits payable and separate account liabilities . due to the significance of the assumptions used , the amounts presented could materially differ from actual results . as separate account obligations are legally insulated from general account obligations , the separate account obligations will be fully funded by cash flows from separate account assets . life expects to fully fund the general account obligations from cash flows from general account investments and future deposits and premiums . [3] includes contractual principal and interest payments . payments exclude

amounts associated with fair-value hedges of certain of the company 2019s long-term debt . all long-term debt obligations have fixed rates of interest . long-term debt obligations also includes principal and interest payments of \$ 700 and \$ 2.4 billion , respectively , related to junior subordinated debentures which are callable beginning in 2006 . see note 14 of notes to consolidated financial statements for additional discussion of long-term debt obligations . [4] includes \$ 1.4 billion in commitments to purchase investments including \$ 330 of limited partnerships and \$ 299 of mortgage loans . outstanding commitments under these limited partnerships and mortgage loans are included in payments due in less than 1 year since the timing of funding these commitments cannot be estimated . the remaining \$ 759 relates to payables for securities purchased which are reflected on the company 2019s consolidated balance sheet . [5] includes estimated contribution of \$ 200 to the company 2019s pension plan in 2005 . [6] as of december 31 , 2004 , the company has accepted cash collateral of \$ 1.6 billion in connection with the company 2019s securities lending program and derivative instruments . since the timing of the return of the collateral is uncertain , the return of the collateral has been included in the payments due in less than 1 year . [7] includes \$ 52 in collateralized loan obligations (201cclos 201d) issued to third-party investors by a consolidated investment management entity sponsored by the company in connection with synthetic clo transactions . the clo investors have no recourse to the company 2019s assets other than the dedicated assets collateralizing the clos . refer to note 4 of notes to consolidated financial statements for additional discussion of .

\$ 25.7 million in cash , including \$ 4.2 million in taxes and 1373609 of hep 2019s common units having a fair value of \$ 53.5 million . roadrunner / beeson pipelines transaction also on december 1 , 2009 , hep acquired our two newly constructed pipelines for \$ 46.5 million , consisting of a 65- mile , 16-inch crude oil pipeline (the 201croadrunner pipeline 201d) that connects our navajo refinery lovington facility to a terminus of centurion pipeline l.p . 2019s pipeline extending between west texas and cushing , oklahoma and a 37- mile , 8-inch crude oil pipeline that connects hep 2019s new mexico crude oil gathering system to our navajo refinery lovington facility (the 201cbeeson pipeline 201d) . tula west loading racks transaction on august 1 , 2009 , hep acquired from us , certain truck and rail loading/unloading facilities located at our tula west facility for \$ 17.5 million . the racks load refined products and lube oils produced at the tula west facility onto rail cars and/or tanker trucks . lovington-artesia pipeline transaction on june 1 , 2009 , hep acquired our newly constructed , 16-inch intermediate pipeline for \$ 34.2 million that runs 65 miles from our navajo refinery 2019s crude oil distillation and vacuum facilities in lovington , new mexico to its petroleum refinery located in artesia , new mexico . slc pipeline joint venture interest on march 1 , 2009 , hep acquired a 25% (25 %) joint venture interest in the slc pipeline , a new 95-mile intrastate pipeline system jointly owned with plains . the slc pipeline commenced operations effective march 2009 and allows various refineries in the salt lake city area , including our woods cross refinery , to ship crude oil into the salt lake city area from the utah terminus of the frontier pipeline as well as crude oil flowing from wyoming and utah via plains 2019 rocky mountain pipeline . hep 2019s capitalized joint venture contribution was \$ 25.5 million . rio grande pipeline sale on december 1 , 2009 , hep sold its 70% (70 %) interest in rio grande pipeline company (201crio grande 201d) to a subsidiary of enterprise products partners lp for \$ 35 million . results of operations of rio grande are presented in discontinued operations . in accounting for this sale , hep recorded a gain of \$ 14.5 million and a receivable of \$ 2.2 million representing its final distribution from rio grande . the recorded net asset balance of rio grande at december 1 , 2009 , was \$ 22.7 million , consisting of cash of \$ 3.1 million , \$ 29.9 million in properties and equipment , net and \$ 10.3 million in equity , representing bp , plc 2019s 30% (30 %) noncontrolling interest . the following table provides income statement information related to hep 2019s discontinued operations : year ended december 31 , 2009 (in thousands) .

	year ended december 31 2009 (in thousands)
income from discontinued operations before income taxes	5,367
income tax expense	-1,978
income from discontinued operations net	16,926
gain on sale of discontinued operations before income taxes	14,479
gain on sale of discontinued operations net	12,501

transportation agreements hep serves our refineries under long-term pipeline and terminal , tankage and throughput agreements expiring in 2019 through 2026 . under these agreements , we pay hep fees to transport , store and throughput volumes of refined product and crude oil on hep 2019s pipeline and terminal , tankage and loading rack facilities that result in minimum annual payments to hep . under these agreements , the agreed upon tariff rates are subject to annual tariff rate adjustments on july 1 at a rate based upon the percentage change in producer price index (201cpqi 201d) or federal energy .

Hologic (HOLX)

2004

Document ID: Double_HOLX/2004/page_87.pdf

hologic , inc . notes to consolidated financial statements 2014 (continued) (in thousands , except per share data) future minimum lease payments under all the company 2019s operating leases are approximately as follows: .

	amount
-----	-----
september 24 2005	4,848
september 30 2006	4,672
september 29 2007	3,680
september 27 2008	3,237
september 26 2009	3,158
thereafter	40,764
total (not reduced by minimum sublease rentals of \$ 165)	60,359

the company subleases a portion of its bedford facility and has received rental income of \$ 277 , \$ 410 and \$ 682 for fiscal years 2004 , 2003 and 2002 , respectively , which has been recorded as an offset to rent expense in the accompanying statements of income . rental expense , net of sublease income , was approximately \$ 4660 , \$ 4963 , and \$ 2462 for fiscal 2004 , 2003 and 2002 , respectively . 9 . business segments and geographic information the company reports segment information in accordance with sfas no . 131 , disclosures about segments of an enterprise and related information . operating segments are identified as components of an enterprise about which separate , discrete financial information is available for evaluation by the chief operating decision maker , or decision-making group , in making decisions how to allocate resources and assess performance . the company 2019s chief decision-maker , as defined under sfas no . 131 , is the chief executive officer . to date , the company has viewed its operations and manages its business as four principal operating segments : the manufacture and sale of mammography products , osteoporosis assessment products , digital detectors and other products . as a result of the company 2019s implementation of a company wide integrated software application in fiscal 2003 , identifiable assets for the four principal operating segments only consist of inventories , intangible assets , and property and equipment . the company has presented all other assets as corporate assets . prior periods have been restated to conform to this presentation . intersegment sales and transfers are not significant. .

Host Hotels & Resorts (HST)

2007

Document ID: Single_HST/2007/page_62.pdf-1

agreements . deferred financing costs amounted to \$ 51 million and \$ 60 million , net of accumulated amortization , as of december 31 , 2007 and 2006 , respectively . amortization of deferred financing costs totaled \$ 13 million , \$ 15 million and \$ 14 million in 2007 , 2006 and 2005 , respectively , and is included in interest expense on the accompanying statements of operations . amortization of property and equipment under capital leases totaled \$ 2 million , \$ 2 million and \$ 3 million in 2007 , 2006 and 2005 , respectively , and is included in depreciation and amortization on the accompanying consolidated state- ments of operations . 5 stockholders 2019 equity seven hundred fifty million shares of common stock , with a par value of \$ 0.01 per share , are authorized , of which 522.6 million and 521.1 million were outstanding as of december 31 , 2007 and 2006 , respectively . fifty million shares of no par value preferred stock are authorized , with 4.0 million shares out- standing as of december 31 , 2007 and 2006 . dividends we are required to distribute at least 90% (90 %) of our annual taxable income , excluding net capital gain , to qualify as a reit . however , our policy on common dividends is generally to distribute 100% (100 %) of our estimated annual taxable income , including net capital gain , unless otherwise contractually restricted . for our preferred dividends , we will generally pay the quarterly dividend , regard- less of the amount of taxable income , unless similarly contractu- ally restricted . the amount of any dividends will be determined by host 2019s board of directors . all dividends declared in 2007 , 2006 and 2005 were determined to be ordinary income . the table below presents the amount of common and preferred dividends declared per share as follows: .

	2007	2006	2005
common stock	1	76	41
class b preferred stock 10% (10 %)	2,014	2,014	87
class c preferred stock 10% (10 %)	2,014	625	2.5
class e preferred stock 87/8% (87/8 %)	2.22	2.22	2.22

class e preferred stock 8 7/8% (7/8 %) 2.22 2.22 2.22 common stock on april 10 , 2006 , we issued approximately 133.5 million com- mon shares for the acquisition of hotels from starwood hotels & resorts . see note 12 , acquisitions-starwood acquisition . during 2006 , we converted our convertible subordinated debentures into approximately 24 million shares of common stock . the remainder was redeemed for \$ 2 million in april 2006 . see note 4 , debt . preferred stock we currently have one class of publicly-traded preferred stock outstanding : 4034400 shares of 8 7/8% (7/8 %) class e preferred stock . holders of the preferred stock are entitled to receive cumulative cash dividends at 8 7/8% (7/8 %) per annum of the \$ 25.00 per share liqui- dation preference , which are payable quarterly in arrears . after june 2 , 2009 , we have the option to redeem the class e preferred stock for \$ 25.00 per share , plus accrued and unpaid dividends to the date of redemption . the preferred stock ranks senior to the common stock and the authorized series a junior participating preferred stock (discussed below) . the preferred stockholders generally have no voting rights . accrued preferred dividends at december 31 , 2007 and 2006 were approximately \$ 2 million . during 2006 and 2005 , we redeemed , at par , all of our then outstanding shares of class c and b cumulative preferred stock , respectively . the fair value of the preferred stock (which was equal to the redemption price) exceeded the carrying value of the class c and b preferred stock by approximately \$ 6 million and \$ 4 million , respectively . these amounts represent the origi- nal issuance costs . the original issuance costs for the class c and b preferred stock have been reflected in the determination of net income available to common stockholders for the pur- pose of calculating our basic and diluted earnings per share in the respective years of redemption . stockholders rights plan in 1998 , the board of directors adopted a stockholder rights plan under which a dividend of one preferred stock purchase right was distributed for each outstanding share of our com- mon stock . each right when exercisable entitles the holder to buy 1/1000th of a share of a series a junior participating pre- ferred stock of

ours at an exercise price of \$ 55 per share , subject to adjustment . the rights are exercisable 10 days after a person or group acquired beneficial ownership of at least 20% (20 %) , or began a tender or exchange offer for at least 20% (20 %) , of our com- mon stock . shares owned by a person or group on november 3 , 1998 and held continuously thereafter are exempt for purposes of determining beneficial ownership under the rights plan . the rights are non-voting and expire on november 22 , 2008 , unless exercised or previously redeemed by us for \$.005 each . if we were involved in a merger or certain other business combina- tions not approved by the board of directors , each right entitles its holder , other than the acquiring person or group , to purchase common stock of either our company or the acquiror having a value of twice the exercise price of the right . stock repurchase plan our board of directors has authorized a program to repur- chase up to \$ 500 million of common stock . the common stock may be purchased in the open market or through private trans- actions , dependent upon market conditions . the plan does not obligate us to repurchase any specific number of shares and may be suspended at any time at management 2019s discretion . 6 income taxes we elected to be treated as a reit effective january 1 , 1999 , pursuant to the u.s . internal revenue code of 1986 , as amended . in general , a corporation that elects reit status and meets certain tax law requirements regarding the distribution of its taxable income to its stockholders as prescribed by applicable tax laws and complies with certain other requirements (relating primarily to the nature of its assets and the sources of its revenues) is generally not subject to federal and state income taxation on its operating income distributed to its stockholders . in addition to paying federal and state income taxes on any retained income , we are subject to taxes on 201cbuilt-in-gains 201d resulting from sales of certain assets . additionally , our taxable reit subsidiaries are subject to federal , state and foreign 63h o s t h o t e l s & r e s o r t s 2 0 0 7 60629p21-80x4 4/8/08 4:02 pm page 63 .

Howmet Aerospace (HWM)

2015

Document ID: Double_HWM/2015/page_87.pdf

additionally , the latin american soft alloy extrusions business previously included in corporate was moved into the new transportation and construction solutions segment . the remaining engineered products and solutions segment consists of the alcoa fastening systems and rings (renamed to include portions of the firth rixson business acquired in november 2014) , alcoa power and propulsion (includes the tital business acquired in march 2015) , alcoa forgings and extrusions (includes the other portions of firth rixson) , and alcoa titanium and engineered products (a new business unit that consists solely of the rti international metals business acquired in july 2015) business units . segment information for all prior periods presented was updated to reflect the new segment structure . atoi for all reportable segments totaled \$ 1906 in 2015 , \$ 1968 in 2014 , and \$ 1267 in 2013 . the following information provides shipments , sales , and atoi data for each reportable segment , as well as certain production , realized price , and average cost data , for each of the three years in the period ended december 31 , 2015 . see note q to the consolidated financial statements in part ii item 8 of this form 10-k for additional information . alumina .

	2015	2014	2013
alumina production (kmt)	15,720	16,606	16,618
third-party alumina shipments (kmt)	10,755	10,652	9,966
alcoa 2019s average realized price per metric ton of alumina	317	324	328
alcoa 2019s average cost per metric ton of alumina*	237	282	295
third-party sales	3,455	3,509	3,326
intersegment sales	1,687	1,941	2,235
total sales	5,142	5,450	5,561
atoi	746	370	259

* includes all production-related costs , including raw materials consumed ; conversion costs , such as labor , materials , and utilities ; depreciation , depletion , and amortization ; and plant administrative expenses . this segment represents a portion of alcoa 2019s upstream operations and consists of the company 2019s worldwide refining system . alumina mines bauxite , from which alumina is produced and then sold directly to external smelter customers , as well as to the primary metals segment (see primary metals below) , or to customers who process it into industrial chemical products . more than half of alumina 2019s production is sold under supply contracts to third parties worldwide , while the remainder is used internally by the primary metals segment . alumina produced by this segment and used internally is transferred to the primary metals segment at prevailing market prices . a portion of this segment 2019s third- party sales are completed through the use of agents , alumina traders , and distributors . generally , the sales of this segment are transacted in u.s . dollars while costs and expenses of this segment are transacted in the local currency of the respective operations , which are the australian dollar , the brazilian real , the u.s . dollar , and the euro . awac is an unincorporated global joint venture between alcoa and alumina limited and consists of a number of affiliated operating entities , which own , or have an interest in , or operate the bauxite mines and alumina refineries within the alumina segment (except for the poc 0327os de caldas refinery in brazil and a portion of the sa 0303o lul 0301s refinery in brazil) . alcoa owns 60% (60 %) and alumina limited owns 40% (40 %) of these individual entities , which are consolidated by the company for financial reporting purposes . as such , the results and analysis presented for the alumina segment are inclusive of alumina limited 2019s 40% (40 %) interest . in december 2014 , awac completed the sale of its ownership stake in jamalco , a bauxite mine and alumina refinery joint venture in jamaica , to noble group ltd . jamalco was 55% (55 %) owned by a subsidiary of awac , and , while owned by awac , 55% (55 %) of both the operating results and assets and liabilities of this joint venture were included in the alumina segment . as it relates to awac 2019s previous 55% (55 %) ownership stake , the refinery (awac 2019s share of the capacity was 779 kmt-per-year) generated sales (third-party and intersegment) of

approximately \$ 200 in 2013 , and the refinery and mine combined , at the time of divestiture , had approximately 500 employees . see restructuring and other charges in results of operations above. .

Humana (HUM)

2004

Document ID: Double_HUM/2004/page_78.pdf

humana inc . notes to consolidated financial statements 2014 (continued) in any spe transactions . the adoption of fin 46 or fin 46-r did not have a material impact on our financial position , results of operations , or cash flows . in december 2004 , the fasb issued statement no . 123r , share-based payment , or statement 123r , which requires companies to expense the fair value of employee stock options and other forms of stock-based compensation . this requirement represents a significant change because fixed-based stock option awards , a predominate form of stock compensation for us , were not recognized as compensation expense under apb 25 . statement 123r requires the cost of the award , as determined on the date of grant at fair value , be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period) . the grant-date fair value of the award will be estimated using option-pricing models . we are required to adopt statement 123r no later than july 1 , 2005 under one of three transition methods , including a prospective , retrospective and combination approach . we previously disclosed on page 67 the effect of expensing stock options under a fair value approach using the black-scholes pricing model for 2004 , 2003 and 2002 . we currently are evaluating all of the provisions of statement 123r and the expected effect on us including , among other items , reviewing compensation strategies related to stock-based awards , selecting an option pricing model and determining the transition method . in march 2004 , the fasb issued eitf issue no . 03-1 , or eitf 03-1 , the meaning of other-than- temporary impairment and its application to certain investments . eitf 03-1 includes new guidance for evaluating and recording impairment losses on certain debt and equity investments when the fair value of the investment security is less than its carrying value . in september 2004 , the fasb delayed the previously scheduled third quarter 2004 effective date until the issuance of additional implementation guidance , expected in 2005 . upon issuance of a final standard , we will evaluate the impact on our consolidated financial position and results of operations . 3 . acquisitions on february 16 , 2005 , we acquired careplus health plans of florida , or careplus , as well as its affiliated 10 medical centers and pharmacy company . careplus provides medicare advantage hmo plans and benefits to medicare eligible members in miami-dade , broward and palm beach counties . this acquisition enhances our medicare market position in south florida . we paid approximately \$ 450 million in cash including estimated transaction costs , subject to a balance sheet settlement process with a nine month claims run-out period . we currently are in the process of allocating the purchase price to the net tangible and intangible assets . on april 1 , 2004 , we acquired ochsner health plan , or ochsner , from the ochsner clinic foundation . ochsner is a louisiana health benefits company offering network-based managed care plans to employer-groups and medicare eligible members . this acquisition enabled us to enter a new market with significant market share which should facilitate new sales opportunities in this and surrounding markets , including houston , texas . we paid \$ 157.1 million in cash , including transaction costs . the fair value of the tangible assets (liabilities) as of the acquisition date are as follows: .

	(in thousands)
-----	-----
cash and cash equivalents	15,270
investment securities	84,527
premiums receivable and other current assets	20,616
property and equipment and other assets	6,847
medical and other expenses payable	-71,063
other current liabilities	-21,604
other liabilities	-82
net tangible assets acquired	34,511

Huntington Ingalls Industries (HII)

2011

Document ID: Double_HII/2011/page_100.pdf

performance of the company 2019s obligations under the senior notes , including any repurchase obligations resulting from a change of control , is unconditionally guaranteed , jointly and severally , on an unsecured basis , by each of hii 2019s existing and future domestic restricted subsidiaries that guarantees debt under the credit facility (the 201csubsidiary guarantors 201d) . the guarantees rank equally with all other unsecured and unsubordinated indebtedness of the guarantors . the subsidiary guarantors are each directly or indirectly 100% (100 %) owned by hii . there are no significant restrictions on the ability of hii or any subsidiary guarantor to obtain funds from their respective subsidiaries by dividend or loan . mississippi economic development revenue bonds 2014as of december 31 , 2011 and 2010 , the company had \$ 83.7 million outstanding from the issuance of industrial revenue bonds issued by the mississippi business finance corporation . these bonds accrue interest at a fixed rate of 7.81% (7.81 %) per annum (payable semi-annually) and mature in 2024 . while repayment of principal and interest is guaranteed by northrop grumman systems corporation , hii has agreed to indemnify northrop grumman systems corporation for any losses related to the guaranty . in accordance with the terms of the bonds , the proceeds have been used to finance the construction , reconstruction , and renovation of the company 2019s interest in certain ship manufacturing and repair facilities , or portions thereof , located in the state of mississippi . gulf opportunity zone industrial development revenue bonds 2014as of december 31 , 2011 and 2010 , the company had \$ 21.6 million outstanding from the issuance of gulf opportunity zone industrial development revenue bonds (201cgo zone irbs 201d) issued by the mississippi business finance corporation . the go zone irbs were initially issued in a principal amount of \$ 200 million , and in november 2010 , in connection with the anticipated spin-off , hii purchased \$ 178 million of the bonds using the proceeds from a \$ 178 million intercompany loan from northrop grumman . see note 20 : related party transactions and former parent company equity . the remaining bonds accrue interest at a fixed rate of 4.55% (4.55 %) per annum (payable semi-annually) , and mature in 2028 . in accordance with the terms of the bonds , the proceeds have been used to finance the construction , reconstruction , and renovation of the company 2019s interest in certain ship manufacturing and repair facilities , or portions thereof , located in the state of mississippi . the estimated fair value of the company 2019s total long-term debt , including current portions , at december 31 , 2011 and 2010 , was \$ 1864 million and \$ 128 million , respectively . the fair value of the total long-term debt was calculated based on recent trades for most of the company 2019s debt instruments or based on interest rates prevailing on debt with substantially similar risks , terms and maturities . the aggregate amounts of principal payments due on long-term debt for each of the next five years and thereafter are : (\$ in millions) .

	\$ 29
-----	-----
2013	50
2014	79
2015	108
2016	288
thereafter	1,305
total long-term debt	1,859

14 . investigations , claims , and litigation the company is involved in legal proceedings before various courts and administrative agencies , and is periodically subject to government examinations , inquiries and investigations . pursuant to fasb accounting standard codification 450 contingencies , the company has accrued for losses associated with investigations , claims and litigation when , and to the extent that , loss amounts related to the investigations , claims and litigation are probable and can be reasonably estimated . the actual losses that might be incurred to resolve such investigations , claims and litigation may be higher or lower than

the amounts accrued . for matters where a material loss is probable or reasonably possible and the amount of loss cannot be reasonably estimated , but the company is able to reasonably estimate a range of possible losses , such estimated range is required to be disclosed in these notes . this estimated range would be based on information currently available to the company and would involve elements of judgment and significant uncertainties . this estimated range of possible loss would not represent the company 2019s maximum possible loss exposure . for matters as to which the company is not able to reasonably estimate a possible loss or range of loss , the company is required to indicate the reasons why it is unable to estimate the possible loss or range of loss . for matters not specifically described in these notes , the company does not believe , based on information currently available to it , that it is reasonably possible that the liabilities , if any , arising from .

were more than offset by higher raw material and energy costs (\$ 312 million) , increased market related downtime (\$ 187 million) and other items (\$ 30 million) . compared with 2003 , higher 2005 earnings in the brazilian papers , u.s . coated papers and u.s . market pulp businesses were offset by lower earnings in the u.s . un- coated papers and the european papers businesses . the printing papers segment took 995000 tons of downtime in 2005 , including 540000 tons of lack-of-order downtime to align production with customer demand . this compared with 525000 tons of downtime in 2004 , of which 65000 tons related to lack-of-orders . printing papers in millions 2005 2004 2003 .

		2005	2004	2003	
	-----	-----	-----	-----	
	sales	7,860	7,670	7,280	
	operating profit	552	581	464	

uncoated papers sales totaled \$ 4.8 billion in 2005 compared with \$ 5.0 billion in 2004 and 2003 . sales price realizations in the united states averaged 4.4% (4.4 %) higher in 2005 than in 2004 , and 4.6% (4.6 %) higher than 2003 . favorable pricing momentum which began in 2004 carried over into the beginning of 2005 . demand , however , began to weaken across all grades as the year progressed , resulting in lower price realizations in the second and third quarters . however , prices stabilized as the year ended . total shipments for the year were 7.2% (7.2 %) lower than in 2004 and 4.2% (4.2 %) lower than in 2003 . to continue matching our productive capacity with customer demand , the business announced the permanent closure of three uncoated freesheet machines and took significant lack-of-order downtime during the period . demand showed some improvement toward the end of the year , bolstered by the introduction our new line of vision innovation paper products (vip technologiستم) , with improved brightness and whiteness . mill operations were favorable compared to last year , and the rebuild of the no . 1 machine at the east- over , south carolina mill was completed as planned in the fourth quarter . however , the favorable impacts of improved mill operations and lower overhead costs were more than offset by record high input costs for energy and wood and higher transportation costs compared to 2004 . the earnings decline in 2005 compared with 2003 was principally due to lower shipments , higher downtime and increased costs for wood , energy and transportation , partially offset by lower overhead costs and favorable mill operations . average sales price realizations for our european operations remained relatively stable during 2005 , but averaged 1% (1 %) lower than in 2004 , and 6% (6 %) below 2003 levels . sales volumes rose slightly , up 1% (1 %) in 2005 compared with 2004 and 5% (5 %) compared to 2003 . earnings were lower than in 2004 , reflecting higher wood and energy costs and a compression of margins due to unfavorable foreign currency exchange movements . earnings were also adversely affected by downtime related to the rebuild of three paper machines during the year . coated papers sales in the united states were \$ 1.6 billion in 2005 , compared with \$ 1.4 billion in 2004 and \$ 1.3 billion in 2003 . the business reported an operating profit in 2005 versus a small operating loss in 2004 . the earnings improvement was driven by higher average sales prices and improved mill operations . price realizations in 2005 averaged 13% (13 %) higher than 2004 . higher input costs for raw materials and energy partially offset the benefits from improved prices and operations . sales volumes were about 1% (1 %) lower in 2005 versus 2004 . market pulp sales from our u.s . and european facilities totaled \$ 757 million in 2005 compared with \$ 661 million and \$ 571 million in 2004 and 2003 , respectively . operating profits in 2005 were up 86% (86 %) from 2004 . an operating loss had been reported in 2003 . higher average prices and sales volumes , lower overhead costs and improved mill operations in 2005 more than offset increases in raw material , energy and chemical costs . u.s . softwood and hardwood pulp prices improved through the 2005 first and second quarters , then declined during the third quarter , but recovered somewhat toward year end . softwood pulp prices ended the year about 2% (2 %)

lower than 2004 , but were 15% (15 %) higher than 2003 , while hardwood pulp prices ended the year about 15% (15 %) higher than 2004 and 10% (10 %) higher than 2003 . u.s . pulp sales volumes were 12% (12 %) higher than in 2004 and 19% (19 %) higher than in 2003 , reflecting increased global demand . euro- pean pulp volumes increased 15% (15 %) and 2% (2 %) compared with 2004 and 2003 , respectively , while average sales prices increased 4% (4 %) and 11% (11 %) compared with 2004 and 2003 , respectively . brazilian paper sales were \$ 684 million in 2005 com- pared with \$ 592 million in 2004 and \$ 540 million in 2003 . sales volumes for uncoated freesheet paper , coated paper and wood chips were down from 2004 , but average price realizations improved for exported un- coated freesheet and coated groundwood paper grades . favorable currency translation , as yearly average real exchange rates versus the u.s . dollar were 17% (17 %) higher in 2005 than in 2004 , positively impacted reported sales in u.s . dollars . average sales prices for domestic un- coated paper declined 4% (4 %) in local currency versus 2004 , while domestic coated paper prices were down 3% (3 %) . operating profits in 2005 were down 9% (9 %) from 2004 , but were up 2% (2 %) from 2003 . earnings in 2005 were neg- atively impacted by a weaker product and geographic sales mix for both uncoated and coated papers , reflecting increased competition and softer demand , particularly in the printing , commercial and editorial market segments . .

Jack Henry & Associates (JKHY)

2008

Document ID: Double_JKHY/2008/page_30.pdf

Liquidity and capital resources we have historically generated positive cash flow from operations and have generally used funds generated from operations and short-term borrowings on our revolving credit facility to meet capital requirements. We expect this trend to continue in the future. The company's cash and cash equivalents decreased to \$ 65,565 at June 30, 2008 from \$ 88,617 at June 30, 2007. The following table summarizes net cash from operating activities in the statement of cash flows: year ended June 30. Cash provided by operations increased \$ 6,754 to \$ 181,001 for the fiscal year ended June 30, 2008 as compared to \$ 174,247 for the fiscal year ended June 30, 2007. This increase is primarily attributable to an increase in expenses that do not have a corresponding cash outflow, such as depreciation and amortization, as a percentage of total net income. Cash used in investing activities for the fiscal year ended June 2008 was \$ 102,148 and includes payments for acquisitions of \$ 48,109, plus \$ 1,215 in contingent consideration paid on prior years' acquisitions. During fiscal 2007, payments for acquisitions totaled \$ 34,006, plus \$ 5,301 paid on earn-outs and other acquisition adjustments. Capital expenditures for fiscal 2008 were \$ 31,105 compared to \$ 34,202 for fiscal 2007. Cash used for software development in fiscal 2008 was \$ 23,736 compared to \$ 20,743 during the prior year. Net cash used in financing activities for the current fiscal year was \$ 101,905 and includes the repurchase of 4,200 shares of our common stock for \$ 100,996, the payment of dividends of \$ 24,683 and \$ 429 net repayment on our revolving credit facilities. Cash used in financing activities was partially offset by proceeds of \$ 20,394 from the exercise of stock options and the sale of common stock and \$ 3,809 excess tax benefits from stock option exercises. During fiscal 2007, net cash used in financing activities included the repurchase of our common stock for \$ 98,413 and the payment of dividends of \$ 21,685. As in the current year, cash used in fiscal 2007 was partially offset by proceeds from the exercise of stock options and the sale of common stock of \$ 29,212, \$ 4,640 excess tax benefits from stock option exercises and \$ 19,388 net borrowings on revolving credit facilities. At June 30, 2008, the company had negative working capital of \$ 114,118; however, the largest component of current liabilities was deferred revenue of \$ 212,375. The cash outlay necessary to provide the services related to these deferred revenues is significantly less than this recorded balance. Therefore, we do not anticipate any liquidity problems to result from this condition. U.S. financial markets and many of the largest U.S. financial institutions have recently been shaken by negative developments in the home mortgage industry and the mortgage markets, and particularly the markets for subprime mortgage-backed securities. While we believe it is too early to predict what effect, if any, these developments may have, we have not experienced any significant issues with our current collection efforts, and we believe that any future impact to our liquidity would be minimized by our access to available lines of credit. 2008 2007 2006.

	Year ended June 30, 2008	2007	2006
net income	104,222	104,681	89,923
non-cash expenses	70,420	56,348	52,788
change in receivables	-2,913	-28,853	30,413
change in deferred revenue	5,100	24,576	10,561
change in other assets and liabilities	4,172	17,495	-14,247
net cash from operating activities	181,001	174,247	169,438

JPMorgan Chase (JPM)

2003

Document ID: Double_JPM/2003/page_100.pdf

notes to consolidated financial statements j.p . morgan chase & co . 98 j.p . morgan chase & co . / 2003 annual report securities financing activities jpmorgan chase enters into resale agreements , repurchase agreements , securities borrowed transactions and securities loaned transactions primarily to finance the firm 2019s inventory positions , acquire securities to cover short positions and settle other securities obligations . the firm also enters into these transactions to accommodate customers 2019 needs . securities purchased under resale agreements (201cresale agreements 201d) and securities sold under repurchase agreements (201crepurchase agreements 201d) are generally treated as collateralized financing transactions and are carried on the consolidated bal- ance sheet at the amounts the securities will be subsequently sold or repurchased , plus accrued interest . where appropriate , resale and repurchase agreements with the same counterparty are reported on a net basis in accordance with fin 41 . jpmorgan chase takes possession of securities purchased under resale agreements . on a daily basis , jpmorgan chase monitors the market value of the underlying collateral received from its counterparties , consisting primarily of u.s . and non-u.s . govern- ment and agency securities , and requests additional collateral from its counterparties when necessary . similar transactions that do not meet the sfas 140 definition of a repurchase agreement are accounted for as 201cbuys 201d and 201csells 201d rather than financing transactions . these transactions are accounted for as a purchase (sale) of the underlying securities with a forward obligation to sell (purchase) the securities . the forward purchase (sale) obligation , a derivative , is recorded on the consolidated balance sheet at its fair value , with changes in fair value recorded in trading revenue . notional amounts of these transactions accounted for as purchases under sfas 140 were \$ 15 billion and \$ 8 billion at december 31 , 2003 and 2002 , respectively . notional amounts of these transactions accounted for as sales under sfas 140 were \$ 8 billion and \$ 13 billion at december 31 , 2003 and 2002 , respectively . based on the short-term duration of these contracts , the unrealized gain or loss is insignificant . securities borrowed and securities lent are recorded at the amount of cash collateral advanced or received . securities bor- rowed consist primarily of government and equity securities . jpmorgan chase monitors the market value of the securities borrowed and lent on a daily basis and calls for additional col- lateral when appropriate . fees received or paid are recorded in interest income or interest expense . .

	2003	2002
-----	-----	-----
securities purchased under resale agreements	62,801	57,645
securities borrowed	41,834	34,143
securities sold under repurchase agreements	105,409	161,394
securities loaned	2,461	1,661

note 10 jpmorgan chase pledges certain financial instruments it owns to collateralize repurchase agreements and other securities financ- ings . pledged securities that can be sold or repledged by the secured party are identified as financial instruments owned (pledged to various parties) on the consolidated balance sheet . at december 31 , 2003 , the firm had received securities as col- lateral that can be repledged , delivered or otherwise used with a fair value of approximately \$ 210 billion . this collateral was gen- erally obtained under resale or securities-borrowing agreements . of these securities , approximately \$ 197 billion was repledged , delivered or otherwise used , generally as collateral under repur- chase agreements , securities-lending agreements or to cover short sales . notes to consolidated financial statements j.p . morgan chase & co . loans are reported at the principal amount outstanding , net of the allowance for loan losses , unearned income and any net deferred loan fees . loans held for sale are carried at the lower of aggregate cost or fair value . loans are classified as 201ctrading 201d for secondary market trading activities where positions are bought and sold to make profits from short-term movements in price . loans held for trading purposes are included in trading

assets and are carried at fair value , with the gains and losses included in trading revenue . interest income is recognized using the interest method , or on a basis approximating a level rate of return over the term of the loan . nonaccrual loans are those on which the accrual of interest is discontinued . loans (other than certain consumer loans discussed below) are placed on nonaccrual status immediately if , in the opinion of management , full payment of principal or interest is in doubt , or when principal or interest is 90 days or more past due and collateral , if any , is insufficient to cover principal and interest . interest accrued but not collected at the date a loan is placed on nonaccrual status is reversed against interest income . in addition , the amortization of net deferred loan fees is suspended . interest income on nonaccrual loans is recognized only to the extent it is received in cash . however , where there is doubt regarding the ultimate collectibility of loan principal , all cash thereafter received is applied to reduce the carrying value of the loan . loans are restored to accrual status only when interest and principal payments are brought current and future payments are reasonably assured . consumer loans are generally charged to the allowance for loan losses upon reaching specified stages of delinquency , in accordance with the federal financial institutions examination council (201cffiiec 201d) policy . for example , credit card loans are charged off at the earlier of 180 days past due or within 60 days from receiving notification of the filing of bankruptcy . residential mortgage products are generally charged off to net realizable value at 180 days past due . other consumer products are generally charged off (to net realizable value if collateralized) at 120 days past due . accrued interest on residential mortgage products , automobile financings and certain other consumer loans are accounted for in accordance with the nonaccrual loan policy note 11 .

Kellogg (K)

2012

Document ID: Double_K/2012/page_44.pdf

we measure cash flow as net cash provided by operating activities reduced by expenditures for property additions . we use this non-gaap financial measure of cash flow to focus management and investors on the amount of cash available for debt repayment , dividend distributions , acquisition opportunities , and share repurchases . our cash flow metric is reconciled to the most comparable gaap measure , as follows: .

	2012	2011	2010
net cash provided by operating activities	1,758	1,595	1,008
additions to properties	-533	-594	-474
cash flow	1,225	1,001	534
year-over-year change	-22.4	-87.5	

year-over-year change 22.4 % (%) 87.5 % (%) year-over-year changes in cash flow (as defined) were driven by improved performance in working capital resulting from the benefit derived from the pringles acquisition , as well as changes in the level of capital expenditures during the three-year period . investing activities our net cash used in investing activities for 2012 amounted to \$ 3245 million , an increase of \$ 2658 million compared with 2011 primarily attributable to the \$ 2668 acquisition of pringles in capital spending in 2012 included investments in our supply chain infrastructure , and to support capacity requirements in certain markets , including pringles . in addition , we continued the investment in our information technology infrastructure related to the reimplementation and upgrade of our sap platform . net cash used in investing activities of \$ 587 million in 2011 increased by \$ 122 million compared with 2010 , reflecting capital projects for our reimplementation and upgrade of our sap platform and investments in our supply chain . cash paid for additions to properties as a percentage of net sales has decreased to 3.8% (3.8 %) in 2012 , from 4.5% (4.5 %) in 2011 , which was an increase from 3.8% (3.8 %) in financing activities in february 2013 , we issued \$ 250 million of two-year floating-rate u.s . dollar notes , and \$ 400 million of ten-year 2.75% (2.75 %) u.s . dollar notes . the proceeds from these notes will be used for general corporate purposes , including , together with cash on hand , repayment of the \$ 750 million aggregate principal amount of our 4.25% (4.25 %) u.s . dollar notes due march 2013 . the floating-rate notes bear interest equal to three-month libor plus 23 basis points , subject to quarterly reset . the notes contain customary covenants that limit the ability of kellogg company and its restricted subsidiaries (as defined) to incur certain liens or enter into certain sale and lease-back transactions , as well as a change of control provision . our net cash provided by financing activities was \$ 1317 for 2012 , compared to net cash used in financing activities of \$ 957 and \$ 439 for 2011 and 2010 , respectively . the increase in cash provided from financing activities in 2012 compared to 2011 and 2010 , was primarily due to the issuance of debt related to the acquisition of pringles . total debt was \$ 7.9 billion at year-end 2012 and \$ 6.0 billion at year-end 2011 . in march 2012 , we entered into interest rate swaps on our \$ 500 million five-year 1.875% (1.875 %) fixed rate u.s . dollar notes due 2016 , \$ 500 million ten-year 4.15% (4.15 %) fixed rate u.s . dollar notes due 2019 and \$ 500 million of our \$ 750 million seven-year 4.45% (4.45 %) fixed rate u.s . dollar notes due 2016 . the interest rate swaps effectively converted these notes from their fixed rates to floating rate obligations through maturity . in may 2012 , we issued \$ 350 million of three-year 1.125% (1.125 %) u.s . dollar notes , \$ 400 million of five-year 1.75% (1.75 %) u.s . dollar notes and \$ 700 million of ten-year 3.125% (3.125 %) u.s . dollar notes , resulting in aggregate net proceeds after debt discount of \$ 1.442 billion . the proceeds of these notes were used for general corporate purposes , including financing a portion of the acquisition of pringles . in may 2012 , we issued cdn . \$ 300 million of two-year 2.10% (2.10 %) fixed rate canadian dollar notes , using the proceeds from these notes for general corporate purposes , which included repayment of intercompany debt . this repayment resulted in cash available to be used for a portion of the acquisition of pringles . in december 2012 , we repaid \$ 750 million five-year 5.125% (5.125 %) u.s . dollar notes at maturity

with commercial paper . in february 2011 , we entered into interest rate swaps on \$ 200 million of our \$ 750 million seven-year 4.45% (4.45 %) fixed rate u.s . dollar notes due 2016 . the interest rate swaps effectively converted this portion of the notes from a fixed rate to a floating rate obligation through maturity . in april 2011 , we repaid \$ 945 million ten-year 6.60% (6.60 %) u.s . dollar notes at maturity with commercial paper . in may 2011 , we issued \$ 400 million of seven-year 3.25% (3.25 %) fixed rate u.s . dollar notes , using the proceeds of \$ 397 million for general corporate purposes and repayment of commercial paper . during 2011 , we entered into interest rate swaps with notional amounts totaling \$ 400 million , which effectively converted these notes from a fixed rate to a floating rate obligation through maturity . in november 2011 , we issued \$ 500 million of five-year 1.875% (1.875 %) fixed rate u . s . dollar notes , using the proceeds of \$ 498 million for general corporate purposes and repayment of commercial paper . during 2012 , we entered into interest rate swaps which effectively converted these notes from a fixed rate to a floating rate obligation through maturity . in april 2010 , our board of directors approved a share repurchase program authorizing us to repurchase shares of our common stock amounting to \$ 2.5 billion during 2010 through 2012 . this three year authorization replaced previous share buyback programs which had authorized stock repurchases of up to \$ 1.1 billion for 2010 and \$ 650 million for 2009 . under this program , we repurchased approximately 1 million , 15 million and 21 million shares of common stock for \$ 63 million , \$ 793 million and \$ 1.1 billion during 2012 , 2011 and 2010 , respectively . in december 2012 , our board of directors approved a share repurchase program authorizing us to repurchase shares of our common stock amounting to \$ 300 million during 2013 . we paid quarterly dividends to shareholders totaling \$ 1.74 per share in 2012 , \$ 1.67 per share in 2011 and \$ 1.56 per share in 2010 . total cash paid for dividends increased by 3.0% (3.0 %) in 2012 and 3.4% (3.4 %) in 2011 . in march 2011 , we entered into an unsecured four- year credit agreement which allows us to borrow , on a revolving credit basis , up to \$ 2.0 billion . our long-term debt agreements contain customary covenants that limit kellogg company and some of its subsidiaries from incurring certain liens or from entering into certain sale and lease-back transactions . some agreements also contain change in control provisions . however , they do not contain acceleration of maturity clauses that are dependent on credit ratings . a change in our credit ratings could limit our access to the u.s . short-term debt market and/or increase the cost of refinancing long-term debt in the future . however , even under these circumstances , we would continue to have access to our four-year credit agreement , which expires in march 2015 . this source of liquidity is unused and available on an unsecured basis , although we do not currently plan to use it . capital and credit markets , including commercial paper markets , continued to experience instability and disruption as the u.s . and global economies underwent a period of extreme uncertainty . throughout this period of uncertainty , we continued to have access to the u.s. , european , and canadian commercial paper markets . our commercial paper and term debt credit ratings were not affected by the changes in the credit environment . we monitor the financial strength of our third-party financial institutions , including those that hold our cash and cash equivalents as well as those who serve as counterparties to our credit facilities , our derivative financial instruments , and other arrangements . we are in compliance with all covenants as of december 29 , 2012 . we continue to believe that we will be able to meet our interest and principal repayment obligations and maintain our debt covenants for the foreseeable future , while still meeting our operational needs , including the pursuit of selected bolt-on acquisitions . this will be accomplished through our strong cash flow , our short- term borrowings , and our maintenance of credit facilities on a global basis . .

Kimco Realty (KIM)

2006

Document ID: Double_KIM/2006/page_67.pdf

kimco realty corporation and subsidiaries job title kimco realty ar revision 6 serial date / time tuesday , april 03 , 2007 /10:32 pm job number 142704 type current page no . 65 operator pm2 <12345678> at december 31 , 2006 and 2005 , the company 2019s net invest- ment in the leveraged lease consisted of the following (in mil- lions) : .

	2006	2005
-----	-----	-----
remaining net rentals	62.3	68.9
estimated unguaranteed residual value	40.5	43.8
non-recourse mortgage debt	-48.4	-52.8
unearned and deferred income	-50.7	-55.9
net investment in leveraged lease	3.7	4

9 . mortgages and other financing receivables : during january 2006 , the company provided approximately \$ 16.0 million as its share of a \$ 50.0 million junior participation in a \$ 700.0 million first mortgage loan , in connection with a private investment firm 2019s acquisition of a retailer . this loan participation bore interest at libor plus 7.75% (7.75 %) per annum and had a two-year term with a one-year extension option and was collateralized by certain real estate interests of the retailer . during june 2006 , the borrower elected to pre-pay the outstanding loan balance of approximately \$ 16.0 million in full satisfaction of this loan . additionally , during january 2006 , the company provided approximately \$ 5.2 million as its share of an \$ 11.5 million term loan to a real estate developer for the acquisition of a 59 acre land parcel located in san antonio , tx . this loan is interest only at a fixed rate of 11.0% (11.0 %) for a term of two years payable monthly and collateralized by a first mortgage on the subject property . as of december 31 , 2006 , the outstanding balance on this loan was approximately \$ 5.2 million . during february 2006 , the company committed to provide a one year \$ 17.2 million credit facility at a fixed rate of 8.0% (8.0 %) for a term of nine months and 9.0% (9.0 %) for the remaining term to a real estate investor for the recapitalization of a discount and entertain- ment mall that it currently owns . during 2006 , this facility was fully paid and was terminated . during april 2006 , the company provided two separate mortgages aggregating \$ 14.5 million on a property owned by a real estate investor . proceeds were used to payoff the existing first mortgage , buyout the existing partner and for redevelopment of the property . the mortgages bear interest at 8.0% (8.0 %) per annum and mature in 2008 and 2013 . these mortgages are collateralized by the subject property . as of december 31 , 2006 , the aggregate outstanding balance on these mortgages was approximately \$ 15.0 million , including \$ 0.5 million of accrued interest . during may 2006 , the company provided a cad \$ 23.5 million collateralized credit facility at a fixed rate of 8.5% (8.5 %) per annum for a term of two years to a real estate company for the execution of its property acquisitions program . the credit facility is guaranteed by the real estate company . the company was issued 9811 units , valued at approximately usd \$ 0.1 million , and warrants to purchase up to 0.1 million shares of the real estate company as a loan origination fee . during august 2006 , the company increased the credit facility to cad \$ 45.0 million and received an additional 9811 units , valued at approximately usd \$ 0.1 million , and warrants to purchase up to 0.1 million shares of the real estate company . as of december 31 , 2006 , the outstand- ing balance on this credit facility was approximately cad \$ 3.6 million (approximately usd \$ 3.1 million) . during september 2005 , a newly formed joint venture , in which the company had an 80% (80 %) interest , acquired a 90% (90 %) interest in a \$ 48.4 million mortgage receivable for a purchase price of approximately \$ 34.2 million . this loan bore interest at a rate of three-month libor plus 2.75% (2.75 %) per annum and was scheduled to mature on january 12 , 2010 . a 626-room hotel located in lake buena vista , fl collateralized the loan . the company had determined that this joint venture entity was a vie and had further determined that the company was the primary benefi- cary of this vie and had therefore consolidated it for financial reporting purposes . during march 2006 ,

the joint venture acquired the remaining 10% (10 %) of this mortgage receivable for a purchase price of approximately \$ 3.8 million . during june 2006 , the joint venture accepted a pre-payment of approximately \$ 45.2 million from the borrower as full satisfaction of this loan . during august 2006 , the company provided \$ 8.8 million as its share of a \$ 13.2 million 12-month term loan to a retailer for general corporate purposes . this loan bears interest at a fixed rate of 12.50% (12.50 %) with interest payable monthly and a balloon payment for the principal balance at maturity . the loan is collateralized by the underlying real estate of the retailer . additionally , the company funded \$ 13.3 million as its share of a \$ 20.0 million revolving debtor-in-possession facility to this retailer . the facility bears interest at libor plus 3.00% (3.00 %) and has an unused line fee of 0.375% (0.375 %) . this credit facility is collateralized by a first priority lien on all the retailer 2019s assets . as of december 31 , 2006 , the compa- ny 2019s share of the outstanding balance on this loan and credit facility was approximately \$ 7.6 million and \$ 4.9 million , respec- tively . during september 2006 , the company provided a mxp 57.3 million (approximately usd \$ 5.3 million) loan to an owner of an operating property in mexico . the loan , which is collateralized by the property , bears interest at 12.0% (12.0 %) per annum and matures in 2016 . the company is entitled to a participation feature of 25% (25 %) of annual cash flows after debt service and 20% (20 %) of the gain on sale of the property . as of december 31 , 2006 , the outstand- ing balance on this loan was approximately mxp 57.8 million (approximately usd \$ 5.3 million) . during november 2006 , the company committed to provide a mxp 124.8 million (approximately usd \$ 11.5 million) loan to an owner of a land parcel in acapulco , mexico . the loan , which is collateralized with an operating property owned by the bor- rower , bears interest at 10% (10 %) per annum and matures in 2016 . the company is entitled to a participation feature of 20% (20 %) of excess cash flows and gains on sale of the property . as of decem- ber 31 , 2006 , the outstanding balance on this loan was mxp 12.8 million (approximately usd \$ 1.2 million) . .

_____ (a) as a result of the implementation of asu 2009-17 , effective january 1 , 2010 , we (i) include the transactions and balances of our business trust , k n capital trust i and k n capital trust iii , in our consolidated financial statements and (ii) no longer include our junior subordinated deferrable interest debentures issued to the capital trusts (see note 18 201crecent accounting pronouncements 201d) . (b) kmp issued its \$ 500 million in principal amount of 9.00% (9.00 %) senior notes due february 1 , 2019 in december 2008 . each holder of the notes has the right to require kmp to repurchase all or a portion of the notes owned by such holder on february 1 , 2012 at a purchase price equal to 100% (100 %) of the principal amount of the notes tendered by the holder plus accrued and unpaid interest to , but excluding , the repurchase date . on and after february 1 , 2012 , interest will cease to accrue on the notes tendered for repayment . a holder 2019s exercise of the repurchase option is irrevocable . kinder morgan kansas , inc . the 2028 and 2098 debentures and the 2012 and 2015 senior notes are redeemable in whole or in part , at kinder morgan kansas , inc . 2019s option at any time , at redemption prices defined in the associated prospectus supplements . the 2027 debentures are redeemable in whole or in part , at kinder morgan kansas , inc . 2019s option after november 1 , 2004 at redemption prices defined in the associated prospectus supplements . on september 2 , 2010 , kinder morgan kansas , inc . paid the remaining \$ 1.1 million principal balance outstanding on kinder morgan kansas , inc . 2019s 6.50% (6.50 %) series debentures , due 2013 . kinder morgan finance company , llc on december 20 , 2010 , kinder morgan finance company , llc , a wholly owned subsidiary of kinder morgan kansas , inc . , completed a public offering of senior notes . it issued a total of \$ 750 million in principal amount of 6.00% (6.00 %) senior notes due january 15 , 2018 . net proceeds received from the issuance of the notes , after underwriting discounts and commissions , were \$ 744.2 million , which were used to retire the principal amount of the 5.35% (5.35 %) senior notes that matured on january 5 , 2011 . the 2011 , 2016 , 2018 and 2036 senior notes issued by kinder morgan finance company , llc are redeemable in whole or in part , at kinder morgan kansas , inc . 2019s option at any time , at redemption prices defined in the associated prospectus supplements . each series of these notes is fully and unconditionally guaranteed by kinder morgan kansas , inc . on a senior unsecured basis as to principal , interest and any additional amounts required to be paid as a result of any withholding or deduction for canadian taxes . capital trust securities kinder morgan kansas , inc . 2019s business trusts , k n capital trust i and k n capital trust iii , are obligated for \$ 12.7 million of 8.56% (8.56 %) capital trust securities maturing on april 15 , 2027 and \$ 14.4 million of 7.63% (7.63 %) capital trust securities maturing on april 15 , 2028 , respectively , which it guarantees . the 2028 securities are redeemable in whole or in part , at kinder morgan kansas , inc . 2019s option at any time , at redemption prices as defined in the associated prospectus . the 2027 securities are redeemable in whole or in part at kinder morgan kansas , inc . 2019s option and at any time in certain limited circumstances upon the occurrence of certain events and at prices , all defined in the associated prospectus supplements . upon redemption by kinder morgan kansas , inc . or at maturity of the junior subordinated deferrable interest debentures , it must use the proceeds to make redemptions of the capital trust securities on a pro rata basis .

Kraft Heinz (KHC)

2016

Document ID: Double_KHC/2016/page_23.pdf

item 1b . unresolved staff comments . item 2 . properties . our corporate co-headquarters are located in pittsburgh , pennsylvania and chicago , illinois . our co-headquarters are leased and house our executive offices , certain u.s . business units , and our administrative , finance , and human resource functions . we maintain additional owned and leased offices throughout the regions in which we operate . we manufacture our products in our network of manufacturing and processing facilities located throughout the world . as of december 31 , 2016 , we operated 87 manufacturing and processing facilities . we own 83 and lease four of these facilities . our manufacturing and processing facilities count by segment as of december 31 , 2016 was : .

	owned	leased
-----	-----	-----
united states	43	2
canada	3	2,014
europa	11	2,014
rest of world	26	2

we maintain all of our manufacturing and processing facilities in good condition and believe they are suitable and are adequate for our present needs . we also enter into co-manufacturing arrangements with third parties if we determine it is advantageous to outsource the production of any of our products . in the fourth quarter of 2016 , we reorganized our segment structure to move our russia business from the rest of world segment to the europe segment . we have reflected this change in the table above . see note 18 , segment reporting , to the consolidated financial statements for additional information . several of our current manufacturing and processing facilities are scheduled to be closed within the next year . see note 3 , integration and restructuring expenses , to the consolidated financial statements for additional information . item 3 . legal proceedings . we are routinely involved in legal proceedings , claims , and governmental inquiries , inspections or investigations (201clegal matters 201d) arising in the ordinary course of our business . on april 1 , 2015 , the commodity futures trading commission (201ccftc 201d) filed a formal complaint against mondel 0113z international (formerly known as kraft foods inc.) and kraft in the u.s . district court for the northern district of illinois , eastern division , related to activities involving the trading of december 2011 wheat futures contracts . the complaint alleges that mondel 0113z international and kraft (1) manipulated or attempted to manipulate the wheat markets during the fall of 2011 , (2) violated position limit levels for wheat futures , and (3) engaged in non-competitive trades by trading both sides of exchange-for-physical chicago board of trade wheat contracts . as previously disclosed by kraft , these activities arose prior to the october 1 , 2012 spin-off of kraft by mondel 0113z international to its shareholders and involve the business now owned and operated by mondel 0113z international or its affiliates . the separation and distribution agreement between kraft and mondel 0113z international , dated as of september 27 , 2012 , governs the allocation of liabilities between mondel 0113z international and kraft and , accordingly , mondel 0113z international will predominantly bear the costs of this matter and any monetary penalties or other payments that the cftc may impose . we do not expect this matter to have a material adverse effect on our financial condition , results of operations , or business . while we cannot predict with certainty the results of legal matters in which we are currently involved or may in the future be involved , we do not expect that the ultimate costs to resolve any of the legal matters that are currently pending will have a material adverse effect on our financial condition or results of operations . item 4 . mine safety disclosures . not applicable. .

LKQ Corporation (LKQ)

2007

Document ID: Double_LKQ/2007/page_76.pdf

lkq corporation and subsidiaries notes to consolidated financial statements (continued) note 5 . long-term obligations (continued) as part of the consideration for business acquisitions completed during 2007 , 2006 and 2005 , we issued promissory notes totaling approximately \$ 1.7 million , \$ 7.2 million and \$ 6.4 million , respectively . the notes bear interest at annual rates of 3.0% (3.0 %) to 6.0% (6.0 %) , and interest is payable at maturity or in monthly installments . we also assumed certain liabilities in connection with a business acquisition during the second quarter of 2005 , including a promissory note with a remaining principle balance of approximately \$ 0.2 million . the annual interest rate on the note , which was retired during 2006 , was note 6 . commitments and contingencies operating leases we are obligated under noncancelable operating leases for corporate office space , warehouse and distribution facilities , trucks and certain equipment . the future minimum lease commitments under these leases at december 31 , 2007 are as follows (in thousands) : years ending december 31: .

	\$ 42335
-----	-----
2009	33,249
2010	25,149
2011	17,425
2012	11,750
thereafter	28,581
future minimum lease payments	158,489

rental expense for operating leases was approximately \$ 27.4 million , \$ 18.6 million and \$ 12.2 million during the years ended december 31 , 2007 , 2006 and 2005 , respectively . we guaranty the residual values of the majority of our truck and equipment operating leases . the residual values decline over the lease terms to a defined percentage of original cost . in the event the lessor does not realize the residual value when a piece of equipment is sold , we would be responsible for a portion of the shortfall . similarly , if the lessor realizes more than the residual value when a piece of equipment is sold , we would be paid the amount realized over the residual value . had we terminated all of our operating leases subject to these guaranties at december 31 , 2007 , the guarantied residual value would have totaled approximately \$ 24.0 million . litigation and related contingencies on december 2 , 2005 , ford global technologies , llc (2018 2018ford 2019 2019) filed a complaint with the united states international trade commission (2018 2018usitc 2019 2019) against keystone and five other named respondents , including four taiwan-based manufacturers . on december 12 , 2005 , ford filed an amended complaint . both the complaint and the amended complaint contended that keystone and the other respondents infringed 14 design patents that ford alleges cover eight parts on the 2004-2005 .

Lockheed Martin (LMT)

2002

Document ID: Double_LMT/2002/page_33.pdf

lockheed martin corporation management 2019s discussion and analysis of financial condition and results of operations december 31 , 2002 space systems space systems 2019 operating results included the following : (in millions) 2002 2001 2000 .

	2002	2001	2000
-----	-----	-----	-----
net sales	7,384	6,836	7,339
operating profit	443	360	345

net sales for space systems increased by 8% (8 %) in 2002 compared to 2001 . the increase in sales for 2002 resulted from higher volume in government space of \$ 370 million and commercial space of \$ 180 million . in government space , increases of \$ 470 million in government satellite programs and \$ 130 million in ground systems activities more than offset volume declines of \$ 175 million on government launch vehicles and \$ 55 million on strategic missile programs . the increase in commercial space sales is primarily attributable to an increase in launch vehicle activities , with nine commercial launches during 2002 compared to six in 2001 . net sales for the segment decreased by 7% (7 %) in 2001 compared to 2000 . the decrease in sales for 2001 resulted from volume declines in commercial space of \$ 560 million , which more than offset increases in government space of \$ 60 million . in commercial space , sales declined due to volume reductions of \$ 480 million in commercial launch vehicle activities and \$ 80 million in satellite programs . there were six launches in 2001 compared to 14 launches in 2000 . the increase in government space resulted from a combined increase of \$ 230 million related to higher volume on government satellite programs and ground systems activities . these increases were partially offset by a \$ 110 million decrease related to volume declines in government launch vehicle activity , primarily due to program maturities , and by \$ 50 million due to the absence in 2001 of favorable adjustments recorded on the titan iv program in 2000 . operating profit for the segment increased 23% (23 %) in 2002 as compared to 2001 , mainly driven by the commercial space business . reduced losses in commercial space during 2002 resulted in increased operating profit of \$ 90 million when compared to 2001 . commercial satellite manufacturing losses declined \$ 100 million in 2002 as operating performance improved and satellite deliveries increased . in the first quarter of 2001 , a \$ 40 million loss provision was recorded on certain commercial satellite manufacturing contracts . due to the industry-wide oversupply and deterioration of pricing in the commercial launch market , financial results on commercial launch vehicles continue to be challenging . during 2002 , this trend led to a decline in operating profit of \$ 10 million on commercial launch vehicles when compared to 2001 . this decrease was primarily due to lower profitability of \$ 55 million on the three additional launches in the current year , additional charges of \$ 60 million (net of a favorable contract adjustment of \$ 20 million) for market and pricing pressures and included the adverse effect of a \$ 35 million adjustment for commercial launch vehicle contract settlement costs . the 2001 results also included charges for market and pricing pressures , which reduced that year 2019s operating profit by \$ 145 million . the \$ 10 million decrease in government space 2019s operating profit for the year is primarily due to the reduced volume on government launch vehicles and strategic missile programs , which combined to decrease operating profit by \$ 80 million , partially offset by increases of \$ 40 million in government satellite programs and \$ 30 million in ground systems activities . operating profit for the segment increased by 4% (4 %) in 2001 compared to 2000 . operating profit increased in 2001 due to a \$ 35 million increase in government space partially offset by higher year-over-year losses of \$ 20 million in commercial space . in government space , operating profit increased due to the impact of higher volume and improved performance in ground systems and government satellite programs . the year-to-year comparison of operating profit was not affected by the \$ 50 million favorable titan iv adjustment recorded in 2000 discussed above , due to a \$ 55 million charge related to a more conservative

assessment of government launch vehicle programs that was recorded in the fourth quarter of 2000 . in commercial space , decreased operating profit of \$ 15 million on launch vehicles more than offset lower losses on satellite manufacturing activities . the commercial launch vehicle operating results included \$ 60 million in higher charges for market and pricing pressures when compared to 2000 . these negative adjustments were partially offset by \$ 50 million of favorable contract adjustments on certain launch vehicle contracts . commercial satellite manufacturing losses decreased slightly from 2000 and included the adverse impact of a \$ 40 million loss provision recorded in the first quarter of 2001 for certain commercial satellite contracts related to schedule and technical issues. .

2007

Document ID: Double_L/2007/page_213.pdf

notes to consolidated financial statements note 11 . income taxes 2013 (continued) the federal income tax return for 2006 is subject to examination by the irs . in addition for 2007 and 2008 , the irs has invited the company to participate in the compliance assurance process (201ccap 201d) , which is a voluntary program for a limited number of large corporations . under cap , the irs conducts a real-time audit and works contemporaneously with the company to resolve any issues prior to the filing of the tax return . the company has agreed to participate . the company believes this approach should reduce tax-related uncertainties , if any . the company and/or its subsidiaries also file income tax returns in various state , local and foreign jurisdictions . these returns , with few exceptions , are no longer subject to examination by the various taxing authorities before as discussed in note 1 , the company adopted the provisions of fin no . 48 , 201caccounting for uncertainty in income taxes , 201d on january 1 , 2007 . as a result of the implementation of fin no . 48 , the company recognized a decrease to beginning retained earnings on january 1 , 2007 of \$ 37 million . the total amount of unrecognized tax benefits as of the date of adoption was approximately \$ 70 million . included in the balance at january 1 , 2007 , were \$ 51 million of tax positions that if recognized would affect the effective tax rate . a reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows : (in millions) .

	\$ 70
-----	----
additions based on tax positions related to the current year	12
additions for tax positions of prior years	3
reductions for tax positions related to the current year	-23
settlements	-6
expiration of statute of limitations	-3
balance december 31 2007	53

the company anticipates that it is reasonably possible that payments of approximately \$ 2 million will be made primarily due to the conclusion of state income tax examinations within the next 12 months . additionally , certain state and foreign income tax returns will no longer be subject to examination and as a result , there is a reasonable possibility that the amount of unrecognized tax benefits will decrease by \$ 7 million . at december 31 , 2007 , there were \$ 42 million of tax benefits that if recognized would affect the effective rate . the company recognizes interest accrued related to : (1) unrecognized tax benefits in interest expense and (2) tax refund claims in other revenues on the consolidated statements of income . the company recognizes penalties in income tax expense (benefit) on the consolidated statements of income . during 2007 , the company recorded charges of approximately \$ 4 million for interest expense and \$ 2 million for penalties . provision has been made for the expected u.s . federal income tax liabilities applicable to undistributed earnings of subsidiaries , except for certain subsidiaries for which the company intends to invest the undistributed earnings indefinitely , or recover such undistributed earnings tax-free . at december 31 , 2007 , the company has not provided deferred taxes of \$ 126 million , if sold through a taxable sale , on \$ 361 million of undistributed earnings related to a domestic affiliate . the determination of the amount of the unrecognized deferred tax liability related to the undistributed earnings of foreign subsidiaries is not practicable . in connection with a non-recurring distribution of \$ 850 million to diamond offshore from a foreign subsidiary , a portion of which consisted of earnings of the subsidiary that had not previously been subjected to u.s . federal income tax , diamond offshore recognized \$ 59 million of u.s . federal income tax expense as a result of the distribution . it remains diamond offshore 2019s intention to indefinitely reinvest future earnings of the subsidiary to finance foreign activities . total income tax expense for the years ended december 31 , 2007 , 2006 and 2005 , was different than the amounts of \$ 1601 million , \$ 1557 million and \$ 639 million , computed by applying the statutory u.s . federal income tax rate of

35% (35 %) to income before income taxes and minority interest for each of the years. .

Marathon Oil (MRO)

2003

Document ID: *Single_MRO/2003/page_65.pdf-4*

expenditures and acquisitions of leased properties are funded by the original contributor of the assets , but no change in ownership interest may result from these contributions . an excess of ashland funded improvements over marathon funded improvements results in a net gain and an excess of marathon funded improvements over ashland funded improvements results in a net loss . cost of revenues increased by \$ 8.718 billion in 2003 from 2002 and \$ 367 million in 2002 from 2001 . the increases in the oerb segment were primarily a result of higher natural gas and liquid hydrocarbon costs . the increases in the rm&t segment primarily reflected higher acquisition costs for crude oil , refined products , refinery charge and blend feedstocks and increased manufacturing expenses . selling , general and administrative expenses increased by \$ 107 million in 2003 from 2002 and \$ 125 million in 2002 from 2001 . the increase in 2003 was primarily a result of increased employee benefits (caused by increased pension expense resulting from changes in actuarial assumptions and a decrease in realized returns on plan assets) and other employee related costs . also , marathon changed assumptions in the health care cost trend rate from 7.5% (7.5 %) to 10% (10 %) , resulting in higher retiree health care costs . additionally , during 2003 , marathon recorded a charge of \$ 24 million related to organizational and business process changes . the increase in 2002 primarily reflected increased employee related costs . inventory market valuation reserve is established to reduce the cost basis of inventories to current market value . the 2002 results of operations include credits to income from operations of \$ 71 million , reversing the imv reserve at december 31 , 2001 . for additional information on this adjustment , see 201cmanagement 2019s discussion and analysis of critical accounting estimates 2013 net realizable value of inventories 201d on page 31 . net interest and other financial costs decreased by \$ 82 million in 2003 from 2002 , following an increase of \$ 96 million in 2002 from 2001 . the decrease in 2003 is primarily due to an increase in capitalized interest related to increased long-term construction projects , the favorable effect of interest rate swaps , the favorable effect of interest on tax deficiencies and increased interest income on investments . the increase in 2002 was primarily due to higher average debt levels resulting from acquisitions and the separation . additionally , included in net interest and other financing costs are foreign currency gains of \$ 13 million and \$ 8 million for 2003 and 2002 and losses of \$ 5 million for 2001 . loss from early extinguishment of debt in 2002 was attributable to the retirement of \$ 337 million aggregate principal amount of debt , resulting in a loss of \$ 53 million . as a result of the adoption of statement of financial accounting standards no . 145 201crescission of fasb statements no . 4 , 44 , and 64 , amendment of fasb statement no . 13 , and technical corrections 201d (201csfas no . 145 201d) , the loss from early extinguishment of debt that was previously reported as an extraordinary item (net of taxes of \$ 20 million) has been reclassified into income before income taxes . the adoption of sfas no . 145 had no impact on net income for 2002 . minority interest in income of map , which represents ashland 2019s 38 percent ownership interest , increased by \$ 129 million in 2003 from 2002 , following a decrease of \$ 531 million in 2002 from 2001 . map income was higher in 2003 compared to 2002 as discussed below in the rm&t segment . map income was significantly lower in 2002 compared to 2001 as discussed below in the rm&t segment . provision for income taxes increased by \$ 215 million in 2003 from 2002 , following a decrease of \$ 458 million in 2002 from 2001 , primarily due to \$ 720 million increase and \$ 1.356 billion decrease in income before income taxes . the effective tax rate for 2003 was 36.6% (36.6 %) compared to 42.1% (42.1 %) and 37.1% (37.1 %) for 2002 and 2001 . the higher rate in 2002 was due to the united kingdom enactment of a supplementary 10 percent tax on profits from the north sea oil and gas production , retroactively effective to april 17 , 2002 . in 2002 , marathon recognized a one-time noncash deferred tax adjustment of \$ 61 million as a result of the rate increase . the following is an analysis of the effective tax rate for the periods presented: .

	2003	2002	2001
-----	-----	-----	-----
statutory tax rate	-35	-35	-35
effects of foreign operations (a)	-0.4	5.6	-0.7
state and local income taxes after federal income tax effects	2.2	3.9	3
other federal tax effects	-0.2	-2.4	-0.2
effective tax rate	-36.6	-42.1	-37.1

(a) the deferred tax effect related to the enactment of a supplemental tax in the u.k . increased the effective tax rate 7.0 percent in 2002. .

Marriott International (MAR)

2005

Document ID: Double_MAR/2005/page_52.pdf

fair value of financial instruments we believe that the fair values of current assets and current liabilities approximate their reported carrying amounts . the fair values of non-current financial assets , liabilities and derivatives are shown in the following table .

	2005 carrying amount (1)	2005 fair value	2005 carrying amount (2)	fair value
notes and other long-term assets	1,374	1,412	1,702	1,770
long-term debt and other long-term liabilities	1,636	1,685	848	875
derivative instruments	6	6	2,014	2,014

we value notes and other receivables based on the expected future cash flows discounted at risk-adjusted rates . we determine valuations for long-term debt and other long-term liabilities based on quoted market prices or expected future payments discounted at risk-adjusted rates . derivative instruments during 2003 , we entered into an interest rate swap agreement under which we receive a floating rate of interest and pay a fixed rate of interest . the swap modifies our interest rate exposure by effectively converting a note receivable with a fixed rate to a floating rate . the aggregate notional amount of the swap is \$ 92 million and it matures in 2010 . the swap is classified as a fair value hedge under fas no . 133 , 201caccounting for derivative instruments and hedging activities 201d (201cfas no . 133 201d) , and the change in the fair value of the swap , as well as the change in the fair value of the underlying note receivable , is recognized in interest income . the fair value of the swap was a \$ 1 million asset at year-end 2005 , and a \$ 3 million liability at year-end 2004 . the hedge is highly effective , and therefore , no net gain or loss was reported during 2005 , 2004 , and 2003 . during 2005 , we entered into two interest rate swap agreements to manage the volatility of the u.s . treasury component of the interest rate risk associated with the forecasted issuance of our series f senior notes and the exchange of our series c and e senior notes for new series g senior notes . both swaps were designated as cash flow hedges under fas no . 133 and were terminated upon pricing of the notes . both swaps were highly effective in offsetting fluctuations in the u.s . treasury component . thus , there was no net gain or loss reported in earnings during 2005 . the total amount for these swaps was recorded in other comprehensive income and was a net loss of \$ 2 million during 2005 , which will be amortized to interest expense using the interest method over the life of the notes . at year-end 2005 , we had six outstanding interest rate swap agreements to manage interest rate risk associated with the residual interests we retain in conjunction with our timeshare note sales . historically , we were required by purchasers and/or rating agencies to utilize interest rate swaps to protect the excess spread within our sold note pools . the aggregate notional amount of the swaps is \$ 380 million , and they expire through 2022 . these swaps are not accounted for as hedges under fas no . 133 . the fair value of the swaps is a net asset of \$ 5 million at year-end 2005 , and a net asset of approximately \$ 3 million at year-end 2004 . we recorded a \$ 2 million net gain during 2005 and 2004 , and a \$ 3 million net gain during 2003 . during 2005 , 2004 , and 2003 , we entered into interest rate swaps to manage interest rate risk associated with forecasted timeshare note sales . during 2005 , one swap was designated as a cash flow hedge under fas no . 133 and was highly effective in offsetting interest rate fluctuations . the amount of the ineffectiveness is immaterial . the second swap entered into in 2005 did not qualify for hedge accounting . the non-qualifying swaps resulted in a loss of \$ 3 million during 2005 , a gain of \$ 2 million during 2004 and a loss of \$ 4 million during 2003 . these amounts are included in the gains from the sales of timeshare notes receivable . during 2005 , 2004 , and 2003 , we entered into forward foreign exchange contracts to manage the foreign currency exposure related to certain monetary assets . the aggregate dollar equivalent of the notional amount of the contracts is \$ 544 million at year-end 2005 . the forward exchange contracts do not qualify as hedges in accordance with fas no . 133 . the fair value of the forward contracts is a liability of \$ 2 million at year-end 2005 and zero at year-end 2004 . we recorded a \$ 26 million gain during 2005 and a \$ 3 million and \$ 2 million net loss during 2004 and 2003 ,

respectively , relating to these forward foreign exchange contracts . the net gains and losses for all years were offset by income and losses recorded from translating the related monetary assets denominated in foreign currencies into u.s . dollars . during 2005 , 2004 , and 2003 , we entered into foreign exchange option and forward contracts to hedge the potential volatility of earnings and cash flows associated with variations in foreign exchange rates . the aggregate dollar equivalent of the notional amounts of the contracts is \$ 27 million at year-end 2005 . these contracts have terms of less than one year and are classified as cash flow hedges . changes in their fair values are recorded as a component of other comprehensive income . the fair value of the option contracts is approximately zero at year-end 2005 and 2004 . during 2004 , it was determined that certain derivatives were no longer effective in offsetting the hedged item . thus , cash flow hedge accounting treatment was discontinued and the ineffective contracts resulted in a loss of \$ 1 million , which was reported in earnings for 2004 . the remaining hedges were highly effective and there was no net gain or loss reported in earnings for 2005 , 2004 , and 2003 . as of year-end 2005 , there were no deferred gains or losses on existing contracts accumulated in other comprehensive income that we expect to reclassify into earnings over the next year . during 2005 , we entered into forward foreign exchange contracts to manage currency exchange rate volatility associated with certain investments in foreign operations . one contract was designated as a hedge in the net investment of a foreign operation under fas no . 133 . the hedge was highly effective and resulted in a \$ 1 million net loss in the cumulative translation adjustment at year-end 2005 . certain contracts did not qualify as hedges under fas no . 133 and resulted in a gain of \$ 3 million for 2005 . the contracts offset the losses associated with translation adjustments for various investments in foreign operations . the contracts have an aggregate dollar equivalent of the notional amounts of \$ 229 million and a fair value of approximately zero at year-end 2005 . contingencies

we issue guarantees to certain lenders and hotel owners primarily to obtain long-term management contracts . the guarantees generally have a stated maximum amount of funding and a term of five years or less . the terms of guarantees to lenders generally require us to fund if cash flows from hotel operations are inadequate to cover annual debt service or to repay the loan at the end of the term . the terms of the guarantees to hotel owners generally require us to fund if the hotels do not attain specified levels of 50 | m a r r i o t t i n t e r n a t i o n a l , i n c . 2 0 0 5 .

in july 2007 , our board of directors authorized the purchase of up to 50 million shares of our common stock in open-market transactions or otherwise . at december 31 , 2010 , we had remaining authorization to repurchase up to 27 million shares . during 2010 , we repurchased and retired three million shares of our common stock , for cash aggregating \$ 45 million to offset the dilutive impact of the 2010 grant of three million shares of long-term stock awards . we did not purchase any shares during the three months ended december 31 , 2010. .

Mastercard (MA)

2008

Document ID: Double_MA/2008/page_116.pdf

mastercard incorporated notes to consolidated financial statements 2014 (continued) (in thousands , except percent and per share data) the company does not make any contributions to its postretirement plan other than funding benefits payments . the following table summarizes expected net benefit payments from the company 2019s general assets through 2018 : benefit payments expected subsidy receipts benefit payments .

	benefit payments	expected subsidy receipts	net benefit payments
-----	-----	-----	-----
2009	2,641	77	2,564
2010	3,139	91	3,048
2011	3,561	115	3,446
2012	3,994	140	3,854
2013	4,357	169	4,188
2014 2013 2018	25,807	1,269	24,538

the company provides limited postemployment benefits to eligible former u.s . employees , primarily severance under a formal severance plan (the 201cseverance plan 201d) . the company accounts for severance expense in accordance with sfas no . 112 , 201cemployers 2019 accounting for postemployment benefits 201d by accruing the expected cost of the severance benefits expected to be provided to former employees after employment over their relevant service periods . the company updates the assumptions in determining the severance accrual by evaluating the actual severance activity and long-term trends underlying the assumptions . as a result of updating the assumptions , the company recorded severance expense (benefit) related to the severance plan of \$ 2643 , \$ (3418) and \$ 8400 , respectively , during the years 2008 , 2007 and 2006 . the company has an accrued liability related to the severance plan and other severance obligations in the amount of \$ 63863 and \$ 56172 at december 31 , 2008 and 2007 , respectively . note 13 . debt on april 28 , 2008 , the company extended its committed unsecured revolving credit facility , dated as of april 28 , 2006 (the 201ccredit facility 201d) , for an additional year . the new expiration date of the credit facility is april 26 , 2011 . the available funding under the credit facility will remain at \$ 2500000 through april 27 , 2010 and then decrease to \$ 2000000 during the final year of the credit facility agreement . other terms and conditions in the credit facility remain unchanged . the company 2019s option to request that each lender under the credit facility extend its commitment was provided pursuant to the original terms of the credit facility agreement . borrowings under the facility are available to provide liquidity in the event of one or more settlement failures by mastercard international customers and , subject to a limit of \$ 500000 , for general corporate purposes . a facility fee of 8 basis points on the total commitment , or approximately \$ 2030 , is paid annually . interest on borrowings under the credit facility would be charged at the london interbank offered rate (libor) plus an applicable margin of 37 basis points or an alternative base rate , and a utilization fee of 10 basis points would be charged if outstanding borrowings under the facility exceed 50% (50 %) of commitments . the facility fee and borrowing cost are contingent upon the company 2019s credit rating . the company also agreed to pay upfront fees of \$ 1250 and administrative fees of \$ 325 for the credit facility which are being amortized straight- line over three years . facility and other fees associated with the credit facility or prior facilities totaled \$ 2353 , \$ 2477 and \$ 2717 for each of the years ended december 31 , 2008 , 2007 and 2006 , respectively . mastercard was in compliance with the covenants of the credit facility and had no borrowings under the credit facility at december 31 , 2008 or december 31 , 2007 . the majority of credit facility lenders are customers or affiliates of customers of mastercard international . in june 1998 , mastercard international issued ten-year unsecured , subordinated notes (the 201cnotes 201d) paying a fixed interest rate of 6.67% (6.67 %) per annum . mastercard repaid the entire principal amount of \$ 80000 on june 30 .

Merck (MRK)

2013

Document ID: Double_MRK/2013/page_116.pdf

13 . pension and other postretirement benefit plans the company has defined benefit pension plans covering eligible employees in the united states and in certain of its international subsidiaries . as a result of plan design changes approved in 2011 , beginning on january 1 , 2013 , active participants in merck 2019s primary u.s . defined benefit pension plans are accruing pension benefits using new cash balance formulas based on age , service , pay and interest . however , during a transition period from january 1 , 2013 through december 31 , 2019 , participants will earn the greater of the benefit as calculated under the employee 2019s legacy final average pay formula or their new cash balance formula . for all years of service after december 31 , 2019 , participants will earn future benefits under only the cash balance formula . in addition , the company provides medical benefits , principally to its eligible u.s . retirees and their dependents , through its other postretirement benefit plans . the company uses december 31 as the year-end measurement date for all of its pension plans and other postretirement benefit plans . net periodic benefit cost the net periodic benefit cost for pension and other postretirement benefit plans consisted of the following components: .

	pension benefits 2013 (1)	pension benefits 2012 (1)	pension benefits 2011	pension benefits 2013 (2)	pension benefits 2012 (2)	2
service cost	682	555	619	102	82	1
interest cost	665	661	718	107	121	1
expected return on plan assets	-1,097	-970	-972	-126	-136	-
net amortization	336	185	201	-50	-35	-
termination benefits	58	27	59	50	18	2
curtailments	-23	-10	-86	-11	-7	1
settlements	23	18	4	2,014	2,014	2
net periodic benefit cost	644	466	543	72	43	1

the increase in net periodic benefit cost for pension and other postretirement benefit plans in 2013 as compared with 2012 is largely attributable to a change in the discount rate . the net periodic benefit cost attributable to u.s . pension plans included in the above table was \$ 348 million in 2013 , \$ 268 million in 2012 and \$ 406 million in 2011 on pension and other postretirement benefit plans related to expanded eligibility for certain employees exiting merck . also , in connection with these restructuring activities , curtailments were recorded in 2013 , 2012 and 2011 on pension and other postretirement benefit plans . in addition , settlements were recorded in 2013 , 2012 and 2011 on certain domestic and international pension plans . table of contents .

the decrease in depreciation and amortization expense is primarily due to a decrease of \$ 19.4 million related to the amortization of the fair value of in-place leases and resident relationships acquired as a result of the merger from the year ended december 31 , 2014 to the year ended december 31 , 2015 . this decrease was partially offset by an increase in depreciation expense of \$ 11.7 million driven by an increase in gross real estate assets from the year ended december 31 , 2014 to the year ended december 31 , 2015 . property management expenses property management expenses for the year ended december 31 , 2015 were approximately \$ 31.0 million , a decrease of \$ 1.1 million from the year ended december 31 , 2014 . the majority of the decrease was related to a decrease in state franchise taxes of \$ 2.1 million , partially offset by an increase in insurance expense of \$ 0.6 million , an increase in payroll expense of \$ 0.3 million , and an increase in incentive expense \$ 0.3 million . general and administrative expenses general and administrative expenses for the year ended december 31 , 2015 were approximately \$ 25.7 million , an increase of \$ 4.8 million from the year ended december 31 , 2014 . the majority of the increase was related to increases in legal fees of \$ 2.7 million and stock option expenses of \$ 1.6 million . merger and integration related expenses there were no merger or integration related expenses for the year ended december 31 , 2015 , as these expenses related primarily to severance , legal , professional , temporary systems , staffing , and facilities costs incurred for the acquisition and integration of colonial . for the year ended december 31 , 2014 , merger and integration related expenses were approximately \$ 3.2 million and \$ 8.4 million , respectively . interest expense interest expense for the year ended december 31 , 2015 was approximately \$ 122.3 million , a decrease of \$ 1.6 million from the year ended december 31 , 2014 . the decrease was primarily the result of a decrease in amortization of deferred financing cost from the year ended december 31 , 2014 to the year ended december 31 , 2015 of approximately \$ 0.9 million . also , the overall debt balance decreased from \$ 3.5 billion to \$ 3.4 billion , a decrease of \$ 85.1 million . the average effective interest rate remained at 3.7% (3.7 %) and the average years to rate maturity increased from 4.4 years to 4.8 years . job title mid-america apartment 10-k revision 1 serial <12345678> date sunday , march 20 , 2016 job number 304352-1 type page no . 50 operator abigaels .

Morgan Stanley (MS)

2013

Document ID: Double_MS/2013/page_223.pdf

morgan stanley notes to consolidated financial statements 2014 (continued) consumer price index) . senior debt also may be structured to be callable by the company or extendible at the option of holders of the senior debt securities . debt containing provisions that effectively allow the holders to put or extend the notes aggregated \$ 1175 million at december 31 , 2013 and \$ 1131 million at december 31 , 2012 . in addition , separate agreements are entered into by the company 2019s subsidiaries that effectively allow the holders to put the notes aggregated \$ 353 million at december 31 , 2013 and \$ 1895 million at december 31 , 2012 . subordinated debt and junior subordinated debentures generally are issued to meet the capital requirements of the company or its regulated subsidiaries and primarily are u.s . dollar denominated . senior debt 2014structured borrowings . the company 2019s index-linked , equity-linked or credit-linked borrowings include various structured instruments whose payments and redemption values are linked to the performance of a specific index (e.g. , standard & poor 2019s 500) , a basket of stocks , a specific equity security , a credit exposure or basket of credit exposures . to minimize the exposure resulting from movements in the underlying index , equity , credit or other position , the company has entered into various swap contracts and purchased options that effectively convert the borrowing costs into floating rates based upon libor . these instruments are included in the preceding table at their redemption values based on the performance of the underlying indices , baskets of stocks , or specific equity securities , credit or other position or index . the company carries either the entire structured borrowing at fair value or bifurcates the embedded derivative and carries it at fair value . the swaps and purchased options used to economically hedge the embedded features are derivatives and also are carried at fair value . changes in fair value related to the notes and economic hedges are reported in trading revenues . see note 4 for further information on structured borrowings . subordinated debt and junior subordinated debentures . included in the company 2019s long-term borrowings are subordinated notes of \$ 9275 million having a contractual weighted average coupon of 4.69% (4.69 %) at december 31 , 2013 and \$ 5845 million having a weighted average coupon of 4.81% (4.81 %) at december 31 , 2012 . junior subordinated debentures outstanding by the company were \$ 4849 million at december 31 , 2013 and \$ 4827 million at december 31 , 2012 having a contractual weighted average coupon of 6.37% (6.37 %) at both december 31 , 2013 and december 31 , 2012 . maturities of the subordinated and junior subordinated notes range from 2014 to 2067 . maturities of certain junior subordinated debentures can be extended to 2052 at the company 2019s option . asset and liability management . in general , securities inventories that are not financed by secured funding sources and the majority of the company 2019s assets are financed with a combination of deposits , short-term funding , floating rate long-term debt or fixed rate long-term debt swapped to a floating rate . fixed assets are generally financed with fixed rate long-term debt . the company uses interest rate swaps to more closely match these borrowings to the duration , holding period and interest rate characteristics of the assets being funded and to manage interest rate risk . these swaps effectively convert certain of the company 2019s fixed rate borrowings into floating rate obligations . in addition , for non-u.s . dollar currency borrowings that are not used to fund assets in the same currency , the company has entered into currency swaps that effectively convert the borrowings into u.s . dollar obligations . the company 2019s use of swaps for asset and liability management affected its effective average borrowing rate as follows: .

	2013	2012	2011
weighted average coupon of long-term borrowings at period-end (1)	-4.4	-4.4	-4
effective average borrowing rate for long-term borrowings after swaps at period-end (1)	-2.2	-2.3	-1.9

(1) included in the weighted average and effective average calculations are non-u.s . dollar interest rates . other . the company , through several of its subsidiaries , maintains funded and unfunded committed credit

facilities to support various businesses , including the collateralized commercial and residential mortgage whole loan , derivative contracts , warehouse lending , emerging market loan , structured product , corporate loan , investment banking and prime brokerage businesses. .

Motorola Solutions (MSI)

2005

Document ID: Double_MSI/2005/page_64.pdf

57management's discussion and analysis of financial condition and results of operations facility include covenants relating to net interest coverage and total debt-to-book capitalization ratios . the company was in compliance with the terms of the 3-year credit facility at december 31 , 2005 . the company has never borrowed under its domestic revolving credit facilities . utilization of the non-u.s . credit facilities may also be dependent on the company's ability to meet certain conditions at the time a borrowing is requested . contractual obligations , guarantees , and other purchase commitments contractual obligations summarized in the table below are the company's obligations and commitments to make future payments under debt obligations (assuming earliest possible exercise of put rights by holders) , lease payment obligations , and purchase obligations as of december 31 , 2005 . payments due by period (1) (in millions) total 2006 2007 2008 2009 2010 thereafter .

	payments due by period (1) total	payments due by period (1) 2006	payments due by period (1) 2007	payments due by period (1)
long-term debt obligations	4,033	119	1,222	200
lease obligations	1,150	438	190	134
purchase obligations	992	418	28	3
total contractual obligations	6,175	975	1,440	337

(1) amounts included represent firm , non-cancelable commitments . debt obligations : at december 31 , 2005 , the company's long-term debt obligations , including current maturities and unamortized discount and issue costs , totaled \$ 4.0 billion , as compared to \$ 5.0 billion at december 31 , 2004 . a table of all outstanding long-term debt securities can be found in note 4 , ""debt and credit facilities" to the company's consolidated financial statements . as previously discussed , the decrease in the long- term debt obligations as compared to december 31 , 2004 , was due to the redemptions and repurchases of \$ 1.0 billion principal amount of outstanding securities during 2005 . also , as previously discussed , the remaining \$ 118 million of 7.6% (7.6 %) notes due january 1 , 2007 were reclassified to current maturities of long-term debt . lease obligations : the company owns most of its major facilities , but does lease certain office , factory and warehouse space , land , and information technology and other equipment under principally non-cancelable operating leases . at december 31 , 2005 , future minimum lease obligations , net of minimum sublease rentals , totaled \$ 1.2 billion . rental expense , net of sublease income , was \$ 254 million in 2005 , \$ 217 million in 2004 and \$ 223 million in 2003 . purchase obligations : the company has entered into agreements for the purchase of inventory , license of software , promotional agreements , and research and development agreements which are firm commitments and are not cancelable . the longest of these agreements extends through 2015 . total payments expected to be made under these agreements total \$ 992 million . commitments under other long-term agreements : the company has entered into certain long-term agreements to purchase software , components , supplies and materials from suppliers . most of the agreements extend for periods of one to three years (three to five years for software) . however , generally these agreements do not obligate the company to make any purchases , and many permit the company to terminate the agreement with advance notice (usually ranging from 60 to 180 days) . if the company were to terminate these agreements , it generally would be liable for certain termination charges , typically based on work performed and supplier on-hand inventory and raw materials attributable to canceled orders . the company's liability would only arise in the event it terminates the agreements for reasons other than ""cause." in 2003 , the company entered into outsourcing contracts for certain corporate functions , such as benefit administration and information technology related services . these contracts generally extend for 10 years and are expected to expire in 2013 . the total payments under these contracts are approximately \$ 3 billion over 10 years ; however , these contracts can be terminated . termination would result in a penalty substantially less than the annual contract payments . the company would also be required to find another source for these services , including the possibility of performing them in-house . as is customary in bidding for and completing network infrastructure projects and pursuant to a practice the company

has followed for many years , the company has a number of performance/bid bonds and standby letters of credit outstanding , primarily relating to projects of government and enterprise mobility solutions segment and the networks segment . these instruments normally have maturities of up to three years and are standard in the .

News Corporation (NWS)

2016

Document ID: Double_NWS/2016/page_148.pdf

news corporation notes to the consolidated financial statements as of june 30 , 2016 , the company had income tax net operating loss carryforwards (nols) (gross , net of uncertain tax benefits) , in various jurisdictions as follows : jurisdiction expiration amount (in millions) .

	expiration	amount (in millions)
u.s . federal	2,021	858
u.s . states	various	581
australia	indefinite	452
u.k .	indefinite	134
other foreign	various	346

utilization of the nols is dependent on generating sufficient taxable income from our operations in each of the respective jurisdictions to which the nols relate , while taking into account limitations and/or restrictions on our ability to use them . certain of our u.s . federal nols were acquired as part of the acquisitions of move and harlequin and are subject to limitations as promulgated under section 382 of the code . section 382 of the code limits the amount of acquired nols that we can use on an annual basis to offset future u.s . consolidated taxable income . the nols are also subject to review by relevant tax authorities in the jurisdictions to which they relate . the company recorded a deferred tax asset of \$ 580 million and \$ 540 million (net of approximately \$ 53 million and \$ 95 million , respectively , of unrecognized tax benefits) associated with its nols as of june 30 , 2016 and 2015 , respectively . significant judgment is applied in assessing our ability to realize our nols and other tax assets . management assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to utilize existing deferred tax assets within the applicable expiration period . on the basis of this evaluation , valuation allowances of \$ 97 million and \$ 304 million have been established to reduce the deferred tax asset associated with the company 2019s nols to an amount that will more likely than not be realized as of june 30 , 2016 and 2015 , respectively . the amount of the nol deferred tax asset considered realizable , however , could be adjusted if estimates of future taxable income during the carryforward period are reduced or if objective negative evidence in the form of cumulative losses occurs . as of june 30 , 2016 , the company had approximately \$ 1.6 billion and \$ 1.7 billion of capital loss carryforwards in australia and the u.k . , respectively , which may be carried forward indefinitely and which are subject to tax authority review . realization of our capital losses is dependent on generating capital gain taxable income and satisfying certain continuity of business requirements . the company recorded a deferred tax asset of \$ 803 million and \$ 892 million as of june 30 , 2016 and 2015 , respectively for these capital loss carryforwards , however , it is more likely than not that the company will not generate capital gain income in the normal course of business in these jurisdictions . accordingly , valuation allowances of \$ 803 million and \$ 892 million have been established to reduce the capital loss carryforward deferred tax asset to an amount that will more likely than not be realized as of june 30 , 2016 and 2015 , respectively . as of june 30 , 2016 , the company had approximately \$ 26 million of u.s . federal tax credit carryforward which includes \$ 22 million of foreign tax credits and \$ 4 million of research & development credits which begin to expire in 2025 and 2036 , respectively . as of june 30 , 2016 , the company had approximately \$ 5 million of non-u.s . tax credit carryforwards which expire in various amounts beginning in 2025 and \$ 8 million of state tax credit carryforwards (net of u.s . federal benefit) , of which the balance can be carried forward indefinitely . in accordance with the company 2019s accounting policy , a valuation allowance of \$ 5 million has been established to reduce the deferred tax asset associated with the company 2019s non-u.s . and state credit carryforwards to an amount that will more likely than not be realized as of june 30 , 2016 . .

Nike (NKE)

2009

Document ID: Single_NKE/2009/page_81.pdf-1

nike , inc . notes to consolidated financial statements 2014 (continued) such agreements in place . however , based on the company 2019s historical experience and the estimated probability of future loss , the company has determined that the fair value of such indemnifications is not material to the company 2019s financial position or results of operations . in the ordinary course of its business , the company is involved in various legal proceedings involving contractual and employment relationships , product liability claims , trademark rights , and a variety of other matters . the company does not believe there are any pending legal proceedings that will have a material impact on the company 2019s financial position or results of operations . note 16 2014 restructuring charges during the fourth quarter of fiscal 2009 , the company took necessary steps to streamline its management structure , enhance consumer focus , drive innovation more quickly to market and establish a more scalable , long-term cost structure . as a result , the company reduced its global workforce by approximately 5% (5 %) and incurred pre-tax restructuring charges of \$ 195 million , primarily consisting of severance costs related to the workforce reduction . as nearly all of the restructuring activities were completed in the fourth quarter of fiscal 2009 , the company does not expect to recognize additional costs in future periods relating to these actions . the restructuring charge is reflected in the corporate expense line in the segment presentation of pre-tax income in note 19 2014 operating segments and related information . the activity in the restructuring accrual for the year ended may 31 , 2009 is as follows (in millions) :

	\$ 2014
-----	-----
severance and related costs	195
cash payments	-29.4
non-cash stock option and restricted stock expense	-19.5
foreign currency translation and other	3.5
restructuring accrual 2014 may 31 2009	149.6

the accrual balance as of may 31 , 2009 will be relieved throughout fiscal year 2010 and early 2011 , as severance payments are completed . the restructuring accrual is included in accrued liabilities in the consolidated balance sheet . as part of its restructuring activities , the company reorganized its nike brand operations geographic structure . in fiscal 2009 , 2008 and 2007 , nike brand operations were organized into the following four geographic regions : u.s. , europe , middle east and africa (collectively , 201cemea 201d) , asia pacific , and americas . in the fourth quarter of 2009 , the company initiated a reorganization of the nike brand business into a new operating model . as a result of this reorganization , beginning in the first quarter of fiscal 2010 , the nike brand operations will consist of the following six geographies : north america , western europe , central/eastern europe , greater china , japan , and emerging markets . note 17 2014 divestitures on december 17 , 2007 , the company completed the sale of the starter brand business to iconix brand group , inc . for \$ 60.0 million in cash . this transaction resulted in a gain of \$ 28.6 million during the year ended may 31 , 2008. .

Norwegian Cruise Line Holdings (NCLH)

2016

Document ID: *Single_NCLH/2016/page_84.pdf-1*

new term loan a facility , with the remaining unpaid principal amount of loans under the new term loan a facility due and payable in full at maturity on june 6 , 2021 . principal amounts outstanding under the new revolving loan facility are due and payable in full at maturity on june 6 , 2021 , subject to earlier repayment pursuant to the springing maturity date described above . in addition to paying interest on outstanding principal under the borrowings , we are obligated to pay a quarterly commitment fee at a rate determined by reference to a total leverage ratio , with a maximum commitment fee of 40% (40 %) of the applicable margin for eurocurrency loans . in july 2016 , breakaway four , ltd. , as borrower , and nclc , as guarantor , entered into a supplemental agreement , which amended the breakaway four loan to , among other things , increase the aggregate principal amount of commitments under the multi-draw term loan credit facility from 20ac590.5 million to 20ac729.9 million . in june 2016 , we took delivery of seven seas explorer . to finance the payment due upon delivery , we had export credit financing in place for 80% (80 %) of the contract price . the associated \$ 373.6 million term loan bears interest at 3.43% (3.43 %) with a maturity date of june 30 , 2028 . principal and interest payments shall be paid semiannually . in december 2016 , nclc issued \$ 700.0 million aggregate principal amount of 4.750% (4.750 %) senior unsecured notes due december 2021 (the 201cnotes 201d) in a private offering (the 201coffering 201d) at par . nclc used the net proceeds from the offering , after deducting the initial purchasers 2019 discount and estimated fees and expenses , together with cash on hand , to purchase its outstanding 5.25% (5.25 %) senior notes due 2019 having an aggregate outstanding principal amount of \$ 680 million . the redemption of the 5.25% (5.25 %) senior notes due 2019 was completed in january 2017 . nclc will pay interest on the notes at 4.750% (4.750 %) per annum , semiannually on june 15 and december 15 of each year , commencing on june 15 , 2017 , to holders of record at the close of business on the immediately preceding june 1 and december 1 , respectively . nclc may redeem the notes , in whole or part , at any time prior to december 15 , 2018 , at a price equal to 100% (100 %) of the principal amount of the notes redeemed plus accrued and unpaid interest to , but not including , the redemption date and a 201cmake-whole premium . 201d nclc may redeem the notes , in whole or in part , on or after december 15 , 2018 , at the redemption prices set forth in the indenture governing the notes . at any time (which may be more than once) on or prior to december 15 , 2018 , nclc may choose to redeem up to 40% (40 %) of the aggregate principal amount of the notes at a redemption price equal to 104.750% (104.750 %) of the face amount thereof with an amount equal to the net proceeds of one or more equity offerings , so long as at least 60% (60 %) of the aggregate principal amount of the notes issued remains outstanding following such redemption . the indenture governing the notes contains covenants that limit nclc 2019s ability (and its restricted subsidiaries 2019 ability) to , among other things : (i) incur or guarantee additional indebtedness or issue certain preferred shares ; (ii) pay dividends and make certain other restricted payments ; (iii) create restrictions on the payment of dividends or other distributions to nclc from its restricted subsidiaries ; (iv) create liens on certain assets to secure debt ; (v) make certain investments ; (vi) engage in transactions with affiliates ; (vii) engage in sales of assets and subsidiary stock ; and (viii) transfer all or substantially all of its assets or enter into merger or consolidation transactions . the indenture governing the notes also provides for events of default , which , if any of them occurs , would permit or require the principal , premium (if any) , interest and other monetary obligations on all of the then-outstanding notes to become due and payable immediately . interest expense , net for the year ended december 31 , 2016 was \$ 276.9 million which included \$ 34.7 million of amortization of deferred financing fees and a \$ 27.7 million loss on extinguishment of debt . interest expense , net for the year ended december 31 , 2015 was \$ 221.9 million which included \$ 36.7 million of amortization of deferred financing fees and a \$ 12.7 million loss on extinguishment of debt . interest expense , net for the year ended december 31 , 2014 was \$ 151.8 million which included \$ 32.3 million of amortization of deferred financing fees and \$ 15.4 million of expenses related to financing transactions in connection with the acquisition of prestige . certain of our debt agreements contain covenants that , among other things , require us to maintain a minimum level of

liquidity , as well as limit our net funded debt-to-capital ratio , maintain certain other ratios and restrict our ability to pay dividends . substantially all of our ships and other property and equipment are pledged as collateral for certain of our debt . we believe we were in compliance with these covenants as of december 31 , 2016 . the following are scheduled principal repayments on long-term debt including capital lease obligations as of december 31 , 2016 for each of the next five years (in thousands) : .

	amount
-----	-----
2017	560,193
2018	554,846
2019	561,687
2020	1,153,733
2021	2,193,823
thereafter	1,490,322
total	6,514,604

we had an accrued interest liability of \$ 32.5 million and \$ 34.2 million as of december 31 , 2016 and 2015 , respectively. .

O'Reilly Automotive (ORLY)

2006

Document ID: Double_ORLY/2006/page_40.pdf

o 2019 reilly automotive 2006 annual report page 38 \$ 11080000 , in the years ended december 31 , 2006 , 2005 and 2004 , respectively . the remaining unrecognized compensation cost related to unvested awards at december 31 , 2006 , was \$ 7702000 and the weighted-average period of time over which this cost will be recognized is 3.3 years . employee stock purchase plan the company 2019s employee stock purchase plan permits all eligible employees to purchase shares of the company 2019s common stock at 85% (85 %) of the fair market value . participants may authorize the company to withhold up to 5% (5 %) of their annual salary to participate in the plan . the stock purchase plan authorizes up to 2600000 shares to be granted . during the year ended december 31 , 2006 , the company issued 165306 shares under the purchase plan at a weighted average price of \$ 27.36 per share . during the year ended december 31 , 2005 , the company issued 161903 shares under the purchase plan at a weighted average price of \$ 27.57 per share . during the year ended december 31 , 2004 , the company issued 187754 shares under the purchase plan at a weighted average price of \$ 20.85 per share . sfas no . 123r requires compensation expense to be recognized based on the discount between the grant date fair value and the employee purchase price for shares sold to employees . during the year ended december 31 , 2006 , the company recorded \$ 799000 of compensation cost related to employee share purchases and a corresponding income tax benefit of \$ 295000 . at december 31 , 2006 , approximately 400000 shares were reserved for future issuance . other employee benefit plans the company sponsors a contributory profit sharing and savings plan that covers substantially all employees who are at least 21 years of age and have at least six months of service . the company has agreed to make matching contributions equal to 50% (50 %) of the first 2% (2 %) of each employee 2019s wages that are contributed and 25% (25 %) of the next 4% (4 %) of each employee 2019s wages that are contributed . the company also makes additional discretionary profit sharing contributions to the plan on an annual basis as determined by the board of directors . the company 2019s matching and profit sharing contributions under this plan are funded in the form of shares of the company 2019s common stock . a total of 4200000 shares of common stock have been authorized for issuance under this plan . during the year ended december 31 , 2006 , the company recorded \$ 6429000 of compensation cost for contributions to this plan and a corresponding income tax benefit of \$ 2372000 . during the year ended december 31 , 2005 , the company recorded \$ 6606000 of compensation cost for contributions to this plan and a corresponding income tax benefit of \$ 2444000 . during the year ended december 31 , 2004 , the company recorded \$ 5278000 of compensation cost for contributions to this plan and a corresponding income tax benefit of \$ 1969000 . the compensation cost recorded in 2006 includes matching contributions made in 2006 and profit sharing contributions accrued in 2006 to be funded with issuance of shares of common stock in 2007 . the company issued 204000 shares in 2006 to fund profit sharing and matching contributions at an average grant date fair value of \$ 34.34 . the company issued 210461 shares in 2005 to fund profit sharing and matching contributions at an average grant date fair value of \$ 25.79 . the company issued 238828 shares in 2004 to fund profit sharing and matching contributions at an average grant date fair value of \$ 19.36 . a portion of these shares related to profit sharing contributions accrued in prior periods . at december 31 , 2006 , approximately 1061000 shares were reserved for future issuance under this plan . the company has in effect a performance incentive plan for the company 2019s senior management under which the company awards shares of restricted stock that vest equally over a three-year period and are held in escrow until such vesting has occurred . shares are forfeited when an employee ceases employment . a total of 800000 shares of common stock have been authorized for issuance under this plan . shares awarded under this plan are valued based on the market price of the company 2019s common stock on the date of grant and compensation cost is recorded over the vesting period . the company recorded \$ 416000 of compensation cost for this plan for the year ended december 31 , 2006 and recognized a corresponding income tax benefit of \$ 154000 . the company recorded \$ 289000 of compensation cost for this plan for the year ended december 31 , 2005 and recognized a corresponding income tax benefit of \$ 107000 . the company recorded \$ 248000 of

compensation cost for this plan for the year ended december 31 , 2004 and recognized a corresponding income tax benefit of \$ 93000 . the total fair value of shares vested (at vest date) for the years ended december 31 , 2006 , 2005 and 2004 were \$ 503000 , \$ 524000 and \$ 335000 , respectively . the remaining unrecognized compensation cost related to unvested awards at december 31 , 2006 was \$ 536000 . the company awarded 18698 shares under this plan in 2006 with an average grant date fair value of \$ 33.12 . the company awarded 14986 shares under this plan in 2005 with an average grant date fair value of \$ 25.41 . the company awarded 15834 shares under this plan in 2004 with an average grant date fair value of \$ 19.05 . compensation cost for shares awarded in 2006 will be recognized over the three-year vesting period . changes in the company 2019s restricted stock for the year ended december 31 , 2006 were as follows : weighted- average grant date shares fair value .

	shares	weighted-average grant date fair value
non-vested at december 31 2005	15,052	22.68
granted during the period	18,698	33.12
vested during the period	-15,685	26.49
forfeited during the period	-1,774	27.94
non-vested at december 31 2006	16,291	30.8

at december 31 , 2006 , approximately 659000 shares were reserved for future issuance under this plan . n o t e s t o c o n s o l i d a t e d f i n a n c i a l s t a t e m e n t s (c o n t i n u e d) .

ONEOK (OKE)

impairment of long-lived assets , goodwill and intangible assets - we assess our long-lived assets for impairment based on statement 144 , 201caccounting for the impairment or disposal of long-lived assets . 201d a long-lived asset is tested for impairment whenever events or changes in circumstances indicate that its carrying amount may exceed its fair value . fair values are based on the sum of the undiscounted future cash flows expected to result from the use and eventual disposition of the assets . we assess our goodwill and intangible assets for impairment at least annually based on statement 142 , 201cgoodwill and other intangible assets . 201d there were no impairment charges resulting from the july 1 , 2007 , impairment tests and no events indicating an impairment have occurred subsequent to that date . an initial assessment is made by comparing the fair value of the operations with goodwill , as determined in accordance with statement 142 , to the book value of each reporting unit . if the fair value is less than the book value , an impairment is indicated , and we must perform a second test to measure the amount of the impairment . in the second test , we calculate the implied fair value of the goodwill by deducting the fair value of all tangible and intangible net assets of the operations with goodwill from the fair value determined in step one of the assessment . if the carrying value of the goodwill exceeds this calculated implied fair value of the goodwill , we will record an impairment charge . at december 31 , 2007 , we had \$ 600.7 million of goodwill recorded on our consolidated balance sheet as shown below .

	(thousands of dollars)
oneok partners	431,418
distribution	157,953
energy services	10,255
other	1,099
total goodwill	600,725

(thousands of dollars) intangible assets with a finite useful life are amortized over their estimated useful life , while intangible assets with an indefinite useful life are not amortized . all intangible assets are subject to impairment testing . our oneok partners segment had \$ 443.0 million of intangible assets recorded on our consolidated balance sheet as of december 31 , 2007 , of which \$ 287.5 million is being amortized over an aggregate weighted-average period of 40 years , while the remaining balance has an indefinite life . during 2006 , we recorded a goodwill and asset impairment related to oneok partners 2019 black mesa pipeline of \$ 8.4 million and \$ 3.6 million , respectively , which were recorded as depreciation and amortization . the reduction to our net income , net of minority interests and income taxes , was \$ 3.0 million . in the third quarter of 2005 , we made the decision to sell our spring creek power plant , located in oklahoma , and exit the power generation business . in october 2005 , we concluded that our spring creek power plant had been impaired and recorded an impairment expense of \$ 52.2 million . this conclusion was based on our statement 144 impairment analysis of the results of operations for this plant through september 30 , 2005 , and also the net sales proceeds from the anticipated sale of the plant . the sale was completed on october 31 , 2006 . this component of our business is accounted for as discontinued operations in accordance with statement 144 . see 201cdiscontinued operations 201d on page 46 for additional information . our total unamortized excess cost over underlying fair value of net assets accounted for under the equity method was \$ 185.6 million as of december 31 , 2007 and 2006 . based on statement 142 , this amount , referred to as equity method goodwill , should continue to be recognized in accordance with apb opinion no . 18 , 201cthe equity method of accounting for investments in common stock . 201d accordingly , we included this amount in investment in unconsolidated affiliates on our accompanying consolidated balance sheets . pension and postretirement employee benefits - we have defined benefit retirement plans covering certain full-time employees . we sponsor welfare plans that provide

postretirement medical and life insurance benefits to certain employees who retire with at least five years of service . our actuarial consultant calculates the expense and liability related to these plans and uses statistical and other factors that attempt to anticipate future events . these factors include assumptions about the discount rate , expected return on plan assets , rate of future compensation increases , age and employment periods . in determining the projected benefit obligations and costs , assumptions can change from period to period and result in material changes in the costs and liabilities we recognize . see note j of the notes to consolidated financial statements in this annual report on form 10-k for additional information. .

Packaging Corporation of America (PKG)

2001

Document ID: Double_PKG/2001/page_78.pdf

the containerboard group (a division of tenneco packaging inc.) notes to combined financial statements (continued) april 11 , 1999 5 . pension and other benefit plans (continued) the funded status of the group 2019s allocation of defined benefit plans , excluding the retirement plan , reconciles with amounts recognized in the 1998 statements of assets and liabilities and interdivision account as follows (in thousands) : actuarial present value at september 30 , 1998 2014 .

	\$ -98512 (98512)
-----	-----
accumulated benefit obligation	-108,716
projected benefit obligation	-108,716
plan assets at fair value at september 30 1998	146,579
unrecognized transition liability	-1,092
unrecognized net gain	-14,623
unrecognized prior service cost	13,455
prepaid pension cost at december 31 1998	35,603

the weighted average discount rate used in determining the actuarial present value of the benefit obligations was 7.00% (7.00 %) for the year ended december 31 , 1998 . the weighted average expected long-term rate of return on plan assets was 10% (10 %) for 1998 . middle management employees participate in a variety of incentive compensation plans . these plans provide for incentive payments based on the achievement of certain targeted operating results and other specific business goals . the targeted operating results are determined each year by senior management of packaging . the amounts charged to expense for these plans were \$ 1599000 for the period ended april 11 , 1999 . in june , 1992 , tenneco initiated an employee stock purchase plan (2018 2018espp 2019 2019) . the plan allows u.s . and canadian employees of the group to purchase tenneco inc . common stock through payroll deductions at a 15% (15 %) discount . each year , an employee in the plan may purchase shares with a discounted value not to exceed \$ 21250 . the weighted average fair value of the employee purchase right , which was estimated using the black-scholes option pricing model and the assumptions described below except that the average life of each purchase right was assumed to be 90 days , was \$ 6.31 for the period ended december 31 , 1998 . the espp was terminated as of september 30 , 1996 . tenneco adopted a new employee stock purchase plan effective april 1 , 1997 . under the respective espps , tenneco sold 36883 shares to group employees for the period ended april 11 , 1999 . in december , 1996 , tenneco adopted the 1996 stock ownership plan , which permits the granting of a variety of awards , including common stock , restricted stock , performance units , stock appreciation rights , and stock options to officers and employees of tenneco . tenneco can issue up to 17000000 shares of common stock under this plan , which will terminate december 31 , 2001 . the april 11 , 1999 , fair market value of the options granted was calculated using tenneco 2019s stock price at the grant date and multiplying the amount by the historical percentage of past black-scholes pricing values fair value (approximately 25% (25 %)) . the fair value of each stock option issued by tenneco to the group in prior periods was estimated on the date of grant using the black-scholes option pricing model using the following ranges of weighted average assumptions for grants during the past three .

Document ID: Double_PNC/2007/page_108.pdf

information about stock options at december 31 , 2007 follows: .

	options outstanding shares (1)	options outstanding weighted- averageexercise price	options outstanding weighted-average remaining contractual l
\$ 37.43 2013 \$ 46.99	1,444	43.05	4
47.00 2013 56.99	3,634	53.43	5.4
57.00 2013 66.99	3,255	60.32	5.2
67.00 2013 76.23	5,993	73.03	5.5
total	14,326	62.15	5.3

(a) the weighted-average remaining contractual life was approximately 4.2 years . at december 31 , 2007 , there were approximately 13788000 options in total that were vested and are expected to vest . the weighted-average exercise price of such options was \$ 62.07 per share , the weighted-average remaining contractual life was approximately 5.2 years , and the aggregate intrinsic value at december 31 , 2007 was approximately \$ 92 million . stock options granted in 2005 include options for 30000 shares that were granted to non-employee directors that year . no such options were granted in 2006 or 2007 . awards granted to non-employee directors in 2007 include 20944 deferred stock units awarded under the outside directors deferred stock unit plan . a deferred stock unit is a phantom share of our common stock , which requires liability accounting treatment under sfas 123r until such awards are paid to the participants as cash . as there are no vestings or service requirements on these awards , total compensation expense is recognized in full on all awarded units on the date of grant . the weighted-average grant-date fair value of options granted in 2007 , 2006 and 2005 was \$ 11.37 , \$ 10.75 and \$ 9.83 per option , respectively . to determine stock-based compensation expense under sfas 123r , the grant-date fair value is applied to the options granted with a reduction made for estimated forfeitures . at december 31 , 2006 and 2005 options for 10743000 and 13582000 shares of common stock , respectively , were exercisable at a weighted-average price of \$ 58.38 and \$ 56.58 , respectively . the total intrinsic value of options exercised during 2007 , 2006 and 2005 was \$ 52 million , \$ 111 million and \$ 31 million , respectively . at december 31 , 2007 the aggregate intrinsic value of all options outstanding and exercisable was \$ 94 million and \$ 87 million , respectively . cash received from option exercises under all incentive plans for 2007 , 2006 and 2005 was approximately \$ 111 million , \$ 233 million and \$ 98 million , respectively . the actual tax benefit realized for tax deduction purposes from option exercises under all incentive plans for 2007 , 2006 and 2005 was approximately \$ 39 million , \$ 82 million and \$ 34 million , respectively . there were no options granted in excess of market value in 2007 , 2006 or 2005 . shares of common stock available during the next year for the granting of options and other awards under the incentive plans were 40116726 at december 31 , 2007 . total shares of pnc common stock authorized for future issuance under equity compensation plans totaled 41787400 shares at december 31 , 2007 , which includes shares available for issuance under the incentive plans , the employee stock purchase plan as described below , and a director plan . during 2007 , we issued approximately 2.1 million shares from treasury stock in connection with stock option exercise activity . as with past exercise activity , we intend to utilize treasury stock for future stock option exercises . as discussed in note 1 accounting policies , we adopted the fair value recognition provisions of sfas 123 prospectively to all employee awards including stock options granted , modified or settled after january 1 , 2003 . as permitted under sfas 123 , we recognized compensation expense for stock options on a straight-line basis over the pro rata vesting period . total compensation expense recognized related to pnc stock options in 2007 was \$ 29 million compared with \$ 31 million in 2006 and \$ 29 million in 2005 . pro forma effects a table is included in note 1 accounting policies that sets forth pro forma net income and basic and diluted earnings per share as if compensation expense had been recognized under sfas 123 and 123r , as amended , for stock options for 2005 . for purposes of computing stock option expense and 2005 pro forma results , we estimated the fair value of stock options using the black-scholes option pricing model . the model requires the use of numerous assumptions , many of which are very subjective . therefore , the 2005 pro forma results are

estimates of results of operations as if compensation expense had been recognized for all stock-based compensation awards and are not indicative of the impact on future periods. .

PPG Industries (PPG)

2005

Document ID: Single_PPG/2005/page_24.pdf-2

management 2019s discussion and analysis interest expense was \$ 17 million less in 2004 than in 2003 reflecting the year over year reduction in debt of \$ 316 million . other charges declined \$ 30 million in 2004 due to a combination of lower environmental remediation , legal and workers compensation expenses and the absence of certain 2003 charges . other earnings were \$ 28 million higher in 2004 due primarily to higher earnings from our equity affiliates . the effective tax rate for 2004 was 30.29% (30.29 %) compared to 34.76% (34.76 %) for the full year 2003 . the reduction in the rate for 2004 reflects the benefit of the subsidy offered pursuant to the medicare act not being subject to tax , the continued improvement in the geographical mix of non- u.s . earnings and the favorable resolution during 2004 of matters related to two open u.s . federal income tax years . net income in 2004 totaled \$ 683 million , an increase of \$ 189 million over 2003 , and earnings per share 2013 diluted increased \$ 1.06 to \$ 3.95 per share . results of business segments net sales operating income (millions) 2004 2003 2004 2003 (1) coatings \$ 5275 \$ 4835 \$ 777 \$ 719 .

	net sales 2004 (1)	net sales 2003	net sales 2004 (2)	2003 (1)
coatings	5,275	4,835	777	719
glass	2,204	2,150	169	71
chemicals	2,034	1,771	291	228

chemicals 2034 1771 291 228 (1) operating income by segment for 2003 has been revised to reflect a change in the allocation method for certain pension and other postretirement benefit costs in 2004 (see note 22 , 201cbusiness segment information 201d , under item 8 of this form 10-k) . coatings sales increased \$ 440 million or 9% (9 %) in 2004 . sales increased 6% (6 %) from improved volumes across all our coatings businesses and 4% (4 %) due to the positive effects of foreign currency translation , primarily from our european operations . sales declined 1% (1 %) due to lower selling prices , principally in our automotive business . operating income increased \$ 58 million in 2004 . factors increasing operating income were the higher sales volume (\$ 135 million) and the favorable effects of currency translation described above and improved manufacturing efficiencies of \$ 20 million . factors decreasing operating income were inflationary cost increases of \$ 82 million and lower selling prices . glass sales increased \$ 54 million or 3% (3 %) in 2004 . sales increased 6% (6 %) from improved volumes primarily from our performance glazings (flat glass) , fiber glass , and automotive original equipment businesses net of lower volumes in our automotive replacement glass business . sales also increased 2% (2 %) due to the positive effects of foreign currency translation , primarily from our european fiber glass operations . sales declined 5% (5 %) due to lower selling prices across all our glass businesses . operating income in 2004 increased \$ 98 million . factors increasing operating income were improved manufacturing efficiencies of \$ 110 million , higher sales volume (\$ 53 million) described above , higher equity earnings and the gains on the sale/leaseback of precious metals of \$ 19 million . the principal factor decreasing operating income was lower selling prices . fiber glass volumes were up 15% (15 %) for the year , although pricing declined . with the shift of electronic printed wiring board production to asia and the volume and pricing gains there , equity earnings from our joint venture serving that region grew in 2004 . these factors combined with focused cost reductions and manufacturing efficiencies to improve the operating performance of this business , as we continue to position it for future growth in profitability . chemicals sales increased \$ 263 million or 15% (15 %) in 2004 . sales increased 10% (10 %) from improved volumes in our commodity and specialty businesses and 4% (4 %) due to higher selling prices for our commodity products . sales also increased 1% (1 %) due to the positive effects of foreign currency translation , primarily from our european operations . operating income increased \$ 63 million in 2004 . factors increasing operating income were the higher selling prices for our commodity products and the higher sales volume (\$ 73 million) described

above , improved manufacturing efficiencies of \$ 25 million and lower environmental expenses . factors decreasing 2004 operating income were inflationary cost increases of \$ 40 million and higher energy costs of \$ 79 million . other significant factors the company 2019s pension and other postretirement benefit costs for 2004 were \$ 45 million lower than in 2003 . this decrease reflects the market driven growth in pension plan assets that occurred in 2003 , the impact of the \$ 140 million in cash contributed to the pension plans by the company in 2004 and the benefit of the subsidy offered pursuant to the medicare act , as discussed in note 12 , 201cpension and other postretirement benefits , 201d under item 8 of this form 10-k . commitments and contingent liabilities , including environmental matters ppg is involved in a number of lawsuits and claims , both actual and potential , including some that it has asserted against others , in which substantial monetary damages are sought . see item 3 , 201clegal proceedings 201d of this form 10-k and note 13 , 201ccommitments and contingent liabilities , 201d under item 8 of this form 10-k for a description of certain of these lawsuits , including a description of the proposed ppg settlement arrangement for asbestos claims announced on may 14 , 2002 . as discussed in item 3 and note 13 , although the result of any future litigation of such lawsuits and claims is inherently unpredictable , management believes that , in the aggregate , the outcome of all lawsuits and claims involving ppg , including asbestos-related claims in the event the ppg settlement arrangement described in note 13 does not become effective , will not have a material effect on ppg 2019s consolidated financial position or liquidity ; however , any such outcome may be material to the results of operations of any particular period in which costs , if any , are recognized . the company has been named as a defendant , along with various other co-defendants , in a number of antitrust lawsuits filed in federal and state courts . these suits allege that ppg acted with competitors to fix prices and allocate markets in the flat glass and automotive refinish industries . 22 2005 ppg annual report and form 10-k .

Ralph Lauren (RL)

2008

global brand concepts american living american living is the first brand developed under the newglobal brand concepts group . american living is a full lifestyle brand , featuring menswear , womenswear , childrenswear , accessories and home furnishings with a focus on timeless , authentic american classics for every day . american living is available exclusively at jcpenny in the u.s . and online at jcp.com . our wholesale segment our wholesale segment sells our products to leading upscale and certain mid-tier department stores , specialty stores and golf and pro shops , both domestically and internationally . we have focused on elevating our brand and improving productivity by reducing the number of unproductive doors within department stores in which our products are sold , improving in-store product assortment and presentation , and improving full-price sell-throughs to consumers . as of march 29 , 2008 , the end of fiscal 2008 , our products were sold through 10806 doors worldwide , and during fiscal 2008 , we invested approximately \$ 49 million in shop-within-shops dedicated to our products primarily in domestic and international department stores . we have also effected selective price increases on basic products and introduced new fashion offerings at higher price points . department stores are our major wholesale customers in north america . in europe , our wholesale sales are a varying mix of sales to both department stores and specialty shops , depending on the country . our collection brands 2014 women 2019s ralph lauren collection and black label and men 2019s purple label collection and black label 2014 are distributed through a limited number of premier fashion retailers . in addition , we sell excess and out- of-season products through secondary distribution channels , including our retail factory stores . in japan , our products are distributed primarily through shop-within-shops at premiere department stores . the mix of business is weighted to polo ralph lauren inmen 2019s andwomen 2019s blue label . the distribution of men 2019s and women 2019s black label is also expanding through shop-within-shop presentations in top tier department stores across japan . worldwide distribution channels the following table presents the approximate number of doors by geographic location , in which products distributed by our wholesale segment were sold to consumers as of march 29 , 2008 : location number of doors (a) .

	number of doors (a)
-----	-----
united states and canada	8,611
europe	2,075
japan	120
total	10,806

(a) in asia/pacific (excluding japan) , our products are distributed by our licensing partners . the following department store chains werewholesale customers whose purchases represented more than 10% (10 %) of our worldwide wholesale net sales for the year ended march 29 , 2008 : 2022 macy 2019s , inc . (formerly known as federated department stores , inc.) , which represented approximately 24% (24 %) ; and 2022 dillard department stores , inc. , which represented approximately 12% (12 %) . our product brands are sold primarily through their own sales forces . our wholesale segment maintains their primary showrooms in new york city . in addition , we maintain regional showrooms in atlanta , chicago , dallas , los angeles , milan , paris , london , munich , madrid and stockholm. .

Regeneron Pharmaceuticals (REGN)

2010

Document ID: Double_REGN/2010/page_68.pdf

selling , general , and administrative expenses selling , general , and administrative expenses increased to \$ 65.2 million in 2010 from \$ 52.9 million in 2009 due primarily to increases in compensation expense and recruitment costs , principally in connection with higher headcount in 2010 , and an increase in non-cash compensation expense for the reasons described above . cost of goods sold cost of goods sold in 2010 and 2009 was \$ 2.1 million and \$ 1.7 million , respectively , and consisted primarily of royalties and other period costs related to arcalyst ae commercial supplies . to date , arcalyst ae shipments to our customers have primarily consisted of supplies of inventory manufactured and expensed as research and development costs prior to fda approval in 2008 ; therefore , the costs of these supplies were not included in costs of goods sold . other income and expense investment income decreased to \$ 2.1 million in 2010 from \$ 4.5 million in 2009 , due primarily to lower yields on , and lower average balances of , cash and marketable securities . interest expense increased to \$ 9.1 million in 2010 from \$ 2.3 million in 2009 . interest expense is primarily attributable to the imputed interest portion of payments to our landlord , commencing in the third quarter of 2009 , to lease newly constructed laboratory and office facilities in tarrytown , new york . income tax expense (benefit) in 2010 , we did not recognize any income tax expense or benefit . in 2009 , we recognized a \$ 4.1 million income tax benefit , consisting primarily of (i) \$ 2.7 million resulting from a provision in the worker , homeownership , and business assistance act of 2009 that allowed us to claim a refund of u.s . federal alternative minimum tax that we paid in 2008 , and (ii) \$ 0.7 million resulting from a provision in the american recovery and reinvestment act of 2009 that allowed us to claim a refund for a portion of our unused pre-2006 research tax credits . years ended december 31 , 2009 and 2008 net loss regeneron reported a net loss of \$ 67.8 million , or \$ 0.85 per share (basic and diluted) , for the year ended december 31 , 2009 , compared to a net loss of \$ 79.1 million , or \$ 1.00 per share (basic and diluted) for 2008 . the decrease in our net loss in 2009 was principally due to higher collaboration revenue in connection with our antibody collaboration with sanofi-aventis , receipt of a \$ 20.0 million substantive performance milestone payment in connection with our vegf trap-eye collaboration with bayer healthcare , and higher arcalyst ae sales , partly offset by higher research and development expenses , as detailed below . revenues revenues in 2009 and 2008 consist of the following: .

	2009	2008
-----	-----	-----
collaboration revenue		
sanofi-aventis	247.2	154
bayer healthcare	67.3	31.2
total collaboration revenue	314.5	185.2
technology licensing revenue	40	40
net product sales	18.4	6.3
contract research and other revenue	6.4	7
total revenue	379.3	238.5

Republic Services (RSG)

2008

substantially all of the goodwill and other intangible assets recorded related to the acquisition of allied are not deductible for tax purposes . pro forma information the consolidated financial statements presented for republic include the operating results of allied from the date of the acquisition . the following pro forma information is presented assuming the merger had been completed as of january 1 , 2007 . the unaudited pro forma information presented below has been prepared for illustrative purposes and is not intended to be indicative of the results of operations that would have actually occurred had the acquisition been consummated at the beginning of the periods presented or of future results of the combined operations (in millions , except share and per share amounts) . year ended december 31 , year ended december 31 , (unaudited) (unaudited) .

	year ended december 31 2008 (unaudited)	year ended december 31 2007 (unaudited)
revenue	9,362.2	9,244.9
income from continuing operations available to common stockholders	285.7	423.2
basic earnings per share	76	1.1
diluted earnings per share	75	1.09

the above unaudited pro forma financial information includes adjustments for amortization of identifiable intangible assets , accretion of discounts to fair value associated with debt , environmental , self-insurance and other liabilities , accretion of capping , closure and post-closure obligations and amortization of the related assets , and provision for income taxes . assets held for sale as a condition of the merger with allied in december 2008 , we reached a settlement with the doj requiring us to divest of certain operations serving fifteen metropolitan areas including los angeles , ca ; san francisco , ca ; denver , co ; atlanta , ga ; northwestern indiana ; lexington , ky ; flint , mi ; cape girardeau , mo ; charlotte , nc ; cleveland , oh ; philadelphia , pa ; greenville-spartanburg , sc ; and fort worth , houston and lubbock , tx . the settlement requires us to divest 87 commercial waste collection routes , nine landfills and ten transfer stations , together with ancillary assets and , in three cases , access to landfill disposal capacity . we have classified the assets and liabilities we expect to divest (including accounts receivable , property and equipment , goodwill , and accrued landfill and environmental costs) as assets held for sale in our consolidated balance sheet at december 31 , 2008 . the assets held for sale related to operations that were republic 2019s prior to the merger with allied have been adjusted to the lower of their carrying amounts or estimated fair values less costs to sell , which resulted in us recognizing an asset impairment loss of \$ 6.1 million in our consolidated statement of income for the year ended december 31 , 2008 . the assets held for sale related to operations that were allied 2019s prior to the merger are recorded at their estimated fair values in our consolidated balance sheet as of december 31 , 2008 in accordance with the purchase method of accounting . in february 2009 , we entered into an agreement to divest certain assets to waste connections , inc . the assets covered by the agreement include six municipal solid waste landfills , six collection operations and three transfer stations across the following seven markets : los angeles , ca ; denver , co ; houston , tx ; lubbock , tx ; greenville-spartanburg , sc ; charlotte , nc ; and flint , mi . the transaction with waste connections is subject to closing conditions regarding due diligence , regulatory approval and other customary matters . closing is expected to occur in the second quarter of 2009 . republic services , inc . and subsidiaries notes to consolidated financial statements %transmsg*** transmitting job : p14076 pcn : 106000000 ***%pcmsgl104 |00046|yes|no|02/28/2009 21:07|0|0|page is valid , no graphics -- color : d| .

Royal Caribbean Cruises (RCL)

2005

Document ID: Double_RCL/2005/page_40.pdf

during 2005 , we amended our \$ 1.0 billion unsecured revolving credit facility to extend its maturity date from march 27 , 2008 to march 27 , 2010 , and reduce the effective interest rate to libor plus 1.0% (1.0 %) and the commitment fee to 0.2% (0.2 %) of the undrawn portion of the facility at december 31 , 2005 . in addition , in 2005 , we entered into two \$ 100.0 million unsecured term loans , due 2010 , at an effective interest rate of libor plus 0.8% (0.8 %) at december 31 , 2005 . during 2004 , we entered into an eight-year , \$ 225.0 million unsecured term loan , at libor plus 1.75% (1.75 %) , which was amended in 2005 to reduce the effective interest rate to libor plus 1.0% (1.0 %) at december 31 , 2005 . the liquid yield option 2122 notes and the zero coupon convertible notes are unsecured zero coupon bonds with yields to maturity of 4.875% (4.875 %) and 4.75% (4.75 %) , respectively , due 2021 . each liquid yield option 2122 note and zero coupon convertible note was issued at a price of \$ 381.63 and \$ 391.06 , respectively , and will have a principal amount at maturity of \$ 1000 . each liquid yield option 2122 note and zero coupon convertible note is convertible at the option of the holder into 11.7152 and 15.6675 shares of common stock , respectively , if the market price of our common stock reaches certain levels . these conditions were met at december 31 , 2005 and 2004 for the zero coupon convertible notes and at december 31 , 2004 for the liquid yield option 2122 notes . since february 2 , 2005 , we have the right to redeem the liquid yield option 2122 notes and commencing on may 18 , 2006 , we will have the right to redeem the zero coupon convertible notes at their accreted values for cash as a whole at any time , or from time to time in part . holders may require us to purchase any outstanding liquid yield option 2122 notes at their accreted value on february 2 , 2011 and any outstanding zero coupon convertible notes at their accreted value on may 18 , 2009 and may 18 , 2014 . we may choose to pay the purchase price in cash or common stock or a combination thereof . during 2005 , holders of our liquid yield option 2122 notes and zero coupon convertible notes converted approximately \$ 10.4 million and \$ 285.0 million , respectively , of the accreted value of these notes into approximately 0.3 million and 9.4 million shares , respectively , of our common stock and cash for fractional shares . in addition , we called for redemption \$ 182.3 million of the accreted balance of outstanding liquid yield option 2122 notes . most holders of the liquid yield option 2122 notes elected to convert into shares of our common stock , rather than redeem for cash , resulting in the issuance of approximately 4.5 million shares . during 2005 , we prepaid a total of \$ 297.0 million on a term loan secured by a certain celebrity ship and on a variable rate unsecured term loan . in 1996 , we entered into a \$ 264.0 million capital lease to finance splendour of the seas and in 1995 we entered into a \$ 260.0 million capital lease to finance legend of the seas . during 2005 , we paid \$ 335.8 million in connection with the exercise of purchase options on these capital lease obligations . under certain of our agreements , the contractual interest rate and commitment fee vary with our debt rating . the unsecured senior notes and senior debentures are not redeemable prior to maturity . our debt agreements contain covenants that require us , among other things , to maintain minimum net worth and fixed charge coverage ratio and limit our debt to capital ratio . we are in compliance with all covenants as of december 31 , 2005 . following is a schedule of annual maturities on long-term debt as of december 31 , 2005 for each of the next five years (in thousands) : .

	\$ 600883
-----	-----
2007	329,493
2008	245,257
2009 (1)	361,449
2010	687,376

1 the \$ 137.9 million accreted value of the zero coupon convertible notes at december 31 , 2005 is included in year 2009 . the holders of our zero coupon convertible notes may require us to purchase any notes outstanding at an accreted value of \$ 161.7 million on may 18 , 2009 . this accreted value was calculated based on the

number of notes outstanding at december 31 , 2005 . we may choose to pay any amounts in cash or common stock or a combination thereof . note 6 . shareholders 2019 equity on september 25 , 2005 , we announced that we and an investment bank had finalized a forward sale agreement relating to an asr transaction . as part of the asr transaction , we purchased 5.5 million shares of our common stock from the investment bank at an initial price of \$ 45.40 per share . total consideration paid to repurchase such shares , including commissions and other fees , was approxi- mately \$ 249.1 million and was recorded in shareholders 2019 equity as a component of treasury stock . the forward sale contract matured in february 2006 . during the term of the forward sale contract , the investment bank purchased shares of our common stock in the open market to settle its obliga- tion related to the shares borrowed from third parties and sold to us . upon settlement of the contract , we received 218089 additional shares of our common stock . these incremental shares will be recorded in shareholders 2019 equity as a component of treasury stock in the first quarter of 2006 . our employee stock purchase plan (201cespp 201d) , which has been in effect since january 1 , 1994 , facilitates the purchase by employees of up to 800000 shares of common stock . offerings to employees are made on a quarterly basis . subject to certain limitations , the pur- chase price for each share of common stock is equal to 90% (90 %) of the average of the market prices of the common stock as reported on the new york stock exchange on the first business day of the pur- chase period and the last business day of each month of the pur- chase period . shares of common stock of 14476 , 13281 and 21280 38 royal caribbean cruises ltd . notes to the consolidated financial statements (continued) .

S&P Global (SPGI)

2018

Document ID: *Single_SPGI/2018/page_54.pdf-1*

52 s&p global 2018 annual report cash consideration that would be received for instances when the service components are sold separately . if the fair value to the customer for each service is not objectively determinable , we make our best estimate of the services 2019 stand-alone selling price and record revenue as it is earned over the service period . receivables we record a receivable when a customer is billed or when revenue is recognized prior to billing a customer . for multi- year agreements , we generally invoice customers annually at the beginning of each annual period . the opening balance of accounts receivable , net of allowance for doubtful accounts , was \$ 1319 million as of january 1 , 2018 . contract assets contract assets include unbilled amounts from when the company transfers service to a customer before a customer pays consideration or before payment is due . as of december 31 , 2018 and 2017 , contract assets were \$ 26 million and \$ 17 million , respectively , and are included in accounts receivable in our consolidated balance sheets . unearned revenue we record unearned revenue when cash payments are received or due in advance of our performance . the increase in the unearned revenue balance for the year ended december 31 , 2018 is primarily driven by cash payments received or due in advance of satisfying our performance obligations , offset by \$ 1.5 billion of revenues recognized that were included in the unearned revenue balance at the beginning of the period . remaining performance obligations remaining performance obligations represent the transaction price of contracts for work that has not yet been performed . as of december 31 , 2018 , the aggregate amount of the transaction price allocated to remaining performance obligations was \$ 1.4 billion . we expect to recognize revenue on approximately half and three-quarters of the remaining performance obligations over the next 12 and 24 months , respectively , with the remainder recognized thereafter . we do not disclose the value of unfulfilled performance obligations for (i) contracts with an original expected length of one year or less and (ii) contracts where revenue is a usage-based royalty promised in exchange for a license of intellectual property . costs to obtain a contract we recognize an asset for the incremental costs of obtaining a contract with a customer if we expect the benefit of those costs to be longer than one year . we have determined that certain sales commission programs meet the requirements to be capitalized . total capitalized costs to obtain a contract were \$ 101 million as of december 31 , 2018 , and are included in prepaid and other current assets and other non-current assets on our consolidated balance sheets . the asset will be amortized over a period consistent with the transfer to the customer of the goods or services to which the asset relates , calculated based on the customer term and the average life of the products and services underlying the contracts . the expense is recorded within selling and general expenses . we expense sales commissions when incurred if the amortization period would have been one year or less . these costs are recorded within selling and general expenses . presentation of net periodic pension cost and net periodic postretirement benefit cost during the first quarter of 2018 , we adopted new accounting guidance requiring that net periodic benefit cost for our retirement and postretirement plans other than the service cost component be included outside of operating profit ; these costs are included in other income , net in our consolidated statements of income . the components of other income , net for the year ended december 31 are as follows : assets and liabilities held for sale and discontinued operations assets and liabilities held for sale we classify a disposal group to be sold as held for sale in the period in which all of the following criteria are met : management , having the authority to approve the action , commits to a plan to sell the disposal group ; the disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such disposal group ; an active program to locate a buyer and other actions required to complete the plan to sell the disposal group have been initiated ; the sale of the disposal group is probable , and transfer of the disposal group is expected to qualify for recognition as a completed sale within one year , except if events or circumstances beyond our control extend the period of time required to sell the disposal group beyond one year ; the disposal group is being actively marketed for sale at a price that is reasonable in relation to its current fair value ; and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will

be withdrawn . a disposal group that is classified as held for sale is initially measured at the lower of its carrying value or fair value less any costs to sell . any loss resulting from this measurement is recognized in the period in which the held for sale criteria are met . conversely , gains are not recognized on the sale of a disposal group until the date of sale . (in millions) 2018 2017 2016 other components of net periodic benefit cost \$ (30) \$ (27) \$ (28) .

present value of net minimum lease payments	15,862	356,187

19 . financial instruments : derivatives and hedging financial accounting standards board 2019s statement no . 133 , 201caccounting for derivative instruments and hedging activities , 201d (201csfas 133 201d) which became effective january 1 , 2001 requires the company to recognize all derivatives on the balance sheet at fair value . derivatives that are not hedges must be adjusted to fair value through income . if a derivative is a hedge , depending on the nature of the hedge , f i f t y - t w o s l g r e e n r e a l t y c o r p . .

Snap-on (SNA)

2007

Document ID: Double_SNA/2007/page_47.pdf

2007 annual report 39 corporate snap-on 2019s general corporate expenses totaled \$ 53.8 million in 2006 , up from \$ 46.4 million in 2005 , primarily due to \$ 15.2 million of increased stock-based and performance-based incentive compensation , including \$ 6.3 million from the january 1 , 2006 , adoption of sfas no . 123 (r) . increased expenses in 2006 also included \$ 4.2 million of higher insurance and other costs . these expense increases were partially offset by \$ 9.5 million of benefits from rci initiatives . see note 13 to the consolidated financial statements for information on the company 2019s adoption of sfas no . 123 (r) . financial condition snap-on 2019s growth has historically been funded by a combination of cash provided by operating activities and debt financing . snap-on believes that its cash from operations , coupled with its sources of borrowings , are sufficient to fund its anticipated requirements for working capital , capital expenditures , restructuring activities , acquisitions , common stock repurchases and dividend payments . due to snap-on 2019s credit rating over the years , external funds have been available at a reasonable cost . as of the close of business on february 15 , 2008 , snap-on 2019s long-term debt and commercial paper was rated a3 and p-2 by moody 2019s investors service and a- and a-2 by standard & poor 2019s . snap-on believes that the strength of its balance sheet , combined with its cash flows from operating activities , affords the company the financial flexibility to respond to both internal growth opportunities and those available through acquisitions . the following discussion focuses on information included in the accompanying consolidated balance sheets . snap-on has been focused on improving asset utilization by making more effective use of its investment in certain working capital items . the company assesses management 2019s operating performance and effectiveness relative to those components of working capital , particularly accounts receivable and inventories , that are more directly impacted by operational decisions . as of december 29 , 2007 , working capital (current assets less current liabilities) of \$ 548.2 million was up \$ 117.0 million from \$ 431.2 million as of december 30 , 2006 . the increase in year-over-year working capital primarily reflects higher levels of 201ccash and cash equivalents 201d of \$ 29.6 million , lower 201cnotes payable and current maturities of long-term debt 201d of \$ 27.7 million , and \$ 27.7 million of increased 201caccounts receivable 2013 net of allowances . 201d the following represents the company 2019s working capital position as of december 29 , 2007 , and december 30 , 2006 . (amounts in millions) 2007 2006 .

	2007	2006
-----	-----	-----
cash and cash equivalents	93	63.4
accounts receivable 2013 net of allowances	586.9	559.2
inventories	322.4	323
other current assets	185.1	167.6
total current assets	1,187.4	1,113.2
accounts payable	-171.6	-178.8
notes payable and current maturities of long-term debt	-15.9	-43.6
other current liabilities	-451.7	-459.6
total current liabilities	-639.2	-682
total working capital	548.2	431.2

accounts receivable at the end of 2007 was \$ 586.9 million , up \$ 27.7 million from year-end 2006 levels . the year-over- year increase in accounts receivable primarily reflects the impact of higher sales in the fourth quarter of 2007 and \$ 25.1 million of currency translation . this increase in accounts receivable was partially offset by lower levels of receivables as a result of an improvement in days sales outstanding from 76 days at year-end 2006 to 73 days at year-end 2007. .

State Street (STT)

2001

Document ID: Double_STT/2001/page_36.pdf

an average of 7.1 in 2000 . the top 100 largest clients used an average of 11.3 products in 2001 , up from an average of 11.2 in 2000 . state street benefits significantly from its ability to derive revenue from the transaction flows of clients . this occurs through the management of cash positions , including deposit balances and other short-term investment activities , using state street 2019s balance sheet capacity . significant foreign currency transaction volumes provide potential for foreign exchange trading revenue as well . fee revenue total operating fee revenue was \$ 2.8 billion in 2001 , compared to \$ 2.7 billion in 2000 , an increase of 6% (6 %) . adjusted for the formation of citistreet , the growth in fee revenue was 8% (8 %) . growth in servicing fees of \$ 199million , or 14% (14 %) , was the primary contributor to the increase in fee revenue . this growth primarily reflects several large client wins installed starting in the latter half of 2000 and continuing throughout 2001 , and strength in fee revenue from securities lending . declines in equity market values worldwide offset some of the growth in servicing fees . management fees were down 5% (5 %) , adjusted for the formation of citistreet , reflecting the decline in the worldwide equity markets . foreign exchange trading revenue was down 5% (5 %) , reflecting lower currency volatility , and processing fees and other revenue was up 21% (21 %) , primarily due to gains on the sales of investment securities . servicing and management fees are a function of several factors , including the mix and volume of assets under custody and assets under management , securities positions held , and portfolio transactions , as well as types of products and services used by clients . state street estimates , based on a study conducted in 2000 , that a 10% (10 %) increase or decrease in worldwide equity values would cause a corresponding change in state street 2019s total revenue of approximately 2% (2 %) . if bond values were to increase or decrease by 10% (10 %) , state street would anticipate a corresponding change of approximately 1% (1 %) in its total revenue . securities lending revenue in 2001 increased approximately 40% (40 %) over 2000 . securities lending revenue is reflected in both servicing fees and management fees . securities lending revenue is a function of the volume of securities lent and interest rate spreads . while volumes increased in 2001 , the year-over-year increase is primarily due to wider interest rate spreads resulting from the unusual occurrence of eleven reductions in the u.s . federal funds target rate during 2001 .

fee revenue (dollars in millions) 2001 (1) 2000 1999 (2) change adjusted change 00-01 (3) .

Synopsys (SNPS)

2003

Document ID: Single_SNPS/2003/page_39.pdf-1

the following table presents the estimated future amortization of deferred stock compensation reported in both cost of revenue and operating expenses : fiscal year (in thousands) .

	(in thousands)
2004	3,677
2005	2,403
2006	840
2007	250
total estimated future amortization of deferred stock compensation	7,170

impairment of intangible assets . in fiscal 2002 , we recognized an aggregate impairment charge of \$ 3.8 million to reduce the amount of certain intangible assets associated with prior acquisitions to their estimated fair value . approximately \$ 3.7 million and \$ 0.1 million are included in integration expense and amortization of intangible assets , respectively , on the consolidated statement of operations . the impairment charge is primarily attributable to certain technology acquired from and goodwill related to the acquisition of stanza , inc . (stanza) in 1999 . during fiscal 2002 , we determined that we would not allocate future resources to assist in the market growth of this technology as products acquired in the merger with avant! provided customers with superior capabilities . as a result , we do not anticipate any future sales of the stanza product . in fiscal 2001 , we recognized an aggregate impairment charge of \$ 2.2 million to reduce the amount of certain intangible assets associated with prior acquisitions to their estimated fair value . approximately \$ 1.8 million and \$ 0.4 million are included in cost of revenues and amortization of intangible assets , respectively , on the consolidated statement of operations . the impairment charge is attributable to certain technology acquired from and goodwill related to the acquisition of eagle design automation , inc . (eagle) in 1997 . during fiscal 2001 , we determined that we would not allocate future resources to assist in the market growth of this technology . as a result , we do not anticipate any future sales of the eagle product . there were no impairment charges during fiscal 2003 . other (expense) income , net . other income , net was \$ 24.1 million in fiscal 2003 and consisted primarily of (i) realized gain on investments of \$ 20.7 million ; (ii) rental income of \$ 6.3 million ; (iii) interest income of \$ 5.2 million ; (iv) impairment charges related to certain assets in our venture portfolio of (\$ 4.5) million ; (vii) foundation contributions of (\$ 2.1) million ; and (viii) interest expense of (\$ 1.6) million . other (expense) , net of other income was (\$ 208.6) million in fiscal 2002 and consisted primarily of (i) (\$ 240.8) million expense due to the settlement of the cadence design systems , inc . (cadence) litigation ; (ii) (\$ 11.3) million in impairment charges related to certain assets in our venture portfolio ; (iii) realized gains on investments of \$ 22.7 million ; (iv) a gain of \$ 3.1 million for the termination fee on the ikos systems , inc . (ikos) merger agreement ; (v) rental income of \$ 10.0 million ; (vi) interest income of \$ 8.3 million ; and (vii) and other miscellaneous expenses including amortization of premium forwards and foreign exchange gains and losses recognized during the fiscal year of (\$ 0.6) million . other income , net was \$ 83.8 million in fiscal 2001 and consisted primarily of (i) a gain of \$ 10.6 million on the sale of our silicon libraries business to artisan components , inc . ; (ii) (\$ 5.8) million in impairment charges related to certain assets in our venture portfolio ; (iii) realized gains on investments of \$ 55.3 million ; (iv) rental income of \$ 8.6 million ; (v) interest income of \$ 12.8 million ; and (vi) other miscellaneous income including amortization of premium forwards and foreign exchange gains and losses recognized during the fiscal year of \$ 2.3 million . termination of agreement to acquire ikos systems , inc . on july 2 , 2001 , we entered into an agreement and plan of merger and reorganization (the ikos merger agreement) with ikos systems , inc . the ikos merger agreement provided for the acquisition of all outstanding shares of ikos common stock by synopsys .

Sysco (SYY)

2006

Document ID: Double_SYY/2006/page_68.pdf

6 . restricted cash sysco is required by its insurers to collateralize a part of the self-insured portion of its workers 2019 compensation and liability claims . sysco has chosen to satisfy these collateral requirements by depositing funds in insurance trusts or by issuing letters of credit . in addition , for certain acquisitions , sysco has placed funds into escrow to be disbursed to the sellers in the event that specified operating results are attained or contingencies are resolved . escrowed funds related to certain acquisitions in the amount of \$ 1700000 were released during fiscal 2006 , which included \$ 800000 that was disbursed to sellers . a summary of restricted cash balances appears below: .

	july 1 2006	july 2 2005
-----	-----	-----
funds deposited in insurance trusts	82,653,000	80,410,000
escrow funds related to acquisitions	19,621,000	21,321,000
total	102,274,000	101,731,000

funds deposited in insurance trusts***** \$ 82653000 \$ 80410000 escrow funds related to acquisitions ***** 19621000 21321000

total***** \$ 102274000 \$ 101731000 7 . derivative financial instruments sysco manages its debt portfolio by targeting an overall desired position of fixed and floating rates and may employ interest rate swaps from time to time to achieve this goal . the company does not use derivative financial instruments for trading or speculative purposes . during fiscal years 2003 , 2004 and 2005 , the company entered into various interest rate swap agreements designated as fair value hedges of the related debt . the terms of these swap agreements and the hedged items were such that the hedges were considered perfectly effective against changes in the fair value of the debt due to changes in the benchmark interest rates over their terms . as a result , the shortcut method provided by sfas no . 133 , 2018 2018accounting for derivative instruments and hedging activities , 2019 2019 was applied and there was no need to periodically reassess the effectiveness of the hedges during the terms of the swaps . interest expense on the debt was adjusted to include payments made or received under the hedge agreements . the fair value of the swaps was carried as an asset or a liability on the consolidated balance sheet and the carrying value of the hedged debt was adjusted accordingly . there were no fair value hedges outstanding as of july 1 , 2006 or july 2 , 2005 . the amount received upon termination of fair value hedge swap agreements was \$ 5316000 and \$ 1305000 in fiscal years 2005 and 2004 , respectively . there were no terminations of fair value hedge swap agreements in fiscal 2006 . the amount received upon termination of swap agreements is reflected as an increase in the carrying value of the related debt to reflect its fair value at termination . this increase in the carrying value of the debt is amortized as a reduction of interest expense over the remaining term of the debt . in march 2005 , sysco entered into a forward-starting interest rate swap with a notional amount of \$ 350000000 . in accordance with sfas no . 133 , the company designated this derivative as a cash flow hedge of the variability in the cash outflows of interest payments on \$ 350000000 of the september 2005 forecasted debt issuance due to changes in the benchmark interest rate . the fair value of the swap as of july 2 , 2005 was (\$ 32584000) , which is reflected in accrued expenses on the consolidated balance sheet , with the corresponding amount reflected as a loss , net of tax , in other comprehensive income (loss) . in september 2005 , in conjunction with the issuance of the 5.375% (5.375 %) senior notes , sysco settled the \$ 350000000 notional amount forward-starting interest rate swap . upon settlement , sysco paid cash of \$ 21196000 , which represented the fair value of the swap agreement at the time of settlement . this amount is being amortized as interest expense over the 30-year term of the debt , and the unamortized balance is reflected as a loss , net of tax , in other comprehensive income (loss) . in the normal course of business , sysco enters into forward purchase

agreements for the procurement of fuel , electricity and product commodities related to sysco 2019s business . certain of these agreements meet the definition of a derivative and qualify for the normal purchase and sale exemption under relevant accounting literature . the company has elected to use this exemption for these agreements and thus they are not recorded at fair value .

does not believe are in our and our stockholders 2019 best interest . the rights plan is intended to protect stockholders in the event of an unfair or coercive offer to acquire the company and to provide our board of directors with adequate time to evaluate unsolicited offers . the rights plan may prevent or make takeovers or unsolicited corporate transactions with respect to our company more difficult , even if stockholders may consider such transactions favorable , possibly including transactions in which stockholders might otherwise receive a premium for their shares . item 1b . unresolved staff comments item 2 . properties as of december 31 , 2016 , our significant properties used in connection with switching centers , data centers , call centers and warehouses were as follows: .

	approximate number	approximate size in square feet
switching centers	57	1,400,000
data centers	8	600,000
call center	16	1,300,000
warehouses	16	500,000

as of december 31 , 2016 , we leased approximately 60000 cell sites . as of december 31 , 2016 , we leased approximately 2000 t-mobile and metropcs retail locations , including stores and kiosks ranging in size from approximately 100 square feet to 17000 square feet . we currently lease office space totaling approximately 950000 square feet for our corporate headquarters in bellevue , washington . we use these offices for engineering and administrative purposes . we also lease space throughout the u.s. , totaling approximately 1200000 square feet as of december 31 , 2016 , for use by our regional offices primarily for administrative , engineering and sales purposes . item 3 . legal proceedings see note 12 2013 commitments and contingencies of the notes to the consolidated financial statements included in part ii , item 8 of this form 10-k for information regarding certain legal proceedings in which we are involved . item 4 . mine safety disclosures part ii . item 5 . market for registrant 2019s common equity , related stockholder matters and issuer purchases of equity securities market information our common stock is traded on the nasdaq global select market of the nasdaq stock market llc (201cnasdaq 201d) under the symbol 201ctmus . 201d as of december 31 , 2016 , there were 309 registered stockholders of record of our common stock , but we estimate the total number of stockholders to be much higher as a number of our shares are held by brokers or dealers for their customers in street name.

T. Rowe Price (TROW)

2008

Document ID: Double_TROW/2008/page_23.pdf

investment advisory revenues earned on the other investment portfolios that we manage decreased \$ 3.6 million to \$ 522.2 million . average assets in these portfolios were \$ 142.1 billion during 2008 , up slightly from \$ 141.4 billion in 2007 . these minor changes , each less than 1% (1 %) , are attributable to the timing of declining equity market valuations and cash flows among our separate account and sub-advised portfolios . net inflows , primarily from institutional investors , were \$ 13.2 billion during 2008 , including the \$ 1.3 billion transferred from the retirement funds to target-date trusts . decreases in market valuations , net of income , lowered our assets under management in these portfolios by \$ 55.3 billion during 2008 . administrative fees increased \$ 5.8 million to \$ 353.9 million , primarily from increased costs of servicing activities for the mutual funds and their investors . changes in administrative fees are generally offset by similar changes in related operating expenses that are incurred to provide services to the funds and their investors . our largest expense , compensation and related costs , increased \$ 18.4 million or 2.3% (2.3 %) from 2007 . this increase includes \$ 37.2 million in salaries resulting from an 8.4% (8.4 %) increase in our average staff count and an increase of our associates 2019 base salaries at the beginning of the year . at december 31 , 2008 , we employed 5385 associates , up 6.0% (6.0 %) from the end of 2007 , primarily to add capabilities and support increased volume-related activities and other growth over the past few years . over the course of 2008 , we slowed the growth of our associate base from earlier plans and the prior year . we do not expect the number of our associates to increase in 2009 . we also reduced our annual bonuses \$ 27.6 million versus the 2007 year in response to recent and ongoing unfavorable financial market conditions that negatively impacted our operating results . the balance of the increase is attributable to higher employee benefits and employment- related expenses , including an increase of \$ 5.7 million in stock-based compensation . entering 2009 , we did not increase the salaries of our highest paid associates . after higher spending during the first quarter of 2008 versus 2007 , investor sentiment in the uncertain and volatile market environment caused us to reduce advertising and promotion spending , which for the year was down \$ 3.8 million from 2007 . we expect to reduce these expenditures for 2009 versus 2008 , and estimate that spending in the first quarter of 2009 will be down about \$ 5 million from the fourth quarter of 2008 . we vary our level of spending based on market conditions and investor demand as well as our efforts to expand our investor base in the united states and abroad . occupancy and facility costs together with depreciation expense increased \$ 18 million , or 12% (12 %) compared to 2007 . we have been expanding and renovating our facilities to accommodate the growth in our associates to meet business demands . other operating expenses were up \$ 3.3 million from 2007 . we increased our spending \$ 9.8 million , primarily for professional fees and information and other third-party services . reductions in travel and charitable contributions partially offset these increases . our non-operating investment activity resulted in a net loss of \$ 52.3 million in 2008 as compared to a net gain of \$ 80.4 million in 2007 . this change of \$ 132.7 million is primarily attributable to losses recognized in 2008 on our investments in sponsored mutual funds , which resulted from declines in financial market values during the year . .

	2007	2008	change
capital gain distributions received	22.1	5.6	-16.5
other than temporary impairments recognized	-3	-91.3	-91
net gains (losses) realized on funddispositions	5.5	-4.5	-10
net gain (loss) recognized on fund holdings	27.3	-90.2	-117.5

we recognized other than temporary impairments of our investments in sponsored mutual funds because of declines in fair value below cost for an extended period . the significant declines in fair value below cost that occurred in 2008 were generally attributable to the adverse and ongoing market conditions discussed in the background section on page 18 of this report . see also the discussion on page 24 of critical accounting policies

for other than temporary impairments of available-for-sale securities . in addition , income from money market and bond fund holdings was \$ 19.3 million lower than in 2007 due to the significantly lower interest rate environment of 2008 . lower interest rates also led to substantial capital appreciation on our \$ 40 million holding of u.s . treasury notes that we sold in december 2008 at a \$ 2.6 million gain . management 2019s discussion & analysis 21 .

assumed health care cost trend rates for the u.s . retiree health care benefit plan as of december 31 are as follows: .

	2017	2016
-----	-----	-----
assumed health care cost trend rate for next year	-7.5	-6.75
ultimate trend rate	-5	-5
year in which ultimate trend rate is reached	2,028	2,024

a one percentage point increase or decrease in health care cost trend rates over all future periods would have increased or decreased the accumulated postretirement benefit obligation for the u.s . retiree health care benefit plan as of december 31 , 2017 , by \$ 1 million . the service cost and interest cost components of 2017 plan expense would have increased or decreased by less than \$ 1 million . deferred compensation arrangements we have a deferred compensation plan that allows u.s . employees whose base salary and management responsibility exceed a certain level to defer receipt of a portion of their cash compensation . payments under this plan are made based on the participant 2019s distribution election and plan balance . participants can earn a return on their deferred compensation based on notional investments in the same investment funds that are offered in our defined contribution plans . as of december 31 , 2017 , our liability to participants of the deferred compensation plans was \$ 255 million and is recorded in other long-term liabilities on our consolidated balance sheets . this amount reflects the accumulated participant deferrals and earnings thereon as of that date . as of december 31 , 2017 , we held \$ 236 million in mutual funds related to these plans that are recorded in long-term investments on our consolidated balance sheets , and serve as an economic hedge against changes in fair values of our other deferred compensation liabilities . we record changes in the fair value of the liability and the related investment in sg&a as discussed in note 8 . 11 . debt and lines of credit short-term borrowings we maintain a line of credit to support commercial paper borrowings , if any , and to provide additional liquidity through bank loans . as of december 31 , 2017 , we had a variable-rate revolving credit facility from a consortium of investment-grade banks that allows us to borrow up to \$ 2 billion until march 2022 . the interest rate on borrowings under this credit facility , if drawn , is indexed to the applicable london interbank offered rate (libor) . as of december 31 , 2017 , our credit facility was undrawn and we had no commercial paper outstanding . long-term debt we retired \$ 250 million of maturing debt in march 2017 and another \$ 375 million in june 2017 . in may 2017 , we issued an aggregate principal amount of \$ 600 million of fixed-rate , long-term debt . the offering consisted of the reissuance of \$ 300 million of 2.75% (2.75 %) notes due in 2021 at a premium and the issuance of \$ 300 million of 2.625% (2.625 %) notes due in 2024 at a discount . we incurred \$ 3 million of issuance and other related costs . the proceeds of the offerings were \$ 605 million , net of the original issuance discount and premium , and were used for the repayment of maturing debt and general corporate purposes . in november 2017 , we issued a principal amount of \$ 500 million of fixed-rate , long-term debt due in 2027 . we incurred \$ 3 million of issuance and other related costs . the proceeds of the offering were \$ 494 million , net of the original issuance discount , and were used for general corporate purposes . in may 2016 , we issued a principal amount of \$ 500 million of fixed-rate , long-term debt due in 2022 . we incurred \$ 3 million of issuance and other related costs . the proceeds of the offering were \$ 499 million , net of the original issuance discount , and were used toward the repayment of a portion of \$ 1.0 billion of maturing debt retired in may 2016 . in may 2015 , we issued a principal amount of \$ 500 million of fixed-rate , long-term debt due in 2020 . we incurred \$ 3 million of issuance and other related costs . the proceeds of the offering were \$ 498 million , net of the original issuance discount , and were used toward the repayment of a portion of the debt that matured in august 2015 . we retired \$ 250 million of maturing debt in april 2015 and

another \$ 750 million in august 2015 . texas instruments 2022 2017 form 10-k 51 .

Tractor Supply Company (TSCO)

2017

Document ID: Double_TSCO/2017/page_68.pdf

the company entered into agreements with various governmental entities in the states of kentucky , georgia and tennessee to implement tax abatement plans related to its distribution center in franklin , kentucky (simpson county) , its distribution center in macon , georgia (bibb county) , and its store support center in brentwood , tennessee (williamson county) . the tax abatement plans provide for reduction of real property taxes for specified time frames by legally transferring title to its real property in exchange for industrial revenue bonds . this property was then leased back to the company . no cash was exchanged . the lease payments are equal to the amount of the payments on the bonds . the tax abatement period extends through the term of the lease , which coincides with the maturity date of the bonds . at any time , the company has the option to purchase the real property by paying off the bonds , plus \$ 1 . the terms and amounts authorized and drawn under each industrial revenue bond agreement are outlined as follows , as of december 30 , 2017 : bond term bond authorized amount (in millions) amount drawn (in millions) .

	bond term	bond authorized amount (in millions)	amount drawn (in millions)
franklin kentucky distribution center	30	54	51.8
macon georgia distribution center	15	58	49.9
brentwood tennessee store support center	10	78	75.3

due to the form of these transactions , the company has not recorded the bonds or the lease obligation associated with the sale lease-back transaction . the original cost of the company 2019s property and equipment is recorded on the balance sheet and is being depreciated over its estimated useful life . capitalized software costs the company capitalizes certain costs related to the acquisition and development of software and amortizes these costs using the straight-line method over the estimated useful life of the software , which is three to five years . computer software consists of software developed for internal use and third-party software purchased for internal use . a subsequent addition , modification or upgrade to internal-use software is capitalized to the extent that it enhances the software 2019s functionality or extends its useful life . these costs are included in computer software and hardware in the accompanying consolidated balance sheets . certain software costs not meeting the criteria for capitalization are expensed as incurred . store closing costs the company regularly evaluates the performance of its stores and periodically closes those that are under-performing . the company records a liability for costs associated with an exit or disposal activity when the liability is incurred , usually in the period the store closes . store closing costs were not significant to the results of operations for any of the fiscal years presented . leases assets under capital leases are amortized in accordance with the company 2019s normal depreciation policy for owned assets or over the lease term , if shorter , and the related charge to operations is included in depreciation expense in the consolidated statements of income . certain operating leases include rent increases during the lease term . for these leases , the company recognizes the related rental expense on a straight-line basis over the term of the lease (which includes the pre-opening period of construction , renovation , fixturing and merchandise placement) and records the difference between the expense charged to operations and amounts paid as a deferred rent liability . the company occasionally receives reimbursements from landlords to be used towards improving the related store to be leased . leasehold improvements are recorded at their gross costs , including items reimbursed by landlords . related reimbursements are deferred and amortized on a straight-line basis as a reduction of rent expense over the applicable lease term . note 2 - share-based compensation : share-based compensation includes stock option and restricted stock unit awards and certain transactions under the company 2019s espp . share-based compensation expense is recognized based on the grant date fair value of all stock option and restricted stock unit awards plus a discount on shares purchased by employees as a part of the espp . the discount under the espp represents the difference between the purchase date market value and the employee

2019s purchase price. .

Under Armour (Class C) (UA)

2005

Document ID: Single_UA/2005/page_33.pdf-2

2022 selling costs increased \$ 5.4 million to \$ 17.1 million in 2005 from \$ 11.7 million in 2004 . this increase was due to increased headcount in our sales force and startup costs associated with our international growth initiatives . as a percentage of net revenues , selling costs increased to 6.1% (6.1 %) in 2005 from 5.7% (5.7 %) in 2004 due to the increased costs described above . 2022 payroll and related costs (excluding those specifically related to marketing and selling) increased \$ 8.6 million to \$ 26.9 million in 2005 , from \$ 18.3 million in 2004 . the increase during 2005 was due to the following initiatives : we began to build our team to design and source our footwear line , which we expect to offer for the fall 2006 season , we added personnel to our information technology team to support our company-wide initiative to upgrade our information systems , we incurred equity compensation costs , we added personnel to operate our 3 new retail outlet stores , and we invested in the personnel needed to enhance our compliance function and operate as a public company . as a percentage of net revenues , payroll and related costs (excluding those specifically related to marketing and selling) increased to 9.6% (9.6 %) in 2005 from 8.9% (8.9 %) in 2004 due to the items described above . 2022 other corporate costs increased \$ 7.2 million to \$ 25.5 million in 2005 , from \$ 18.3 million in 2004 . this increase was attributable to higher costs in support of our footwear initiative , freight and duty related to increased canada sales , expansion of our leased corporate office space and distribution facility , and necessary costs associated with being a public company . as a percentage of net revenues , other corporate costs were 9.1% (9.1 %) in 2005 , which is a slight increase from 8.9% (8.9 %) in 2004 due to the items noted above . income from operations increased \$ 10.5 million , or 41.4% (41.4 %) , to \$ 35.9 million in 2005 from \$ 25.4 million in 2004 . income from operations as a percentage of net revenues increased to 12.7% (12.7 %) in 2005 from 12.4% (12.4 %) in 2004 . this increase was a result of an increase in gross margin partially offset by an increase in selling , general and administrative expenses as a percentage of net revenues . interest expense , net increased \$ 1.6 million to \$ 2.9 million in 2005 from \$ 1.3 million in 2004 . this increase was primarily due to higher average borrowings and a higher effective interest rate under our revolving credit facility prior to being repaid in november 2005 with proceeds from the initial public offering . provision for income taxes increased \$ 5.5 million to \$ 13.3 million in 2005 from \$ 7.8 million in 2004 . for the year ended december 31 , 2005 our effective tax rate was 40.2% (40.2 %) compared to 32.3% (32.3 %) in 2004 . this increase was primarily due to an increase in our effective state tax rate , which reflected reduced state tax credits earned as a percentage of income before taxes . net income increased \$ 3.4 million to \$ 19.7 million in 2005 from \$ 16.3 million in 2004 , as a result of the factors described above . year ended december 31 , 2004 compared to year ended december 31 , 2003 net revenues increased \$ 89.8 million , or 77.8% (77.8 %) , to \$ 205.2 million in 2004 from \$ 115.4 million in 2003 . the increase was a result of increases in both our net sales and license revenues as noted in the product category table below . .

	year ended december 31 , 2004	year ended december 31 , 2003	year ended december 31 , \$ change	year ended december 31 , % (%) change

Union Pacific (UNP)

2006

Document ID: Double_UNP/2006/page_33.pdf

increased over 4% (4 %) in 2005 , costs for trucking services provided by intermodal carriers remained flat as we substantially reduced expenses associated with network inefficiencies . higher diesel fuel prices increased sales and use taxes in 2005 , which resulted in higher state and local taxes . other contract expenses for equipment maintenance and other services increased in 2005 . the 2005 january west coast storm and hurricanes katrina and rita also contributed to higher expenses in 2005 (net of insurance settlements received) . partially offsetting these increases was a reduction in relocation expenses as we incurred higher relocation costs associated with moving support personnel to omaha , nebraska during 2004 . non-operating items

millions of dollars 2006 2005 2004 % (%) change 2006 v 2005 % (%) change 2005 v 2004 .

	2006	2005	2004	% (%) change 2006 v 2005	% (%) change 2005 v 2004
other income	118	145	88	-19	-65
interest expense	-477	-504	-527	-5	-4
income taxes	-919	-410	-252	124	63

other income 2013 lower net gains from non-operating asset sales and higher expenses due to rising interest rates associated with our sale of receivables program resulted in a reduction in other income in 2006 , which was partially offset by higher rental income for the use of our right-of-way (including 2006 settlements of rate disputes from prior years) and cash investment returns due to higher interest rates . in 2005 , other income increased largely as a result of higher gains from real estate sales partially offset by higher expenses due to rising interest rates associated with our sale of receivables program . interest expense 2013 lower interest expense in 2006 and 2005 was primarily due to declining weighted-average debt levels of \$ 7.1 billion , \$ 7.8 billion , and \$ 8.1 billion in 2006 , 2005 , and 2004 , respectively . a higher effective interest rate of 6.7% (6.7 %) in 2006 , compared to 6.5% (6.5 %) in both 2005 and 2004 , partially offset the effects of the declining debt level . income taxes 2013 income tax expense was \$ 509 million higher in 2006 than 2005 . higher pre-tax income resulted in additional taxes of \$ 414 million and \$ 118 million of the increase resulted from the one-time reduction in 2005 described below . our effective tax rate was 36.4% (36.4 %) and 28.6% (28.6 %) in 2006 and 2005 , respectively . income taxes were greater in 2005 than 2004 due to higher pre-tax income partially offset by a previously reported reduction in income tax expense . in our quarterly report on form 10-q for the quarter ended june 30 , 2005 , we reported that the corporation analyzed the impact that final settlements of pre-1995 tax years had on previously recorded estimates of deferred tax assets and liabilities . the completed analysis of the final settlements for pre-1995 tax years , along with internal revenue service examination reports for tax years 1995 through 2002 were considered , among other things , in a review and re-evaluation of the corporation 2019s estimated deferred tax assets and liabilities as of september 30 , 2005 , resulting in an income tax expense reduction of \$ 118 million in .

transaction with brookdale on january 29 , 2004 , the company entered into 14 definitive purchase agreements (each , a 201cbrookdale purchase agreement 201d) with certain affiliates of brookdale living communities , inc . (201cbrookdale 201d) to purchase (each such purchase , a 201cbrookdale acquisition 201d) a total of 14 independent living or assisted living facilities (each , a 201cbrookdale facility 201d) for an aggregate purchase price of \$ 115 million.affiliates of brookdale have agreed to lease and operate the brookdale facilities pursuant to one or more triple-net leases.all of the brookdale leases , which have an initial term of 15 years , will be guaranteed by brookdale and provide for aggregated annual base rent of approximately \$ 10 million , escalating each year by the greater of (i) 1.5% (1.5 %) or (ii) 75% (75 %) of the consumer price index . the company expects to fund the brookdale acquisitions by assuming an aggregate of approximately \$ 41 million of non-recourse property level debt on certain of the brookdale facilities , with the balance to be paid from cash on hand and/or draws on the revolving credit facility.the property level debt encumbers seven of the brookdale facilities . on january 29 , 2004 , the company completed the acquisitions of four brookdale facilities for an

aggregate purchase price of \$ 37 million. the company 2019s acquisition of the remaining ten brookdale facilities is expected to be completed shortly , subject to customary closing conditions . however , the consummation of each such brookdale acquisition is not conditioned upon the consummation of any other such brookdale acquisition and there can be no assurance which , if any , of such remaining brookdale acquisitions will be consummated or when they will be consummated . transactions with trans healthcare , inc . on november 4 , 2002 , the company , through its wholly owned subsidiary ventas realty , completed a \$ 120.0 million transaction (the 201cthi transaction 201d) with trans healthcare , inc. , a privately owned long-term care and hospital company (201cthi 201d) . the thi transaction was structured as a \$ 53.0 million sale leaseback trans- action (the 201cthi sale leaseback 201d) and a \$ 67.0 million loan (the 201cthi loan 201d) , comprised of a first mortgage loan (the 201cthi senior loan 201d) and a mezzanine loan (the 201cthi mezzanine loan 201d) . following a sale of the thi senior loan in december 2002 (see below) , the company 2019s investment in thi was \$ 70.0 million . as part of the thi sale leaseback ventas realty purchased 5 properties and is leasing them back to thi under a 201ctriple-net 201d master lease (the 201cthi master lease 201d) . the properties subject to the sale leaseback are four skilled nursing facilities and one continuing care retirement community. the thi master lease , which has an initial term of ten years , provides for annual base rent of \$ 5.9 million. the thi master lease provides that if thi meets specified revenue parameters , annual base rent will escalate each year by the greater of (i) three percent or (ii) 50% (50 %) of the consumer price index . ventas , inc . page 37 annual report 2003 .

(1) the amount of the class usa common stock outstanding prior to the true-up is net of 131592008 shares held by wholly-owned subsidiaries of the company . (2) the amount of the class b common stock outstanding subsequent to the true-up is net of 123525418 shares held by wholly-owned subsidiaries of the company . also , the company issued 51844393 additional shares of class c (series ii) common stock at a price of \$ 44 per share in exchange for a subscription receivable from visa europe . this issuance and subscription receivable were recorded as offsetting entries in temporary equity on the company 2019s consolidated balance sheet at september 30 , 2008 . initial public offering in march 2008 , the company completed its ipo with the issuance of 446600000 shares of class a common stock at a net offering price of \$ 42.77 (the ipo price of \$ 44.00 per share of class a common stock , less underwriting discounts and commissions of \$ 1.23 per share) . the company received net proceeds of \$ 19.1 billion as a result of the ipo .

Vornado Realty Trust (VNO)

2003

Document ID: Double_VNO/2003/page_102.pdf

vornado realty trust 77 cash flows the company expects to contribute \$ 959000 to the plans in 2004 . 11 . leases as lessor : the company leases space to tenants under operating leases . most of the leases provide for the payment of fixed base rentals payable monthly in advance . shopping center leases provide for the pass-through to tenants of real estate taxes , insurance and maintenance . office building leases generally require the tenants to reimburse the company for operating costs and real estate taxes above their base year costs . shopping center leases also provide for the payment by the lessee of additional rent based on a percentage of the tenants 2019 sales . as of december 31 , 2003 , future base rental revenue under non-cancelable operating leases , excluding rents for leases with an original term of less than one year and rents resulting from the exercise of renewal options , is as follows : (amounts in thousands) year ending december 31: .

	\$ 1084934
-----	-----
2005	968,162
2006	846,345
2007	770,228
2008	608,267
thereafter	3,423,083

these amounts do not include rentals based on tenants 2019 sales . these percentage rents approximated \$ 3662000 , \$ 1832000 , and \$ 2157000 , for the years ended december 31 , 2003 , 2002 , and 2001 . except for the u.s . government , which accounted for 12.7% (12.7 %) of the company 2019s revenue , none of the company 2019s tenants represented more than 10% (10 %) of total revenues for the year ended december 31 , 2003 . former bradlees locations property rentals for the year ended december 31 , 2003 , include \$ 5000000 of additional rent which , effective december 31 , 2002 , was re-allocated to the former bradlees locations in marlton , turnersville , bensalem and broomall and is payable by stop & shop , pursuant to the master agreement and guaranty , dated may 1 , 1992 . this amount is in addition to all other rent guaranteed by stop & shop for the former bradlees locations . on january 8 , 2003 , stop & shop filed a complaint with the united states district court claiming the company has no right to reallocate and therefore continue to collect the \$ 5000000 of annual rent from stop & shop because of the expiration of the east brunswick , jersey city , middletown , union and woodbridge leases to which the \$ 5000000 of additional rent was previously allocated . the company believes the additional rent provision of the guaranty expires at the earliest in 2012 and will vigorously oppose stop & shop 2019s complaint . in february 2003 , koninklijke ahold nv , parent of stop & shop , announced that it overstated its 2002 and 2001 earnings by at least \$ 500 million and is under investigation by the u.s . justice department and securities and exchange commission . the company cannot predict what effect , if any , this situation may have on stop & shop 2019s ability to satisfy its obligation under the bradlees guarantees and rent for existing stop & shop leases aggregating approximately \$ 10.5 million per annum . notes to consolidated financial statements sr-176_fin_l02p53_82v1.qxd 4/8/04 2:42 pm page 77 .

Walmart (WMT)

2018

Document ID: Single_WMT/2018/page_46.pdf-2

continued investments in ecommerce and technology . the increase in operating expenses as a percentage of net sales for fiscal 2017 was partially offset by the impact of store closures in the fourth quarter of fiscal 2016 . membership and other income was relatively flat for fiscal 2018 and increased \$ 1.0 billion a0for fiscal 2017 , when compared to the same period in the previous fiscal year . while fiscal 2018 included a \$ 387 million gain from the sale of suburbia , a \$ 47 million gain from a land sale , higher recycling income from our sustainability efforts and higher membership income from increased plus member penetration at sam's club , these gains were less than gains recognized in fiscal 2017 . fiscal 2017 included a \$ 535 million gain from the sale of our yihaodian business and a \$ 194 million gain from the sale of shopping malls in chile . for fiscal 2018 , loss on extinguishment of debt was a0\$ 3.1 billion , due to the early extinguishment of long-term debt which allowed us to retire higher rate debt to reduce interest expense in future periods . our effective income tax rate was 30.4% (30.4 %) for fiscal 2018 and 30.3% (30.3 %) for both fiscal 2017 and 2016 . although relatively consistent year-over-year , our effective income tax rate may fluctuate from period to period as a result of factors including changes in our assessment of certain tax contingencies , valuation allowances , changes in tax laws , outcomes of administrative audits , the impact of discrete items and the mix of earnings among our u.s . operations and international operations . the reconciliation from the u.s . statutory rate to the effective income tax rates for fiscal 2018 , 2017 and 2016 is presented in note 9 in the "notes to consolidated financial statements" and describes the impact of the enactment of the tax cuts and jobs act of 2017 (the "tax act") to the fiscal 2018 effective income tax rate . as a result of the factors discussed above , we reported \$ 10.5 billion and \$ 14.3 billion of consolidated net income for fiscal 2018 and 2017 , respectively , which represents a decrease of \$ 3.8 billion and \$ 0.8 billion for fiscal 2018 and 2017 , respectively , when compared to the previous fiscal year . diluted net income per common share attributable to walmart ("eps") was \$ 3.28 and \$ 4.38 for fiscal 2018 and 2017 , respectively . walmart u.s . segment .

	fiscal years ended january 31 , 2018	fiscal years ended january 31 , 2017	fiscal years ended january 31 , 2016
net sales	318,477	307,833	298,378
percentage change from comparable period	-3.5	-3.2	-3.6
calendar comparable sales increase	-2.1	-1.6	-1
operating income	17,869	17,745	19,087
operating income as a percentage of net sales	-5.6	-5.8	-6.4
unit counts at period end	4,761	4,672	4,574
retail square feet at period end	705	699	690

net sales for the walmart u.s . segment increased \$ 10.6 billion or 3.5% (3.5 %) and \$ 9.5 billion or 3.2% (3.2 %) for fiscal 2018 and 2017 , respectively , when compared to the previous fiscal year . the increases in net sales were primarily due to increases in comparable store sales of 2.1% (2.1 %) and 1.6% (1.6 %) for fiscal 2018 and 2017 , respectively , and year-over-year growth in retail square feet of 0.7% (0.7 %) and 1.4% (1.4 %) for fiscal 2018 and 2017 , respectively . additionally , for fiscal 2018 , sales generated from ecommerce acquisitions further contributed to the year-over-year increase . gross profit rate decreased 24 basis points for fiscal 2018 and increased 24 basis points for fiscal 2017 , when compared to the previous fiscal year . for fiscal 2018 , the decrease was primarily due to strategic price investments and the mix impact from ecommerce . partially offsetting the negative factors for fiscal 2018 was the positive impact of savings from procuring merchandise . for fiscal 2017 , the increase in gross profit rate was primarily due to improved margin in food and consumables , including the impact of savings in procuring merchandise and lower transportation expense from lower fuel costs . operating expenses as a percentage of segment net sales was relatively flat for fiscal 2018 and increased 101 basis points for fiscal 2017 , when compared to the previous fiscal year . fiscal 2018 and fiscal 2017 included charges related to discontinued real estate projects of \$ 244 million and \$ 249 million , respectively . for fiscal 2017 , the increase was primarily driven by an increase in wage expense due to the investment in the associate wage structure ; the charge related to discontinued real estate projects ; and

investments in digital retail and technology . the increase in operating expenses as a percentage of segment net sales for fiscal 2017 was partially offset by the impact of store closures in fiscal 2016 . as a result of the factors discussed above , segment operating income increased \$ 124 million for fiscal 2018 and decreased \$ 1.3 billion for fiscal 2017 , respectively. .

Welltower (WELL)

2016

Document ID: Double_WELL/2016/page_61.pdf

item 7 . management 2019s discussion and analysis of financial condition and results of operations the following discussion and analysis is based primarily on the consolidated financial statements of welltower inc . for the periods presented and should be read together with the notes thereto contained in this annual report on form 10-k . other important factors are identified in 201citem 1 2014 business 201d and 201citem 1a 2014 risk factors 201d above . executive summary company overview welltower inc . (nyse : hcn) , an s&p 500 company headquartered in toledo , ohio , is driving the transformation of health care infrastructure . the company invests with leading seniors housing operators , post- acute providers and health systems to fund the real estate and infrastructure needed to scale innovative care delivery models and improve people 2019s wellness and overall health care experience . welltowertm , a real estate investment trust (201creit 201d) , owns interests in properties concentrated in major , high-growth markets in the united states , canada and the united kingdom , consisting of seniors housing and post-acute communities and outpatient medical properties . our capital programs , when combined with comprehensive planning , development and property management services , make us a single-source solution for acquiring , planning , developing , managing , repositioning and monetizing real estate assets . the following table summarizes our consolidated portfolio for the year ended december 31 , 2016 (dollars in thousands) : type of property net operating income (noi) (1) percentage of number of properties .

	net operating income (noi) (1)	percentage of noi	number of properties
triple-net	1,208,860	-50.3	631
seniors housing operating	814,114	-33.9	420
outpatient medical	380,264	-15.8	262
totals	2,403,238	-100	1,313

(1) excludes our share of investments in unconsolidated entities and non-segment/corporate noi . entities in which we have a joint venture with a minority partner are shown at 100% (100 %) of the joint venture amount . business strategy our primary objectives are to protect stockholder capital and enhance stockholder value . we seek to pay consistent cash dividends to stockholders and create opportunities to increase dividend payments to stockholders as a result of annual increases in net operating income and portfolio growth . to meet these objectives , we invest across the full spectrum of seniors housing and health care real estate and diversify our investment portfolio by property type , relationship and geographic location . substantially all of our revenues are derived from operating lease rentals , resident fees and services , and interest earned on outstanding loans receivable . these items represent our primary sources of liquidity to fund distributions and depend upon the continued ability of our obligors to make contractual rent and interest payments to us and the profitability of our operating properties . to the extent that our customers/partners experience operating difficulties and become unable to generate sufficient cash to make payments to us , there could be a material adverse impact on our consolidated results of operations , liquidity and/or financial condition . to mitigate this risk , we monitor our investments through a variety of methods determined by the type of property . our proactive and comprehensive asset management process for seniors housing properties generally includes review of monthly financial statements and other operating data for each property , review of obligor/ partner creditworthiness , property inspections , and review of covenant compliance relating to licensure , real estate taxes , letters of credit and other collateral . our internal property management division actively manages and monitors the outpatient medical portfolio with a comprehensive process including review of tenant relations , lease expirations , the mix of health service providers , hospital/health system relationships , property performance .

WestRock (WRK)

2018

Document ID: Double_WRK/2018/page_39.pdf

holders of grupo gondi manage the joint venture and we provide technical and commercial resources . we believe the joint venture is helping us to grow our presence in the attractive mexican market . we have included the financial results of the joint venture in our corrugated packaging segment since the date of formation . we are accounting for the investment on the equity method . on january 19 , 2016 , we completed the packaging acquisition . the entities acquired provide value-added folding carton and litho-laminated display packaging solutions . we believe the transaction has provided us with attractive and complementary customers , markets and facilities . we have included the financial results of the acquired entities in our consumer packaging segment since the date of the acquisition . on october 1 , 2015 , we completed the sp fiber acquisition . the transaction included the acquisition of mills located in dublin , ga and newberg , or , which produce lightweight recycled containerboard and kraft and bag paper . the newberg mill also produced newsprint . as part of the transaction , we also acquired sp fiber's 48% (48 %) interest in green power solutions of georgia , llc (fffdgps fffd) , which we consolidate . gps is a joint venture providing steam to the dublin mill and electricity to georgia power . subsequent to the transaction , we announced the permanent closure of the newberg mill due to the decline in market conditions of the newsprint business and our need to balance supply and demand in our containerboard system . we have included the financial results of the acquired entities in our corrugated packaging segment since the date of the acquisition . see fffdnote 2 . mergers , acquisitions and investment fffdtt of the notes to consolidated financial statements for additional information . see also item 1a . fffd risk factors fffd fffdwe may be unsuccessful in making and integrating mergers , acquisitions and investments and completing divestitures fffd . business .

	year ended september 30 , 2018	year ended september 30 , 2017	year ended september 30 , 2016
net sales	16,285.1	14,859.7	14,171.8
segment income	1,685	1,193.5	1,226.2

in fiscal 2018 , we continued to pursue our strategy of offering differentiated paper and packaging solutions that help our customers win . we successfully executed this strategy in fiscal 2018 in a rapidly changing cost and price environment . net sales of \$ 16285.1 million for fiscal 2018 increased \$ 1425.4 million , or 9.6% (9.6 %) , compared to fiscal 2017 . the increase was primarily a result of an increase in corrugated packaging segment sales , driven by higher selling price/mix and the contributions from acquisitions , and increased consumer packaging segment sales , primarily due to the contribution from acquisitions (primarily the mps acquisition) . these increases were partially offset by the absence of net sales from hh&b in fiscal 2018 due to the sale of hh&b in april 2017 and lower land and development segment sales compared to the prior year period due to the timing of real estate sales as we monetize the portfolio and lower merchandising display sales in the consumer packaging segment . segment income increased \$ 491.5 million in fiscal 2018 compared to fiscal 2017 , primarily due to increased corrugated packaging segment income . with respect to segment income , we experienced higher levels of cost inflation during fiscal 2018 as compared to fiscal 2017 , which was partially offset by recycled fiber deflation . the primary inflationary items were freight costs , chemical costs , virgin fiber costs and wage and other costs . productivity improvements in fiscal 2018 more than offset the net impact of cost inflation . while it is difficult to predict specific inflationary items , we expect higher cost inflation to continue through fiscal 2019 . our corrugated packaging segment increased its net sales by \$ 695.1 million in fiscal 2018 to \$ 9103.4 million from \$ 8408.3 million in fiscal 2017 . the increase in net sales was primarily due to higher corrugated selling price/mix and higher corrugated volumes (including acquisitions) , which were partially offset by lower net sales from recycling operations due to lower recycled fiber costs , lower sales related to the deconsolidation of a foreign joint venture in fiscal 2017 and the impact of foreign currency . north american box

shipments increased 4.1% (4.1 %) on a per day basis in fiscal 2018 compared to fiscal 2017 . segment income attributable to the corrugated packaging segment in fiscal 2018 increased \$ 454.0 million to \$ 1207.9 million compared to \$ 753.9 million in fiscal 2017 . the increase was primarily due to higher selling price/mix , lower recycled fiber costs and productivity improvements which were partially offset by higher levels of cost inflation and other items , including increased depreciation and amortization . our consumer packaging segment increased its net sales by \$ 838.9 million in fiscal 2018 to \$ 7291.4 million from \$ 6452.5 million in fiscal 2017 . the increase in net sales was primarily due to an increase in net sales from acquisitions (primarily the mps acquisition) and higher selling price/mix partially offset by the absence of net sales from hh&b in fiscal 2018 due to the hh&b sale in april 2017 and lower volumes . segment income attributable to .

Zimmer Biomet (ZBH)
